**Abstract:** The interim rule published in the Federal Register at 67 FR 38896, June 6, 2002, revised FPMR 101-9 and moved it into the Federal Management Regulation at 102-192. The new rule, rewritten in plain language, established four requirements at the agency level. Specifically, all agencies must (1) have written security plans at the agency and facility level; (2) ensure that mail costs are identified at the program level; (3) ensure that all payments to the United States Postal Service are made using commercial payment processes (i.e., not using the Postal Service's Official Mail Accounting System)—the effective date of this requirement will be October 1, 2003; and (4) have performance measures for mail operations. In addition, the new rule requires all agencies that spend over \$1 million per year on postage to send GSA an annual report that states the total amounts spent on postage, verifies that facility security plans have been reviewed at the agency level, identifies performance measures in use, and describes the agency's plans to improve the

efficiency and effectiveness of their mail operations. This second interim rule amended the Federal Management Regulation (FMR) to extend the deadline for agencies to convert to commercial payment to the United States Postal Service instead of the Official Mail Accounting System (OMAS). This rule amended the interim rule published in the Federal Register at 67 FR 38896, June 6, 2002, to reflect the extension of the deadline from October 1, 2003, to December 31, 2003. **3459. FEDERAL MANAGEMENT REGULATION; MOTOR VEHICLE MANAGEMENT**

**Priority:** Substantive, Nonsignificant

**Legal Authority:** 40 USC 121(c)

**CFR Citation:** 41 CFR 102-34

**Legal Deadline:** None

**Abstract:** An amendment to FMR 102-34 has been drafted to incorporate

recent changes in the program. The significant changes proposed are:

1. The Fleet Average Fuel Economy Standards for FY 2000 and beyond is 20.7 miles per gallon for light trucks.
2. Motor vehicle identification requirements have been changed. All required identifiers are now to be included on the license plate: "For Official Use Only," "U.S. Government," and Federal agency or bureau identification. Previously, the identifiers were on decals that were placed on the vehicles. A waiver is currently allowing agencies to deviate from the decal requirement.
3. UNICOR is the mandatory supplier of official U.S. Government license plates. Lorton Prison in Virginia was the supplier for a number of years but has closed. The GSA Federal Vehicle Policy Division (MTV) initiated a Memorandum of Understanding (MOU) with UNICOR to provide license plates to all Federal agencies.
4. Agencies are identified by a letter code on the license plate. For example, the letter G designates GSA Fleet.
5. The exemption from displaying U.S. Government license plates and other motor vehicle identification currently did not allow agencies to request this on administrative vehicles that were not directly connected to investigative, law enforcement, or intelligence duties. Our office issued a waiver to this after the events of September 11, 2001, at the request of the agencies. This note has been removed to allow agencies to request an exemption on all their vehicles.
6. Addition of a clause that agencies are required to purchase EPA-designated content products such as re-refined engine oils, retread tires, and reclaimed engine coolant.
7. The Federal Motor Vehicle Fleet Report reporting is now accomplished through the Federal Automotive Statistical Tool (FAST). FAST is an Internet-based reporting system used by GSA and the Department of Energy to capture motor vehicle inventory, cost, fuel, and use data from all Federal agencies.
8. A new subpart has been added on Environmental Concerns, which addresses hazardous wastes, Clean Air Act Amendments of 1990, Energy Policy Act of 1992, Executive Order 13149, the Federal Fleet Program, EPA-designated recycled content products, and the Federal Alternative Fuel Vehicle USER Program.
