Proposed Rule Stage

3472. • NASA SCIENCE AND TECHNOLOGY SCHOLARSHIP (STSP)

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: PL 108–201, sec 9809; PL 108–201, sec 9803; PL 108–201, sec 9815; 42 USC 2451

CFR Citation: 14 CFR 1200

Legal Deadline: None

Abstract: The STSP is a competitive scholarship program intended to guide U.S. students toward NASA-related science and engineering careers. The program will provide tuition scholarships to U.S. citizens and permanent residents, of diverse geographic and demographic backgrounds, enrolled in accredited institutions of higher education (university, college, or community college) degree programs in engineering, science, and other technology fields. Scholarship recipients will enter into an agreement to serve as full-time employees with NASA upon graduation. The service obligation equates to serving a 2-year appointment with NASA for each academic year under scholarship. Students under scholarship for 2 or more academic years will have a maximum service obligation of 4 years. Participation in STSP is limited to 4 academic years. NASA may also elect to defer the obligation to allow students to pursue graduate level studies in a NASA-approved field of study. The regulations will capture program aspects defined by the authorizing

legislation. The regulations must also establish the dollar amount of the scholarship, determine the authorized expenses the scholarship funding covers, define the terms and conditions for deferral of the service obligation, define academic standing required to retain the scholarship, determine appropriate repayment period extension, and provide for the partial or total waiver or suspension of any obligation of service or payment incurred by an individual.

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: PL 108–201

CFR Citation: 14 CFR 1205

Legal Deadline: None

Abstract: The Astronaut Health Care Provision initiative responds to a critical need identified by NASA, with concurrence by the Institute of Medicine, to create a comprehensive health care system for astronauts and their families which enables the capture and study of all relevant data necessary to ameliorate the risks of space flight. The Astronaut Care Provision effort focuses on the best means to develop a responsible, complete, and comprehensive health insurance program for astronauts and their dependents. If successfully designed and implemented, such a program should enhance understanding of how humans can travel safely and live longer and, as an additional benefit, how humans can live longer on earth.

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 2473(c)(1)

CFR Citation: 48 CFR 1809; 48 CFR 1852

Abstract: The rule amends the NASA FAR Supplement to include policy, guidance, and contract clauses addressing contractor access to sensitive information. This change is in response to the increased use of data management systems and reliance on contractors to support the administrative and technical functions of the Agency. This combination of factors has resulted in the increased need to release sensitive information generated by the Government or obtained from other contractors to non-Government employees.

3481. • SMALL SELF-CONTAINED PAYLOADS

Priority: Other Significant

Legal Authority: Not Yet Determined

CFR Citation: 14 CFR 1214.9

Legal Deadline: None

Abstract: We are removing the subject document from the Code of Federal Regulations publication in order to terminate the SSCP program. This rule established the rules on Space Shuttle services that are provided by NASA to participants in the SSCP Program, also known as the Get-Away Special (GSA)

program. As NASA returns the Space Shuttle to flight, new safety enhancements and a backlog of Space Station up-mass requirements will severely constrain the Agency's ability to launch secondary and tertiary payloads aboard the Space Shuttle. The President's FY05 Budget directed NASA to terminate the Payload Carriers program, including the GAS, Hitchhiker, and SEM programs. Funding was only provided for Program termination and phaseout. Customers, both internal and external, are being notified of the termination.
