Spring 2004 Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Commerce.

ACTION: Semiannual regulatory agenda.

SUMMARY: In compliance with Executive Order 12866 entitled "Regulatory Planning and Review" and the Regulatory Flexibility Act, as amended, the Department of Commerce (Department), in the spring and fall of each year, publishes in the **Federal Register** an agenda of regulations under development or review over the next 12 months. Rulemaking actions are grouped according to prerulemaking, proposed rules, final rules, long-term actions, and rulemaking actions completed since the fall 2003 agenda. The purpose of the agenda is to provide information to the public on regulations currently under review, being proposed, or issued by the Department. The agenda is intended to facilitate comments and views by interested members of the public.

The Department's fall 2003 regulatory agenda includes regulatory activities that are expected to be conducted during the period April 1, 2004, through March 31, 2005.

FOR FURTHER INFORMATION CONTACT:

Specific: For additional information about specific regulatory actions listed

in the agenda, contact the individual identified as the contact person.

General: Comments or inquiries of a general nature about the agenda should be directed to Daniel Cohen, Chief Counsel for Regulation, Office of the Assistant General Counsel for Legislation and Regulation, U.S. Department of Commerce, Washington, DC 20230; telephone: 202-482-3151.

SUPPLEMENTARY INFORMATION: Executive Order 12866 requires agencies to publish an agenda of those regulations that are under consideration pursuant to this order. By memorandum of April 6, 2004, the Office of Management and Budget issued guidelines and procedures for the preparation and publication of the Fall 2003 Unified Agenda of Federal Regulatory and Deregulatory Actions. The Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, requires agencies to publish, in the spring and fall of each year, a regulatory flexibility agenda which contains a brief description of the subject area of any rule which is likely to have a significant economic impact on a substantial number of small entities. The agenda also identifies those entries that have been selected for periodic review under section 610 of the Regulatory Flexibility Act.

Explanation of Information Contained in the Agenda

Within the Department, the Office of the Secretary and various operating units may issue regulations. Operating units, such as the National Oceanic and Atmospheric Administration (NOAA), the Bureau of Industry and Security, and the Patent and Trademark Office issue the greatest share of the Department's regulations.

A large number of regulatory actions reported in the agenda deal with fishery management programs of NOAA's National Marine Fisheries Service (NMFS). To avoid repetition of programs and definitions, as well as to provide some understanding of the

technical and institutional elements of the NMFS programs, a section on "Explanation of Information Contained in NMFS Regulatory Entries" is provided below.

Explanation of Information Contained in NMFS Regulatory Entries

The Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*) (Act) governs the management of fisheries within the Exclusive Economic Zone (EEZ). The EEZ refers to those waters from the outer edge of the State boundaries, generally 3 nautical miles, to a distance of 200 nautical miles. Fishery Management Plans (FMPs) are to be prepared for fisheries, which require conservation and management measures. Regulations implementing these FMPs regulate domestic fishing and foreign fishing where permitted. Foreign fishing can be conducted in a fishery in which there is no FMP only if a preliminary fishery management plan has been issued to govern that foreign fishing. Under the Act, eight Regional Fishery Management Councils (Councils) prepare FMPs or amendments to FMPs for fisheries within their respective areas. In the development of such plans or amendments and their implementing regulations, the Councils are required by law to conduct public hearings on the draft plans and to consider the use of alternative means of regulating.

The Council process for developing FMPs and amendments makes it difficult for NMFS to determine the significance and timing of some regulatory actions under consideration by the Councils at the time the semiannual regulatory agenda is published.

The Department's spring 2004 regulatory agenda follows.

Theodore W. Kassinger,
General Counsel.

Bureau of Economic Analysis—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
290	BE-80, Benchmark Survey of Financial Services Transactions Between U.S. Financial Services Providers and Un-affiliated Foreign Persons	0691-AA51
291	Benchmark Survey of U.S. Direct Investment Abroad - 2004	0691-AA52

DOC

Bureau of Economic Analysis—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
292	International Services Surveys: BE-9, Quarterly Survey of Foreign Airline Operators' Revenues and Expenses in the United States	0691-AA55

Bureau of Economic Analysis—Completed Actions

Sequence Number	Title	Regulation Identifier Number
293	Annual Survey of Foreign Direct Investment in the United States	0691-AA48
294	Quarterly Surveys of International Trade in Services Between U.S. and Foreign Persons	0691-AA49
295	International Services Surveys: BE-85, Quarterly Survey of Financial Services Transactions Between U.S. Financial Services Providers and Unaffiliated Foreign Persons	0691-AA50
296	International Services Surveys: BE-45, Quarterly Survey of Insurance Transactions by U.S. Insurance Companies With Foreign Persons	0691-AA53
297	International Services Surveys: BE-25, Quarterly Survey of Transactions With Unaffiliated Foreign Persons in Selected Services and in Intangible Assets	0691-AA54

Bureau of the Census—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
298	Full Mandatory Automated Export System (AES) Filing for Export Shipments	0607-AA38
299	Amendments to Age Search Fee Structure	0607-AA41

Bureau of the Census—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
300	Cutoff Dates for Recognition of Boundary Changes for Census 2000 and for the Intercensal Period	0607-AA35

Bureau of the Census—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
301	Establishment of the 2010 Census Redistricting Program	0607-AA42

Bureau of the Census—Completed Actions

Sequence Number	Title	Regulation Identifier Number
302	Annual Trade Survey	0607-AA40

Economic Development Administration—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
303	Economic Development Administration Regulations	0610-AA63

DOC

General Administration—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
304	Federal Policy for the Protection of Human Subjects, Technical Amendments	0605-AA17

International Trade Administration—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
305	Procedures for Conducting Five-Year (Sunset) Reviews of Antidumping and Countervailing Duty Orders	0625-AA51

International Trade Administration—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
306	Import of Certain Worsted Wool Fabric: Implementation of Tariff Rate Quota Established Under Title V of the Trade and Development Act of 2000	0625-AA58
307	Commercial Availability of Fabric and Yarn	0625-AA59
308	Steel Import Licensing and Surge Monitoring	0625-AA64

International Trade Administration—Completed Actions

Sequence Number	Title	Regulation Identifier Number
309	Changes in the Insular Possessions Watch, Watch Movement, and Jewelry Program	0625-AA63

Bureau of Industry and Security—Prerule Stage

Sequence Number	Title	Regulation Identifier Number
310	License Exception APR for Reexports To, From, and Among Countries in Country Group A:1	0694-AC69

Bureau of Industry and Security—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
311	Chemical Weapons Convention Regulations	0694-AB06
312	Short Supply Controls: Crude Oil Exports	0694-AC25
313	Removal of Licensing Exemption for Exports and Reexports of Missile Technology-Controlled Items Destined to Canada	0694-AC48
314	Knowledge Definition, Safe Harbor, Red Flags	0694-AC94
315	Export Administration Regulations: Removal of Country Groups	0694-AD09

Bureau of Industry and Security—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
316	Exports and Reexports to Sudan	0694-AC05
317	Mandatory Electronic Filing of License Applications, Classification Requests, and License Exceptions Notifications via BIS's Simplified Network Application Process (SNAP)	0694-AC20

DOC

Bureau of Industry and Security—Final Rule Stage (Continued)

Sequence Number	Title	Regulation Identifier Number
318	License Exception AVS: Cuba, Libya, and Serbia	0694-AC33
319	License Application Denial Policy, "Red Flag" Indicators of Possible Inappropriate End-Use, End-User, or Destination	0694-AC68
320	Revisions of Aircraft Export Licensing Jurisdiction Based on Review of the United States Munitions List	0694-AC74

290. BE-80, BENCHMARK SURVEY OF FINANCIAL SERVICES TRANSACTIONS BETWEEN U.S. FINANCIAL SERVICES PROVIDERS AND UNAFFILIATED FOREIGN PERSONS

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 3101 to 3108

CFR Citation: 15 CFR 801

Legal Deadline: None

Abstract: This action will amend existing rule 15 CFR 801.11 to provide for the conduct of the BE-80, Benchmark Survey of Financial Services Transactions Between U.S. Financial Services Providers and Unaffiliated Foreign Persons - 2004, as required in the International Investment and Trade in Services Survey Act, 22 USC 3101 to 3108 (see especially section 4(b) of the Act). The existing rule covers a similar survey for 1999, which has been completed and which the new survey will update.

294. QUARTERLY SURVEYS OF INTERNATIONAL TRADE IN SERVICES BETWEEN U.S. AND FOREIGN PERSONS

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 3101 to 3108

CFR Citation: 15 CFR 801

Legal Deadline: None

Abstract: This action will amend existing rule 15 CFR 801.9 to require quarterly reporting of trade in services between U.S. and foreign persons for a number of services that up to now have been reported annually. The collection of quarterly information on international services activity is needed to support a Government initiative to provide more timely data on trade in the largest and most volatile services.

295. INTERNATIONAL SERVICES SURVEYS: BE-85, QUARTERLY SURVEY OF FINANCIAL SERVICES TRANSACTIONS BETWEEN U.S. FINANCIAL SERVICES PROVIDERS AND UNAFFILIATED FOREIGN PERSONS

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 3101 to 3108; 15 USC 4908

CFR Citation: 15 CFR 801

Legal Deadline: None

Abstract: This rule would amend 15 CFR part 801 to institute a new survey, BE-85, Quarterly Survey of Financial Services Transactions Between U.S. Financial Services Providers and Unaffiliated Foreign Persons, to be conducted by the Bureau of Economic Analysis (BEA), U.S. Department of Commerce. The BE-85 survey is mandatory and will be conducted under the International Investment and Trade in Services Survey Act and under Section 5408 of the Omnibus Trade and Competitiveness Act of 1988. The first survey conducted under this rule will cover transactions in the first quarter of 2004.

The BE-85 survey will cover the same financial services presently covered by the BE-82, Annual Survey of Financial Service Transaction Between U.S. Financial Service Providers and Unaffiliated Foreign Persons. Following a final annual data collection for 2003, the BE-85 survey would replace the BE-82.

Data from the BE-85 survey are needed to monitor trade in financial services, analyze its impact on the U.S. and foreign economies, compile and improve the U.S. economic accounts, support U.S. commercial policy on financial services, conduct trade promotion, improve the ability of U.S. businesses to identify and evaluate market opportunities, and for other Government uses.

296. INTERNATIONAL SERVICES SURVEYS: BE-45, QUARTERLY SURVEY OF INSURANCE TRANSACTIONS BY U.S. INSURANCE COMPANIES WITH FOREIGN PERSONS

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 3101 to 3108

CFR Citation: 15 CFR 801

Legal Deadline: None

Abstract: The Bureau of Economic Analysis (BEA) amends 15 CFR part 801 to institute a new survey, BE-45, Quarterly Survey of Insurance Transactions by U.S. Insurance Companies with Foreign Persons, to be conducted by BEA.

The survey is mandatory and will be conducted under the International Investment and Trade in Services Survey Act. Data from the proposed BE-45 survey are needed to monitor trade in insurance services, analyze its impact on the U.S. and foreign economies, compile and improve the U.S. economic accounts, support U.S. commercial policy on insurance

DOC—BEA

Completed Actions

services, conduct trade promotion, improve the ability of U.S. businesses to identify and evaluate market opportunities, and for other Government uses.

The survey will cover the same insurance services presently covered by the BE-48, Annual Survey of Reinsurance and Other Insurance Transactions by U.S. Insurance Companies with Foreign Persons, and auxiliary insurance services presently covered by the Benchmark and Annual Surveys of Selected Services Transactions with Unaffiliated Foreign Persons (Forms BE-20 and BE-22).

297. INTERNATIONAL SERVICES SURVEYS: BE-25, QUARTERLY SURVEY OF TRANSACTIONS WITH UNAFFILIATED FOREIGN PERSONS IN SELECTED SERVICES AND IN INTANGIBLE ASSETS

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 3101 to 3108

CFR Citation: 15 CFR 801

Legal Deadline: None

Abstract: The Bureau of Economic Analysis (BEA) amends 15 CFR part 801 to institute a new survey, BE-25, Quarterly Survey of Transactions with Unaffiliated Foreign Persons in Selected Services and in Intangible Assets, to be conducted by the BEA.

Data from the proposed BE-25 survey are needed to monitor trade in services and intangible assets, analyze its impact on the U.S. and foreign economies, compile and improve the U.S. economic accounts, support U.S. commercial policy on financial services, conduct trade promotion, improve the ability of U.S. businesses to identify and evaluate market opportunities, and for other Government and public uses.

The proposed survey will cover some of the selected services presently covered by the BE-22, Annual Survey of Selected Services Transactions with Unaffiliated Foreign Persons. The selected services covered by the BE-25 survey will be removed from the BE-22 survey after the survey for 2003 is conducted. The BE-22 survey will continue to be conducted for those

services that were not moved to the BE-25 survey. The proposed survey will also cover construction, engineering, architectural, and surveying services presently covered by the BE-47, Annual Survey of Construction, Engineering, Architectural, and Mining Services Provided by U.S. Firms to Unaffiliated Foreign Persons, and will cover the same transactions in intangible assets presently covered by the BE-93, Annual Survey of Royalties, License Fees, and Other Receipts and Payments for Intangible Rights Between U.S. and Unaffiliated Foreign Persons; both of these annual surveys would be discontinued, following a final data collection for 2003.

298. FULL MANDATORY AUTOMATED EXPORT SYSTEM (AES) FILING FOR EXPORT SHIPMENTS

Priority: Substantive, Nonsignificant

Legal Authority: PL 107-228, sec 1404

CFR Citation: 15 CFR 30

Legal Deadline: None

Abstract: The Bureau of the Census is amending the Foreign Trade Statistics Regulations to require mandatory filing through the Automated Export System (AES) of all export information, including information for shipments where filing of a Shipper's Export Declaration was formerly required. The

AES is an electronic method by which export information is transmitted. This amendment will specify the provisions and filing responsibilities of parties exporting commodities from the United States.

DOC—CENSUS

Proposed Rule Stage

299. • AMENDMENTS TO AGE SEARCH FEE STRUCTURE**Priority:** Substantive, Nonsignificant**Legal Authority:** 13 USC 3; 13 USC 8**CFR Citation:** 15 CFR 50.5**Legal Deadline:** None**Abstract:** The Bureau of the Census (Census Bureau) amends its regulations to increase the fee for an age search from \$40 to \$65. This change is being made to recover the increase in cost

to process due to increased operating costs. The Census Bureau also adds an additional charge of \$20 per case for expedited requests requiring search results within one day. This fee for expedited requests recovers only the cost associated with this service.

Priority: Substantive, Nonsignificant

Legal Authority: 19 USC 1671 et seq; 19 USC 1673 et seq; 19 USC 1303

CFR Citation: 19 CFR 351

Legal Deadline: None

Abstract: On May 19, 1997 (62 FR 27296), the Department of Commerce (the Department) published final rules on, inter alia, procedures for conducting antidumping and countervailing duty proceedings to conform the Department's existing regulations to the Uruguay Round

Agreements Act (URAA). Although these regulations contain provisions on the conduct of sunset reviews, the Department is planning to amend the regulations to provide more guidance on the procedures for conducting sunset reviews. Specifically, the Department proposes to amend the procedural regulations for participation

DOC—ITA

Final Rule Stage

in, and conduct of, sunset reviews to add two definitions to provide shorthand expressions for 120-day and 240-day sunset reviews; provide deadlines for certain submissions; clarify the information to be provided by parties participating in a sunset review; clarify when the Department will conduct a 120-day or a 240-day sunset review; and provide time limits

for actions to be taken by the Department.

309. CHANGES IN THE INSULAR POSSESSIONS WATCH, WATCH MOVEMENT, AND JEWELRY PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: PL 97-446

CFR Citation: 15 CFR 303

Legal Deadline: None

Abstract: The Departments amend their regulations governing watch duty-exemptions and the watch and jewelry

duty-refund benefits for producers in the United States insular possession (the U.S. Virgin Islands, Guam, American Samoa and the Commonwealth of the Northern Mariana Islands). This amends ITA regulations, due to changes in the industry, by updating the watch assembly requirements for purposes of the duty refund. We also amend 15 CFR 303 to reflect the new designations that were created with the addition of the Department of Homeland Security.

CFR Citation: 15 CFR 740; 15 CFR 742; 15 CFR 743; 15 CFR 748; 15 CFR 754; 15 CFR 772

Legal Deadline: None

Abstract: This rule would change the Export Administration Regulations as needed to implement a revised version of the Bureau of Industry and Security's Simplified Network Application Processing (SNAP) system. This rule also would make use of that system mandatory for all filings of Export License applications (except Special Comprehensive Licenses and deemed export licenses), Reexport Authorization requests, Classification requests, Encryption Review requests, and License Exception AGR notifications unless the Bureau of Industry and Security authorizes paper filing for a particular user or transaction. This rule also would authorize SNAP filing for special reports of certain items controlled under the Wassenaar Arrangement. This rule also would eliminate all provisions of the regulations associated with earlier versions of SNAP and other electronic filing systems that the Bureau of Industry and Security has used in the past, as use of those systems would be terminated upon introduction of the new version of SNAP (SNAP 2002). Those eliminated provisions include the requirements regarding personal identification numbers (PINs) and the requirement for users to keep logs of items filed electronically. This rule also would require that requests for advisory opinions include the Export Control Classification Number of the item(s) at issue, revise emergency license application procedures, set the value of all aircraft licensed for temporary sojourn abroad to zero and correct some omissions, misstatements and typographical errors.

CFR Citation: 15 CFR 732; 15 CFR 744.11

Legal Deadline: None

Abstract: This rule makes explicit BIS's policy of denying export license applications when a sanction imposed on a party pursuant to a statute requires such denial. Such sanctions are imposed for activities contrary to United States foreign policy interests or that contribute to the proliferation of weapons of mass destruction. This rule also makes the imposition of such sanctions or publication of a party's name on the BIS "Unverified List" a "red flag" triggering a need for heightened scrutiny when dealing with such parties in transactions that are subject to the Export Administration Regulations.

320. REVISIONS OF AIRCRAFT EXPORT LICENSING JURISDICTION BASED ON REVIEW OF THE UNITED STATES MUNITIONS LIST

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401; 50 USC 1701; EO 13026; EO 13222

DOC—BIS

Final Rule Stage

CFR Citation: 15 CFR 748; 15 CFR 774**Legal Deadline:** None

Abstract: This rule amends the Export Administration Regulations (EAR) to implement decisions to move export licensing jurisdiction of certain types of cargo aircraft and parts therefor from the Department of State, Office of Defense Trade Controls (DTC) to the Department of Commerce, Bureau of Industry and Security (BIS) and to move export licensing jurisdiction for certain jet trainer aircraft and specially designed component parts from BIS to DTC. A complementary rule amending the International Traffic in Arms Regulations will be published by the Department of State. This rule implements decisions reached in the ongoing review of the United States Munitions List that is part of the Defense Trade Security Initiative. That initiative, announced on May 24, 2000, at a NATO ministerial meeting by the Secretary of State, includes annual review of portions of the United States Munitions List with the objective of reviewing the entire list every four years.

321. REVISIONS OF ENERGETIC MATERIAL EXPORT LICENSING JURISDICTION BASED ON REVIEW OF THE UNITED STATES MUNITIONS LIST

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401; 50 USC 1701; 18 USC 2510; 22 USC 3201; 42 USC 2139a; PL 106-387; PL 107-56; EO 12058; EO 12851; EO 12938; EO 13026; EO 13222; ...

CFR Citation: 15 CFR 742; 15 CFR 770; 15 CFR 748

Legal Deadline: None

Abstract: This final rule amends the Export Administration Regulations (EAR) to implement decisions to move export licensing jurisdiction of certain types of energetic materials and other chemicals from the Department of State, Office of Defense Trade Controls (DTC) to the Department of Commerce, Bureau of Industry and Security (BIS) and to move such jurisdiction for other chemicals from BIS to DTC. This rule along with a complementary rule published by the Department of State (67 FR 70839, November 27, 2002) implements decisions reached in an ongoing review of the USML that is part of the Defense Trade Security Initiative. That initiative, announced on May 24, 2000, at a NATO ministerial meeting by the Secretary of State, includes annual review of portions of the USML with the objective of reviewing the entire list every four years.

322. EXPORT AND REEXPORT CONTROLS ON IRAQ

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401; 50 USC 1701; 10 USC 7420; 10 USC 7430; 18 USC 2510; 22 USC 287; 22 USC 3201; 22 USC 6004; 30 USC 185; 42 USC 2139; 42 USC 6212; 43 USC 1354; 46 USC 466; 50 USC app 5; PL 106-387; PL 107-56; EO 13026; EO 13222

CFR Citation: 15 CFR 732; 15 CFR 738; 15 CFR 740; 15 CFR 742; 15 CFR 744; 15 CFR 746; 15 CFR 750; 15 CFR 752; 15 CFR 758; 15 CFR 762; 15 CFR 774

Legal Deadline: None

Abstract: This rule establishes the new export control policy for exports to Iraq under the licensing responsibility of the

Bureau of Industry and Security. The new export control policy reflects the changed circumstances in Iraq and is consistent with changes in U.S. legal authorities concerning Iraq and actions taken by the United Nations Security Council with respect to the embargo against Iraq.

324. • REVISIONS TO THE EXPORT ADMINISTRATION REGULATIONS: MISSILE TECHNOLOGY PRODUCTION EQUIPMENT AND FACILITIES CONTROLLED UNDER ECCNS 9B115 AND 9B116

Priority: Substantive, Nonsignificant**Legal Authority:** 50 USC 2401; 50 USC 1701; EO 13222**CFR Citation:** 15 CFR 774**Legal Deadline:** None

Abstract: This rule amends the Commerce Control List (CCL) (Supplement No. 1 to part 774 of the EAR) to clarify and correct the scope of controls for production equipment and facilities for MT items in ECCNs 9B115 and 9B116. Specifically, because the MTCR Annex does not list production equipment for space launch vehicles or sounding rockets, this rule revises 9B115 to remove production equipment described in ECCN 9A004, the ECCN describing MT controls on space launch vehicles, and ECCN 9A104, the ECCN describing MT controls on sounding rockets. The MTCR Annex does list production facilities for space launch vehicles; however, because 9A004 includes "spacecraft" that are not controlled for MT reasons, the scope of control for production facilities described by ECCN 9B116 is too broad. Therefore, this rule

amends ECCN 9B116 to specify that only production facilities for space launch vehicles described in ECCN 9A004 are subject to MT control.

In addition, the headings of ECCNs 9B115 and 9B116 are revised to include production equipment and production facilities, respectively, for components, systems and structures for launch vehicles, launch vehicle propulsion systems or "spacecraft" described in ECCN 9A010.

325. • TERMINATION OF CERTAIN EMERGENCIES WITH RESPECT TO YUGOSLAVIA AND RELATED REMOVAL OF RESTRICTIONS ON TRANSACTIONS WITH PERSONS IDENTIFIED BY THE BRACKETED INITIALS [FRYM] UNDER THE EXPORT ADMIN. REGS.

Priority: Substantive, Nonsignificant**Legal Authority:** 50 USC app. 2401 et seq; 50 USC 1701 et seq; 22 USC 3201 et seq; 42 USC 2139a; PL 106-387; PL 107-56; EO 12058; EO 12851; EO 12938; EO 12947; EO 13026; EO 13099; EO 13222; EO 13224**CFR Citation:** 15 CFR 744**Legal Deadline:** None

Abstract: The President issued Executive Order 13304, effective on May 29, 2003, that, among other actions, terminated certain emergencies with respect to Yugoslavia that were declared in 1992 and 1998. Executive Order 13304's termination of the 1998 emergency removed most controls on certain persons identified by the bracketed initials [FRYM] on the list of Specially Designated Nationals and Blocked Persons maintained by the

Department of the Treasury in 31 CFR chapter V. In this rule, the Bureau of Industry and Security removes from its regulations the restrictions on exports and reexports to persons identified by the bracketed initials [FRYM] on the list of Specially Designated Nationals and Blocked Persons.

327. • EXPANSION OF AVAILABILITY OF LICENSE EXCEPTION CIV FOR CERTAIN DEEMED EXPORTS OF MICROPROCESSOR TECHNOLOGY; AND ESTABLISHMENT OF "FOREIGN NATIONAL REVIEW" SUPPORT STATEMENT FOR DEEMED EXPORTS

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; 10 USC 7420; 18 USC 2510; ...

CFR Citation: 15 CFR 740; 15 CFR 748; 15 CFR 774

Legal Deadline: None

Abstract: The Bureau of Industry and Security (BIS) is expanding the availability of License Exception CIV for certain deemed exports of microprocessor technology on the Commerce Control List (CCL) of the Export Administration Regulations (EAR) under Export Classification Control Numbers (ECCN) 3E001 and 3E002. These ECCNs control technology that can be used for the development and production of microprocessors. The proposed rule published on October 24, 2003 included the export and reexport of generalpurpose microprocessor technology under License Exception CIV. Eligibility for License Exception CIV in the final rule is limited to deemed exports for certain microprocessor technology. BIS has determined that further liberalization of controls on exports of microprocessor

technology must await agreement in the Wassenaar Arrangement. This rule also establishes a new "Foreign National Review" (FNR) Support Statement requirement for deemed exports of technology in the EAR, incorporating guidance that has been posted on BIS's Web site.

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401 et seq; 50 USC 1701 et seq; 18 USC 2510 et seq; 22 USC 3201 et seq; 42 USC 2139a; PL 106-387; PL 107-56; EO 12058; EO 12851; EO 12938; EO 13026; EO 13222

CFR Citation: 15 CFR 744

Legal Deadline: None

Abstract: This rule removes the Indian Space Research Organization (ISRO) Headquarters in Bangalore from the Department of Commerce Entity List contained in Supplement No. 4 to Part 744 of the Export Administration Regulations (EAR). It removes the license requirement for the seven (7) ISRO subsidiaries listed on the Entity List for all items subject to the Export Administration Regulations (EAR) having a classification of EAR99 or a classification where the third through fifth digits of the Export Commodity Classification Number (ECCN) are "999", e.g., XX999. It establishes a presumption of approval for all items not controlled for nuclear proliferation reasons going to the "balance of plant" portion of Indian nuclear facilities subject to International Atomic Energy Agency safeguards (Rajasthan 1 & 2 and Tarapur 1 & 2). "Balance of plant" refers to the part of a nuclear power plant used for power generation (e.g., turbines, controllers, or power distribution) to distinguish it from the nuclear reactor.

336. • AMENDMENTS TO THE EXPORT ADMINISTRATION REGULATIONS (EAR) IMPLEMENTING THE "CATCH-ALL" PROVISIONS IN THE AUSTRALIA GROUP (AG) "GUIDELINES FOR TRANSFERS OF SENSITIVE CHEMICAL OR BIOLOGICAL ITEMS"

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 50 USC app 2401; 50 USC 1701; 22 USC 3201; 42 USC 2139a

; PL 106-387; PL 107-56 ; EO 12058; EO 12851; EO 12938; EO 12947; EO 13026; EO 13099; EO 13222; EO 13224

CFR Citation: 15 CFR 744

Legal Deadline: None

Abstract: This final rule amends the "end-user/end-use" controls in section 744.4(a) of the Export Administration Regulations (EAR) to conform with the country scope of the "catch-all" provisions in the Australia Group's "Guidelines for Transfers of Sensitive Chemical or Biological Items." Currently, section 744.4(a) of the EAR requires a license only to countries of concern for chemical and/or biological weapons reasons (i.e., Country Group D:3 in Supplement No. 1 to Part 740 of the EAR). This final rule would amend section 744.4(a) of the EAR by expanding the number of countries subject to this EAR "end-user/end-use" license requirement to include all destinations, worldwide, including the countries identified in Country Group A:3 (i.e., the AG-participating countries).

338. • REVISION OF EXPORT AND REEXPORT RESTRICTIONS ON CUBA

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401 et seq; 22 USC 287c; 22 USC 6004; PL 106-387; PL 107-56; EO 12854; EO 12918; EO 13222

CFR Citation: 15 CFR 740; 15 CFR 746

Legal Deadline: None

Abstract: This rule narrows the scope of items that may be included in gift parcels exported to Cuba under License Exception Gift and Humanitarian Donations (GFT). Prior to publication of this rule only commodities listed on the CCL with a reason for control based on one or more multilateral export control regimes (i.e., the Wassenaar Arrangement (reason for control: National Security - NS); the Nuclear Suppliers' Group (reason for control: Nuclear Nonproliferation - NP); the Australia Group (reasons for control: Chemical and Biological Weapons - CB); and the Missile Technology

Control Regime (reason for control: Missile Technology - MT) were ineligible for gift parcels to Cuba. This rule makes all items listed in any specific entry on the CCL ineligible.

This rule also narrows the list of eligible commodities that can be included in gift parcels from 14 categories to five. The eligible categories are: food; vitamins; medical supplies and devices; receive-only radio equipment for reception of commercial/civil AM/FM and short wave publicly available frequency bands; and batteries for such equipment. This rule makes seeds, vitamins, hospital supplies and equipment, equipment for the handicapped, clothing, personal hygiene items, veterinary medicines and supplies, fishing equipment and supplies, and soap-making equipment ineligible for gift parcels to Cuba. The rule lowers the allowed value of the non-food items in each parcel from \$200 to \$100, and limits the delivery of such parcels to once per month per household, instead of once per month per individual recipient. Parcels are now prohibited to any household that includes a senior-level Cuban government official or senior-level communist party official.

CFR Citation: 15 CFR 740; 15 CFR 748; 15 CFR 774

Legal Deadline: None

Abstract: This final rule expands the availability of license exceptions for exports and reexports of computer technology and software under the Export Administration Regulations (EAR), as set forth in a proposed rule published on October 24, 2003. In addition, this final rule clarifies certain provisions of License Exception CTP.

This rule also establishes a new "Foreign National Review (FNR)" procedure for deemed exports of technology or source code software under License Exception CTP.

CFR Citation: 15 CFR 734; 15 CFR 740; 15 CFR 742; 15 CFR 744; 15 CFR 772

Legal Deadline: None

Abstract: This action removes the requirements for a separate case-by-case, U.S. Government review of some encryption items to determine whether foreign-made items incorporating them are eligible for de minimis treatment. Foreign-made items incorporating those encryption items will now be treated like other U.S. origin items in determining de minimis eligibility. This rule reduces the notification requirements for exports and reexports of certain “publicly available” items that have been posted to the Internet by removing the requirement to notify the U.S. Government of updates or modifications if the Internet location has not changed. This rule simplifies

License Exception ENC review requirements for exports and reexports of eligible encryption items, by implementing a 30-day limit on most encryption reviews and by clarifying the criteria by which licensing requirements to certain “government end-users” is determined. In connection with this new 30-day limit, this rule authorizes BIS to require additional technical information about a reviewed item after the review is completed and, if the information is not furnished, to suspend or revoke authorization to use License Exception ENC with respect to the item for which the information is sought. This rule also expands the list of countries to which certain encryption items may be sent immediately after notification to the U.S. Government. The list now covers all current members of the European Union. This rule updates and clarifies several encryption review requirements by revising License

Exception ENC, Supplement No. 3 to part 740 and the definition of the term “hold without action” in the Export Administration Regulations. This rule also makes some technical changes.

355. ELIMINATION OF "NATIONAL SECURITY" AS A REASON FOR CONTROL FOR CERTAIN ITEMS ON THE COMMERCE CONTROL LIST

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; 18 USC 2510; EO 13222; EO 12058; ...

CFR Citation: 15 CFR 742; 15 CFR 774

Legal Deadline: None

Abstract: This rule amends the Commerce Control List (CCL) to eliminate "National Security" as a reason for control with respect to certain items. This rule is needed to make the CCL conform to Section 5(c)(6)(A) of the Export Administration Act (the Act), which provides that unilateral national security controls expire six months after enactment of the Act or of the control (whichever is later) unless a determination has been made under section 5 of the Act that there is no foreign availability of the items or unless the President is pursuing negotiations to end such availability. All but four of the items affected by this rule are moved to other Export Control Classification Numbers (ECCNs) on the CCL. Two of the items that are removed from the CCL (bayonets and technology for the design, production or use of bayonets) are transferred to the United States Munitions List. The other two items (muzzle-loading firearms and technology for the design, production or use of muzzle-loading firearms) are now EAR99.

Abstract: The Bureau of Industry and Security (BIS) is reviewing the current limit for use of License Exception TSR for exports and reexports of technology and software on the Commerce Control List (CCL) of the Export Administration Regulations (EAR) under Export Classification Control Numbers (ECCNs) 4D001 and 4E001. These ECCNs control technology and software that can be used for the development, production, or use of computers. The goal of this notice is to collect information from industry that will assist BIS in evaluating whether the current TSR eligibility level of 33,000 Millions of Theoretical Operations per Second (MTOPS) for exports and reexports to most countries should be adjusted, taking into consideration the control level for the export of computer equipment and the control policies of other member countries of the Wassenaar Arrangement.

Abstract: Export Control Classification Number (ECCN) 1A004 in the Commerce Control List (CCL) provides that protection and detection equipment and components not specially designed for military use are subject to the licensing authority of the Department of State, Office of Defense Trade Controls (DTC). The Bureau of Industry and Security (BIS) has received information suggesting that the existing rule commits to DTC authority a number of items that have primarily civil end uses. This rule draws a distinction between items subject to DTC control and items subject to the Export Administration Regulations (EAR) by modifying ECCN 1A004 and creating a new ECCN 1A995.

Abstract: The Bureau of Industry and Security is amending the Export Administration Regulations to add several names to the Country Chart to more accurately reflect the current export control policy for those destinations. Among the names being added are the Democratic Republic of East Timor, Aruba and the Netherlands Antilles. In addition, the name Zaire is being changed to Democratic Republic of the Congo and the name Congo is being changed to Republic of the Congo to accurately reflect the current names of these two countries.

360. DECEMBER 2002 WASSENAAR ARRANGEMENT PLENARY AGREEMENT IMPLEMENTATION: REVISIONS TO CATEGORIES 1, 2, 3, 4, 5, 6, AND 7 OF THE COMMERCE CONTROL LIST, AND REPORTING REQUIREMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; EO 13026; EO 13222; EO 13206;

...

CFR Citation: 15 CFR 740; 15 CFR 743; 15 CFR 774

Legal Deadline: None

Abstract: The Bureau of Industry and Security (BIS) maintains the Commerce Control List (CCL), which identifies items subject to Department of Commerce export controls. This final rule revises certain entries controlled for national security reasons in Categories 1, 2, 3, 4, 5 Part I (telecommunications), 5 Part II (information security), 6, and 7 to conform with changes in the List of Dual-Use Goods and Technologies maintained and agreed to by governments participating in the Wassenaar Arrangement on Export Controls for Conventional Arms and Dual-Use Goods and Technologies (Wassenaar Arrangement). The Wassenaar Arrangement controls strategic items with the objective of improving regional and international security and stability.

This rule makes the necessary changes to the Commerce Control List to implement revisions to the Wassenaar List that were agreed upon in the December 2002 meeting and to make

necessary revisions to reporting requirements, and License Exception GOV restrictions.

361. LIFTING OF UN SANCTIONS AGAINST UNITA

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401; 50 USC 1701; 10 USC 7420; 10 USC 7430(e); 10 USC 2510; 22 USC 287c; 22 USC 3201; 22 USC 6004; 30 USC 185(s), 185(u); 42 USC 6212; 43 USC 1354; 46 USC app 466c; 50 USC app 5; PL 106-387; PL 107-56; EO 13026; EO 13222; 42 USC 2139a; ...

CFR Citation: 15 CFR 732; 15 CFR 738; 15 CFR 740; 15 CFR 746

Legal Deadline: None

Abstract: This rule amends the Export Administration Regulations (EAR) by removing from the EAR references to sanctions on Angola administered by the Department of the Treasury's Office of Foreign Assets Control (OFAC). In response to United Nations Security Council (UNSC) resolutions regarding the conflict in Angola, the President, by Executive order, directed the Department of the Treasury to maintain sanctions on the National Union for the Total Independence of Angola (UNITA). On December 9, 2002, the UNSC terminated the sanctions previously imposed on UNITA. On May 6, 2003, consistent with the UNSC action, the President terminated the relevant Executive orders, effectively ending U.S. sanctions. This rule amends the EAR to remove certain references to the sanctions which had been maintained by OFAC with respect to UNITA.

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401; 50 USC 1701; EO 13026; EO 13222

CFR Citation: None

Legal Deadline: None

Abstract: The Bureau of Industry and Security plans to publish guidance entitled, "Best Practices for Exporters/Re-exporters and Trade Facilitation/Freight Forwarding Companies Regarding the Transit, Transshipment, and Reexport of Dual-Use Items." These "best practices" will appear as Supplement No. 4 to part 732 of the Export Administration Regulations. Although the best practices will be published in title 15 of the Code of Federal Regulations, they will be guidance with which the public has no legal obligation to comply, and compliance with them will not be a defense against a charge (either administrative or criminal) of violating export control laws.

366. EXPORT ADMINISTRATION REGULATIONS: PENALTY GUIDANCE IN THE SETTLEMENT OF ADMINISTRATIVE ENFORCEMENT CASES

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401; 50 USC 1701; EO 13222

CFR Citation: 15 CFR 764; 15 CFR 766

Legal Deadline: None

Abstract: This rule incorporates guidance in the EAR — specifically, in a new Supplement No. 1 to part 766 — on how the Bureau of Industry and Security (BIS) determines what penalty is appropriate for the settlement of an administrative enforcement case. This guidance identifies both general factors, such as the destination for the export and degree of willfulness involved in violations, and specific mitigating and aggravating factors which BIS typically takes into account in determining an appropriate penalty. The guidance also

DOC—BIS

Completed Actions

describes factors that BIS's Office of Export Enforcement typically considers in describing whether a violation should be addressed in a warning letter, rather than in an administrative enforcement case. The guidance does not apply to antiboycott matters arising under part 760 of the EAR.

The rule also amends section 764.5(e) of the EAR to state that Supplement No. 1 to part 766 describes how BIS typically exercises its discretion regarding whether to pursue an administrative enforcement case regarding violations reported in a voluntary self-disclosure under section 764.5, and what administrative sanctions to seek in settling such a case.

In part 766, the rule amends section 766.3(a) to state that Supplement No. 1 to part 766 describes how BIS typically exercises its discretion regarding the issuance of charging letters, other than in antiboycott matters under part 760. The rule amends section 766.18 to add a new paragraph (f), stating that Supplement No. 1 to part 766 describes how BIS typically exercises its discretion regarding the terms under which it is willing to settle particular cases, other than antiboycott matters under part 760.

367. • COMPUTER AND MICROPROCESSOR TECHNOLOGY AND SOFTWARE ELIGIBLE FOR EXPORT OR REEXPORT UNDER LICENSE EXCEPTION

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; EO 13026; EO 13222; ...

CFR Citation: 15 CFR 740; 15 CFR 774

Legal Deadline: None

Abstract: The Bureau of Industry and Security (BIS) proposes to expand the availability of license exceptions for exports and reexports of computer and microprocessor technology and software on the Commerce Control List (CCL) of the Export Administration Regulations (EAR) under Export Classification Control Numbers (ECCNs) 3E002, 4D001 and 4E001. These ECCNs control technology and software that can be used for the development, production, or use of microprocessors and computers. The goal of this proposed rule is to solicit public comments to assist BIS in evaluating the effect of the proposed amendments. In addition, this proposed rule requests industry to suggest alternatives for a different method or parameter for controlling exports of computers and microprocessors, and the technology and software therefore.

Priority: Substantive, Nonsignificant

Legal Authority: 22 USC 6701 et seq; EO 13128

DOC—BIS

Completed Actions

CFR Citation: 15 CFR 711

Legal Deadline: None

Abstract: This interim final rule amends 15 CFR part 711 by adding a new section 711.7, which authorizes the electronic submission of declarations and reports required under the Chemical Weapons Convention Regulations (CWCR) to the Bureau of Industry and Security (BIS). All such electronic submissions will be made through the newly created Web-Data Entry System for Industry (Web-DESI), which will be located on the Chemical Weapons Convention (CWC) Web site, at www.cwc.gov. New section 711.7 describes the procedures that must be followed to request approval from BIS to submit declarations and reports electronically, including procedures for the assignment and use of identification numbers for declared facilities, plant sites, and trading companies and for the assignment and use of logins and passwords to allow individual users authorized by BIS to submit declarations and reports on behalf of declared facilities, plant sites, and trading companies. Finally, new section 711.7 describes how BIS will provide general instructions to authorized users on how to make electronic submissions to BIS using Web-DESI.

NATIONAL MARINE FISHERIES
SERVICE376. • RIGHT WHALE SHIP STRIKE
REDUCTION**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1361**CFR Citation:** 50 CFR 224**Legal Deadline:** None

Abstract: These regulations are to implement a strategy to reduce the known mortalities to North Atlantic right whales as a result of collisions with vessels, which account for more confirmed right whale deaths than any other human-related activity. The

strategy addresses the lack of recovery of the endangered North Atlantic right whale by reducing the likelihood and threat of ship strike mortalities to the species. NMFS has developed a framework of proposed, new operational measures for the shipping industry as an element of this strategy, including consideration of routing and speed restrictions. NMFS is proposing these operational measures limited to areas and times when North Atlantic right whales and ships overlap to reduce the likelihood of ship strikes to the extent practicable.

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: Final, Statutory, Final regulations to be published within 30 days of end of NPRM comment period.

Abstract: Amendment 18 would address the need for improved conservation of grouper stocks in the Gulf of Mexico by addressing effort capacity control, using VMS, addressing the use of reef fish as bait, addressing longline and buoy gear phase-out, establishing closed areas, modifying TAC Framework procedures and grouper allocations, defining grouper and amberjack status determination criteria, developing Nassau and goliath grouper rebuilding plans, and incorporating the SEDAR process into the TAC Framework procedures.

383. REGULATORY AMENDMENT MODIFYING THE GULF OF MEXICO BRD PROTOCOL UNDER THE FISHERY MANAGEMENT PLAN FOR THE SHRIMP FISHERY OF THE GULF OF MEXICO (FMP)

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: Final, Statutory, Final regulations to be published within 30 days of end of NPRM comment period.

Abstract: In accordance with the FMP's framework procedure for regulatory adjustments, the Gulf Council requested that NMFS develop alternative data collection procedures and statistical tests to certify bycatch reduction devices (BRDs) for use in the shrimp fishery of the Gulf of Mexico. The regulation would provide additional flexibility in sampling procedures to facilitate BRDs meeting the testing/certifying protocol's requirements while maintaining the scientific and statistical credibility in achieving the FMP's established bycatch reduction criterion for certified BRDs.

385. REVISION OF AMERICAN LOBSTER REGULATIONS FOR THE EEZ

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 5101 et seq

CFR Citation: 50 CFR 697

Legal Deadline: None

Abstract: In accordance with the Atlantic Coastal Fisheries Cooperative Management Act (Act), 16 USC et seq., NMFS announces that it is considering, and seeking public comment on, revisions to Federal American lobster regulations for the Exclusive Economic Zone in response to recommendations from the Atlantic States Marine Fisheries Commission to NMFS in Addenda II and III to Amendment 3 to the Interstate Fishery Management Plan for American Lobster (ISFMP). This ANPR/NOI proposes to develop regulations relative to Addendum III to the ISFMP, and combine those with Addendum II (ANPR and NOI published May and September of 2001, respectively) into a single environmental impact statement. Addendum II management measures would include minimum gauge size increases in five of the seven Lobster Conservation Management Areas (LCMA), lobster trap gear modifications, a 4-year lobster trap reduction schedule for LCMA 3, and a logbook requirement for LCMA 3 lobster vessels. Addendum III would further modify Addendum II's gauge increase schedule and include new management measures for the majority of the LCMAs.

387. COMPREHENSIVE AMENDMENT ADDRESSING SUSTAINABLE FISHERIES ACT REQUIREMENTS REGARDING OVERFISHING, BYCATCH, FISHING COMMUNITIES AND PROVISIONS FOR FISHERY MANAGEMENT PLANS FOR THE CARIBBEAN**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622**Legal Deadline:** Final, Statutory, Final regulations to be published within 30 days of end of NPRM comment period.

Abstract: NMFS amends its regulations to implement the Comprehensive Amendment Addressing the Sustainable Fisheries Act provisions of the Magnuson-Stevens Fishery Conservation and Management Act (MSFCMA) in the fishery management plans (FMPs) of the U.S. Caribbean. Specifically, the amendment includes actions to define fishery management units and sub-units; specifies biological reference points and stock status determination criteria; regulates fishing mortality; rebuilds overfished fisheries; conserves and protects yellowfin grouper; and achieves the MSFCMA bycatch mandates. Also incorporated into this FMP amendment are alternatives to describe and identify essential fish habitat (EFH), and alternatives to address adverse effects of fishing on EFH. The intended effect of this action is to ensure the stewardship of living marine resources for the benefit of the nation.

389. IMPLEMENTATION OF THE REGULATORY CHANGES RESULTING FROM THE AMENDMENTS AND EXTENSION OF THE SOUTH PACIFIC TUNA ACT**Priority:** Substantive, Nonsignificant**Legal Authority:** Not Yet Determined**CFR Citation:** 50 CFR 300**Legal Deadline:** None

Abstract: This rulemaking would implement the regulatory changes resulting from the recently renegotiated Treaty on Fisheries between the Governments of Certain Pacific Island States and the Government of the United States of America, as authorized

under the South Pacific Tuna Act. These changes include the implementation of an electronic vessel monitoring system for U.S. purse seine vessels licensed to fish within the Treaty Area. The location information will be provided to the Forum Fisheries Agency, located in Honiara, Solomon Islands, as well as NOAA Fisheries. This rule would eliminate the prohibition of duly authorized U.S. longline vessels from fishing in the high seas areas within the Treaty Area. Additionally, it will impose minor modifications in the various reporting requirements, as well as modify the areas of fishing allowed in the exclusive economic zones of the Solomon Islands and Papua New Guinea.

401. CATCHER VESSEL ELECTRONIC REPORT

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: NMFS revises its regulations to allow the operator of a catcher vessel the option of using an NMFS-approved electronic version of the logbook in place of the paper logbook. Currently, paper daily fishing logbooks are required from catcher vessels greater than 60 feet in length overall. Requirements for completion and submittal of the logbooks exist in the regulations at 50 CFR part 679. Recent advances in technology have allowed catcher vessels to use an electronic version of the logbook to record the required information. The current regulations would be changed to reflect the different options available to catcher vessels when submitting data. The use of the electronic logbooks would not be required by NMFS at this time.

402. AMENDMENT 13B TO THE FISHERY MANAGEMENT PLAN FOR THE SNAPPER-GROUPER FISHERY OF THE SOUTH ATLANTIC REGION

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: None

Abstract: Amendment 13B will: (1) redefine, as needed, the snapper-grouper fishery management unit (FMU) and FMU sub-units; (2) define biomass-based estimates of biological reference points and status determination criteria for all stocks/complexes that comprise the FMU; (3) establish rebuilding schedules based on biomass-based estimates of status determination criteria for all overfished stocks/complexes in the FMU; (4) establish control rules and implement management measures, as needed, to end overfishing and rebuild overfished stocks; (5) review the implementation of the Logbook/Atlantic Coastal Cooperative Statistics Program bycatch reporting program in the context of its consistency with the MSFCMA requirement to establish a standardized bycatch reporting methodology; and (6) assess the practicability of additional bycatch reduction measures.

RIN: 0648-AR61**412. AMENDMENT 10 TO THE PACIFIC COAST GROUND FISH FISHERY MANAGEMENT PLAN****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 660**Legal Deadline:** None

Abstract: The need for implementing a permanent monitoring program in the shore-based Pacific whiting (whiting) fishery is to provide for a full retention fishery by enabling the shore-based whiting fleet, comprised exclusively of catcher vessels, to deliver unsorted catch to processing plants. This practice is necessary to ensure that whiting landings are of market quality, while abiding by Federal groundfish regulations and those implementing the Pacific Coast salmon and groundfish fishery management plans (FMPs). The treatment and disposition of salmon in the groundfish trawl fisheries, specifically the shore-based whiting fishery, was last addressed by the Pacific Fishery Management Council (Pacific Council) at their October 21 to 25, 1996, meeting in San Francisco, California. At that meeting, the Pacific Council discussed the retention of salmon in the shore-based whiting fishery and took action to maintain a viable shore-based whiting fishery by

using exempted fishing permits (EFPs). These EFPs allowed the shore-based whiting fleet to temporarily deliver unsorted catch to processing plants and provided for the monitoring of incidentally taken salmon until a permanent monitoring program could be implemented. In keeping with the Pacific Council's recommendation, NMFS is proceeding with implementing a monitoring program for the shore-based whiting fishery. This action will aid in the sustainable management of Pacific Coast salmon and groundfish fisheries while providing an important economic opportunity to those associated with the harvest, processing, and selling of whiting taken by the shore-based whiting fleet.

414. • REGULATORY AMENDMENT TO ADD AND REVISE CERTAIN SPECIES CODES IN 50 CFR 679

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This regulatory amendment would add or revise species codes to an existing collection. These changes are done in coordination with Alaska Department of Fish and Game. The species codes currently in use are presented in Table 2 to Part 679. Code 112, Pacific hake, would be added because fishermen in the EEZ off the coast of Alaska are now catching more of this fish species and need a way to document the weight. Code 702, Big Skate, would be added because State of Alaska and NMFS management need to identify the catch of this species specifically rather than in the miscellaneous code 700, General Skates. Code 932, Opilio Tanner Crab, would be renamed as Snow Tanner Crab because this revised name is more common among the fishing industry. These changes in the species codes are not controversial and are expected to be supported by all interested entities.

415. • AMENDMENT 72 TO THE FISHERY MANAGEMENT PLAN FOR THE GROUND FISH OF THE GULF OF ALASKA

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This action would eliminate an existing requirement under the Improved Retention/Improved Utilization (IR/IU) program that groundfish fisheries retain shallow water flatfish in the Gulf of Alaska (GOA). This action may relieve some harvesting and utilization restrictions on GOA groundfish harvesting and processing operations. It follows a parallel action taken in the BSAI to relieve those groundfish fisheries from requirements to retain all IR/IU flatfish species

416. • CONSIDERATION OF REVISION TO ESSENTIAL FISH HABITAT (EFH) GUIDELINES (50 CFR PART 600)

Priority: Other Significant

Legal Authority: 16 USC 1855(b)(1)(A)

CFR Citation: 50 CFR 600

Legal Deadline: None

Abstract: NMFS is evaluating whether to revise the essential fish habitat (EFH)

guidelines promulgated through regulation in a January 17, 2002, final rule. The evaluation and potential revisions will address the ongoing public interest in EFH management, and NMFS' prior commitment to evaluate the efficacy of the EFH guidelines through an appropriate public process. The intended effect of the action is to ensure the EFH guidelines effectively implement the EFH provisions of the Magnuson-Stevens Fishery Conservation and Management Act.

421. • HALIBUT SUBSISTENCE II

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq; 16 USC 773 et seq

CFR Citation: 50 CFR 300; 50 CFR 600; 50 CFR 679

Legal Deadline: None

Abstract: This rulemaking amends the rule authorizing subsistence fishery for Pacific halibut in waters off Alaska. These regulations are necessary to address conservation concerns in densely populated areas. Existing subsistence halibut regulations fail to recognize distinctions between different geographic regions. Because of the variation between geographic regions, some of the regions require more narrowly tailored gear and harvest limitations. The purpose of this action is to amend the current regulations authorizing a subsistence fishery for halibut in Convention waters off Alaska. The main goal of this action is to adjust gear and harvest restrictions for Alaska residents who practice subsistence fishing for halibut specific to their respective region. An additional goal is to implement specific mitigation measures for tribes and rural communities in areas where gear and harvest limitations may action is considered non-controversial because it moderately amends an existing rule.

DOC—NOAA

Proposed Rule Stage

426. • TAKING OF MARINE MAMMALS INCIDENTAL TO COMMERCIAL FISHING OPERATIONS; ATLANTIC LARGE WHALE TAKE REDUCTION PLAN REGULATIONS**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1361 et seq**CFR Citation:** 50 CFR 224**Legal Deadline:** None

Abstract: This action would implement modifications of the Atlantic Large Whale Take Reduction Plan (ALWTRP). The ALWTRP was developed pursuant to Section 118 of the Marine Mammal Protection Act. The commercial fishery requirements provided in this rule are intended to implement the additional requirements recommended by the Atlantic Large Whale Take Reduction Team and NMFS.

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: None

Abstract: The South Atlantic Fishery Management Council is developing Amendment 6 to refine and revise the management strategy for the various shrimp stocks. A permitting and reporting system will be established for the shrimp fishery of the South Atlantic exclusive economic zone. In accordance with the Magnuson-Stevens Fishery Conservation and Management Act, the amendment will revise or establish stock status thresholds and targets including MSY, OY, as well as the "overfished" and "overfishing" definitions for the shrimp species in the management unit. Additional actions will address bycatch reduction in the fisheries, as well as establish bycatch reporting requirements.

436. • ANNOUNCEMENT OF THE OPTIMUM YIELD AND HARVEST LIMIT FOR PACIFIC SARDINE

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC. 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: Final, Statutory, January 1, 2005, The CPS fisheries regulations require that the annual specs for Pacific sardine be published in the FR before January 1, the start of the fishing year.

Abstract: This action announces the annual harvest guideline for Pacific sardine in the exclusive economic zone off the Pacific coast. The Coastal Pelagic Species Fishery Management Plan (FMP) and its implementing regulations require NMFS to set an annual harvest guideline for Pacific sardine based on a formula in the FMP. The intended effect of this action is to establish allowable harvest levels for Pacific sardine off the Pacific coast and to minimize the impact on other coastal pelagic fisheries.

437. • EASTERN PACIFIC TUNA CONTROLS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 300

Legal Deadline: None

Abstract: This rule will implement tuna fishery conservation and management measures recommended by the Inter-American Tropical Tuna Commission (IATTC) and approved by the Department of State for 2004.

Historically, the IATTC takes action in June each year and the member nations (including the United States) implement the actions as soon as practicable thereafter. Among the actions anticipated is a quota for yellowfin tuna or a similar conservation measure to limit effort (e.g., a seasonal closure) and prevent overfishing of the yellowfin stock in the eastern Pacific.

438. • AMENDMENT 23 TO THE REEF FISH FISHERY MANAGEMENT PLAN TO SET VERMILION SNAPPER SUSTAINABLE FISHERIES ACT TARGETS AND THRESHOLDS AND TO ESTABLISH A PLAN TO END OVERFISHING AND REBUILD THE STOCK

Priority: Other Significant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: None

Abstract: In October 2003, the National Marine Fisheries Service (NOAA Fisheries) issued a determination that the Gulf of Mexico vermilion snapper stock is overfished. The stock had been previously determined to be undergoing overfishing in November 1999. These determinations were based on vermilion snapper stock assessments conducted in 1999 and 2001. Once a stock has been determined to be overfished, the Magnuson-Stevens Act requires the Gulf of Mexico Fishery Management Council within one year to submit a plan to NOAA Fisheries to end overfishing and rebuild the stock to a level capable of sustaining maximum sustainable yield on a

DOC—NOAA

Proposed Rule Stage

continuing basis. This rebuilding plan contains alternatives that would rebuild the stock in less than 10 years. Measures to reduce commercial and recreational fishing mortality so that the stock can rebuild include vermilion snapper size limits, bag limits, trip limits, quotas, and closed seasons. In addition, alternatives for establishing vermilion snapper biological reference points and status determination criteria are included in the plan.

443. • AMENDMENT 16-3 TO THE PACIFIC COAST GROUND FISH FISHERY MANAGEMENT PLAN

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: None

Abstract: Amendment 16-3 would implement legally-compliant rebuilding plans, consistent with the framework in the Pacific Coast Groundfish FMP, that will set strategic rebuilding parameters to guide stock rebuilding for bocaccio (*Sebastes paucispinis*), cowcod (S.

DOC—NOAA

Proposed Rule Stage

crameri), lingcod (*S. levis*), widow rockfish (*S. entomelas*), and yellow eye rockfish (*S. ruberimus*). These rebuilding parameters stem from the Magnuson-Stevens Fishery Conservation and Management Act and national standard 1 guidelines (50 CFR 600.310). The most important strategic rebuilding parameters are the time period within which the stock must be rebuilt to the target biomass capable of supporting maximum sustainable yield and the harvest control rule that would constrain fishing mortality, so the stock can be rebuilt in that time period. Management measures implemented through the biennial management process will be used to constrain fishing to the targets identified in the rebuilding plans.

452. • RESTRICTIONS FOR 2004 PURSE SEINE AND LONGLINE FISHERIES IN THE EASTERN TROPICAL PACIFIC OCEAN**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 951 to 961; 16 USC 971 et seq**CFR Citation:** 50 CFR 300**Legal Deadline:** Final, Statutory, July 1, 2004, Agreement Under IATTC.

Abstract: NMFS announces the 2004 conservation and management measures for international tuna fisheries in the eastern tropical Pacific Ocean. These are a six-week closure of purse seine fisheries and a closure of any national longline fishery which reaches a catch level for bigeye tuna

DOC—NOAA

Proposed Rule Stage

equal to the catch made by that fleet in 2001. The Tuna Conventions Act calls for the United States to take action to implement conservation and management measures for the U.S. fisheries that are affected. Thus, the intended effect of the rule is to establish prohibition of U.S. vessels purse seine fishing for tuna in the IATTC convention area for the August 1 - September 11 period and to announce that the U.S. longline fishery in the convention area will be closed if the catch in 2004 reaches the catch level of 2001. This will conform to the IATTC recommendation that was approved by the Department of State

453. • GULF OF ALASKA STELLER SEA LION PROTECTION MEASURES REVISIONS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This action would revise Steller sea lion protection measures for the pollock and Pacific cod fisheries in the Gulf of Alaska (GOA). The revisions adjust fishing closure areas near four Steller sea lion haulouts for pollock and Pacific cod fisheries and would modify the seasonal management of pollock harvest in the GOA. The intent of the revisions is to provide some economic relief to GOA communities while maintaining protection for Steller sea lions and their critical habitat.

454. AMEND REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1371(a)(6)

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: This action implements certain changes in the prohibitions on importing or exporting marine mammals or marine mammal parts and products that occurred with the enactment of the Marine Mammal Protection Act Amendments of 1994 (Pub. L. 104-238). This action prohibits the export of marine mammals or marine mammal products for purposes other than public display, scientific research, or enhancing the survival of a species or stock and establishes three new categories of exceptions to the prohibition on importing marine mammal parts and products. This is a noncontroversial action that is not significant as it will have only minor effects on a small number of people, most of whom will benefit by the new exceptions.

Abstract: NMFS has received a request from the Alaska Aerospace Development Corporation (AADC) for a Letter of Authorization (LOA) to take small numbers of marine mammals incidental to rocket launches from the Kodiak Launch Complex (KLC), Kodiak Island, Alaska. As a result of that request, NMFS is proposing regulations that would authorize the incidental taking of a small number of marine mammals. In order to issue such regulations, NMFS must determine that these takings will have a negligible impact on the affected species and stocks of marine mammals and will not have an unmitigable adverse impact on the availability of marine mammal species or stocks for subsistence uses.

TAKING AND IMPORTING MARINE MAMMALS: TAKING MARINE MAMMALS INCIDENTAL TO CONDUCTING OIL AND GAS EXPLORATION ACTIVITIES IN THE GULF OF MEXICO****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1371(a)(5)(A)**CFR Citation:** 50 CFR 216.101 to 216.108**Legal Deadline:** None

Abstract: The National Marine Fisheries Service has received an application from the U.S. Minerals Management Service for regulations under section 101(a)(5)(A) of the Marine Mammal Protection Act (MMPA) to authorize the taking of marine mammals incidental to conducting oil and gas exploration activities by U.S. citizens in the Gulf of Mexico. Without this authorization, the taking of marine mammals is prohibited by the MMPA. In order to authorize the taking and issue authorizations, NMFS must, through regulations, determine that the proposed activity will have no more than a negligible impact on the affected species and stocks of marine mammals.

463. • SEA TURTLE CONSERVATION; RESTRICTIONS TO FISHING ACTIVITIES

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 223

Legal Deadline: None

Abstract: NMFS is revising the seasonally-adjusted gear restriction on large-mesh gillnet fishing in the mid-Atlantic (67 FR 71895, published December 3, 2002) to include state waters from the COLREGS lines to the Mid-Atlantic Exclusive Economic Zone (EEZ) waters, in addition to the EEZ waters specified in the prior rule. In addition, this action would change the gear restriction to include fishing with gillnets with a mesh size 7-inch (17.8 cm) stretched mesh or greater, instead of greater than 8-inch (20.3 cm) stretched mesh. The purpose of this action is to close an unintentional

loophole left in the original regulation when state waters were not included in the closure areas. Changing the mesh size limitation will bring the regulation in line with the definitions used by the North Carolina Department of Marine Fisheries (NCDMF), the Harbor Porpoise Take Reduction Plan, and the Bottlenose Dolphin Take Reduction Team for "large-mesh" gillnets and will ensure that other large-mesh gillnet fisheries with the potential for taking sea turtles will fall under the purview of this regulation. The striped bass gillnet fishery in state waters will be exempted from the closure requirements, if fishers follow specified gear-length and tending requirements that are based on the fishing methodology currently used in portions of the striped bass fishery which limit the likelihood of interactions with sea turtles.

464. • LISTING DETERMINATIONS FOR 27 ESUS OF WEST COAST SALMON AND ONCORHYNCHUS MYKISS

Priority: Other Significant

Legal Authority: 16 USC 1533

CFR Citation: 50 CFR 223; 50 CFR 224

Legal Deadline: NPRM, Judicial, March 31, 2004.

NMFS has requested an extension to the court-ordered deadline, but no decision has been made as of 4/23/2004.

Abstract: NMFS has completed status reviews for 26 West Coast salmon and *O. mykiss* (inclusive of anadromous steelhead and co-occurring resident

DOC—NOAA

Proposed Rule Stage

rainbow trout) Evolutionarily Significant Units (ESUs) previously listed as threatened and endangered species under the ESA, as well as one ESU that was designated as a candidate species. Following a September 2001 U.S. District Court ruling that rejected how NMFS treats hatchery populations in its listing determinations, the agency received several petitions seeking to delist, or to redefine and list several ESUs on the basis of the Court's ruling. In response to these petitions NMFS initiated status reviews for 16 ESUs, and elected to conduct status reviews for an additional 11 ESUs. Based on these reviews, NMFS is taking this action to list ESUs as endangered or threatened, and also to delist ESUs as necessary.

465. • TAKING MARINE MAMMALS INCIDENTAL TO NAVY OPERATION

Priority: Other Significant

Legal Authority: 16 USC 1371 et seq

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: NMFS is amending its regulations governing the taking of marine mammals incidental to operations of the U.S. Navy's SURTASS LFA sonar to implement provisions of the National Defense Authorization Act of 2004 (NDAA). The President signed into law the NDAA (P.L. 108-136) on November 24, 2003. Included in this law were amendments to the Marine Mammal Protection Act (MMPA) that apply where a "military readiness activity" is concerned. NMFS and the Navy have determined that the Navy's SURTASS LFAsonar testing and training operations that are the subject of NMFS' July 16, 2002 (67 FR 46712) final rule constitute a military readiness activity because those activities constitute "training and operations of the Armed Forces that relate to combat" and constitute "adequate and realistic testing of military equipment, vehicles, weapons and sensors for proper operation and suitability for combat use."

471. AMENDMENT TO FISHERY MANAGEMENT PLAN FOR REEF FISH RESOURCES OF GULF OF MEXICO TO SET 10-YEAR REBUILDING PLAN FOR RED GROUPER

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622**Legal Deadline:** None

Abstract: In October 2000, the National Marine Fisheries Service (NMFS) issued a determination that the Gulf of Mexico red grouper stock is overfished and undergoing overfishing. This determination was based on the results of a 1999 red grouper stock assessment. Once a stock is determined to be overfished the Magnuson-Stevens Act requires the Gulf of Mexico Fishery Management Council within one year to submit a plan to NMFS to end overfishing and rebuild the stock to a level capable of sustaining maximum sustainable yield on a continuing basis. The proposed rebuilding plan contains alternatives that would implement a 10-year rebuilding plan for red grouper including a recreational and commercial shallow-water grouper closed season, recreational bag limits, movement of the commercial longline gear boundary, and a reduction of the shallow-water grouper quota by an

amount consistent with a 45 percent reduction in commercial red grouper harvest. The rebuilding plan also contains alternatives for establishing red grouper sustainable fishing parameters (e.g., maximum sustainable yield, optimum yield, maximum fishing mortality rate, minimum stock size threshold).

472. ATLANTIC HIGHLY MIGRATORY SPECIES (HMS); BIGEYE TUNA AND SWORDFISH TRADE STATISTICAL DOCUMENT PROGRAMS

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 971 et seq; 16 USC 1801 et seq**CFR Citation:** 50 CFR 635**Legal Deadline:** None

Abstract: This rule would implement recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT) to establish statistical document programs for trade of swordfish and bigeye tuna. This regulation will require all dealers, who export or import swordfish or bigeye tuna, complete a statistical document and ensure the document accompanies the shipment. The purpose of the ICCAT recommendation and this regulation is to assist in the conservation of swordfish and bigeye tuna, improve the reliability of statistical information of catches, and to assist ICCAT with the elimination

of illegal, unreported, and unregulated fishing operations.

473. ATLANTIC HIGHLY MIGRATORY SPECIES: BILLFISH AND SWORDFISH RECREATIONAL FISHING

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq; 16 USC 971 et seq**CFR Citation:** 50 CFR 635**Legal Deadline:** None

Abstract: This rule implements domestic management measures based upon recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT) regarding billfish and swordfish. The rule would limit domestic recreational landings of Atlantic blue and white marlin to 250 fish, combined, on an annual basis. Also, the rule would provide for adjustments for any landings above or below the annual cap to the following year's recreational marlin landings cap. The Atlantic blue and whitemarlin measures are necessary to comply with ICCAT obligations.

Priority: Substantive, Nonsignificant
Legal Authority: 16 USC 971 et seq; 16 USC 1801 et seq
CFR Citation: 50 CFR 635

Legal Deadline: None

Abstract: This rule would implement the trade restrictive measures recommended at the 2002 meeting of the International Commission for the Conservation of Atlantic Tunas (ICCAT). The rule would lift the import prohibition on Atlantic bigeye tuna from Honduras and conditionally from

DOC—NOAA

Final Rule Stage

St. Vincent and the Grenadines and Belize, depending on decisions at the 2003 ICCAT meeting. Bigeye tuna imports from Sierra Leone and Bolivia would be banned. The import prohibitions on Atlantic bluefin tuna and Atlantic swordfish would be lifted from Honduras and conditionally from Belize, depending on decisions at the 2003 ICCAT meeting. Bluefin tuna and swordfish imports from Sierra Leone would be banned. The rule would also prohibit imports from vessels on the ICCAT negative list and would require prior notification from NMFS before a U.S. documented or registered vessel enters a chartering arrangement with another country.

479. ATLANTIC STRIPED BASS FISHERIES IN THE EEZ; MODIFICATION OF FEDERAL REGULATIONS**Priority:** Other Significant**Legal Authority:** 16 USC 1851**CFR Citation:** 50 CFR 697**Legal Deadline:** None

Abstract: NMFS announces that it is considering, and seeking public comment on, revisions to Federal Atlantic striped bass regulations for the U.S. Exclusive Economic Zone (EEZ) in response to recommendations from the Atlantic States Marine Fisheries Commission (Commission) to the Secretary of Commerce (Secretary). The Commission recommended that the Secretary remove the moratorium on the harvest of Atlantic striped bass in the EEZ after a 13-year closure; implement a 28-inch minimum size

limit for the recreational and commercial Atlantic striped bass fisheries in the EEZ; and allow states the ability to adopt more restrictive rules for fishermen and vessels licensed in their jurisdiction. NMFS is soliciting comments with this notice regarding possible management measures and issues that NMFS should consider relative to these recommendations.

480. MAXIMUM RETAINABLE AMOUNT**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 679**Legal Deadline:** None

Abstract: This regulatory amendment would revise the maximum retainable allowance (MRA) accounting to an offload to offload basis for pollock caught with trawl gear in the BSAI. The objective of this action is to increase retention of pollock taken as incidental catch in the directed fisheries for other, non-pollock groundfish species, but without increasing the overall amount of pollock that has been historically caught as incidental catch in such fisheries.

482. AMENDMENT 21 TO THE REEF FISH FISHERY MANAGEMENT PLAN**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622**Legal Deadline:** None

Abstract: The Gulf of Mexico Fishery Management Council (Council) has submitted Amendment 21 to the subject FMP to the National Marine Fisheries Service (NOAA Fisheries) for Secretarial review. The amendment was approved by the Council by a vote of 10 to 5 (two absentees) at its July 2003 meeting. It proposes to: (1) extend the marine reserves at Madison-Swanson and Steamboat Lumps for an additional six years; (2) allow surface trolling only for coastal migratory pelagics and highly migratory species (HMS) in the marine reserves during May through October; (3) prohibit all fishing in the marine reserves during November through April; and (4) prohibit the possession of reef fish within the reserves except for vessels transiting the reserves in accordance with the same requirements as implemented for the Tortugas South and North closed fishing areas (Reef Fish Amendment 19). Additionally, the Council will send a letter to the Highly Migratory Species Division of NMFS requesting that they implement regulations compatible with the proposals in this amendment for species under their jurisdiction.

Abstract: NMFS amends its regulations to adjust regulations governing the Atlantic pelagic longline fishery,

including: modification of allowable fishing gear and techniques; modification of requirements for possession and use of on-board equipment to minimize sea turtle mortality, modifications of areas closed to pelagic longline fishing, and establishment of minimum levels of observer coverage levels in portions of the pelagic longline fishery. Changes in allowable fishing gear, techniques, and on-board equipment would reduce sea turtle interactions and mortality of sea turtles caught incidental to fishing activities. This action would not change established quotas and is not expected to change overall effort.

RIN: 0648-AR80**485. • REVISIONS TO THE PACIFIC HALIBUT CATCH SHARING PLAN FOR 2004 AND BEYOND****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 300**Legal Deadline:** None

Abstract: Each year, the Pacific Fishery Management Council (Council) reviews its Pacific Halibut Catch Sharing Plan (Plan) with the public to determine whether revisions are needed to management objectives for any of the West Coast halibut fisheries. Off the coast of Washington, halibut treaty tribes hold a directed commercial fishery and a ceremonial and subsistence fishery for halibut. Non-treaty fishers operating off Washington, Oregon, and California participate in one of three separate commercial fisheries, and/or in one of

DOC—NOAA

Final Rule Stage

seven separate recreational fisheries for halibut. For 2004, the Council has recommended minor changes to the Plan that would: revise public notification processes for revisions to Washington sport fishery regulations; slightly revise season start dates in the Washington North Coast and South Coast subareas; revise the parameters for setting Oregon Central Coast fishing dates pre-season to provide more potential fishing days to the public; extend the season duration south of Humbug Mountain to October 31; and, clarify Federal halibut season regulations so that they provide better protection for overfished groundfish species by stating that halibut possession is prohibited in waters closed to halibut fishing and that the waters closed to recreational nearshore halibut fishing are the same as those closed to recreational groundfish fishing.

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 635

Legal Deadline: None

Abstract: This action would adjust the North Atlantic shark regional quota for the 2004 fishing year. Historically, the shark quotas have been split equally between the two semi-annual fishing seasons. In December 2003, the National Marine Fisheries Service (NMFS) implemented regional quotas for the first time. Because of these regional quotas, NMFS needs to reconsider how the quota is split between the first and second semi-annual seasons for the North Atlantic region.

491. ATLANTIC LARGE WHALE 2002 SEASONAL AREA MANAGEMENT (SAM) PROGRAM

Priority: Other Significant

Legal Authority: 16 USC 1361 et seq

CFR Citation: 50 CFR 229

Legal Deadline: NPRM, Judicial, November 23, 2001, The Federal District Court for the District of Massachusetts order.

Final, Judicial, December 31, 2001, The Federal District Court for the District of Massachusetts order.

Abstract: NMFS is preparing regulations to implement a SAM program for the 2002 fishing year, which was identified as a measure under the RPA that resulted from the biological opinions prepared for the Northeast multispecies, monkfish, spiny dogfish, and American lobster fisheries. The 2002 SAM program is intended as an incremental step to provide endangered western North Atlantic right whales protection from entanglement with fishing gear used in those fisheries. NMFS is preparing an EIS for more comprehensive SAM regulations for 2003 and beyond, in accordance with the National Environmental Policy Act (NEPA), to analyze the impacts on the human environment of the management alternatives under consideration. The measures that have been identified for the 2002 SAM proposed rulemaking requires reduction, elimination, and/or modification of certain types of fixed gear (i.e., gillnets and lobster traps) in specific areas off the Atlantic coast of the United States during times of the year when right whales are known to be present in significant concentrations.

494. TAKING OF THE COOK INLET, ALASKA, STOCK OF BELUGA WHALES BY ALASKA NATIVES

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1371**CFR Citation:** 50 CFR 216**Legal Deadline:** None

Abstract: NMFS is regulating subsistence harvest of Cook Inlet Beluga to ensure that the harvest is sustainable and does not substantially delay the recovery of this marine mammal stock. Specific harvest levels and distribution of the harvest will be based upon cooperative agreements with Alaska native organizations.

495. ACCESS TO TISSUE SPECIMEN SAMPLES FROM THE NATIONAL MARINE MAMMAL TISSUE BANK

Priority: Substantive, Nonsignificant**Legal Authority:** 16 CFR 1361**CFR Citation:** 50 CFR 216.22**Legal Deadline:** None

Abstract: The National Marine Fisheries Service (NMFS) issues this rule to make available tissue specimen samples to the scientific community for research. This action would be consistent with the goal of the National Marine Mammal Tissue Bank (NMMTB). The intent of this rule is to allow the scientific community the opportunity to comment on the protocol for requesting tissue specimen samples.

496. ENDANGERED SPECIES AND PESTICIDE REGULATION

Priority: Other Significant**Legal Authority:** 16 USC 1536**CFR Citation:** 50 CFR 402.04**Legal Deadline:** None

Abstract: NOAA, FWS, and EPA are jointly exploring the issuance of "counterpart regulations." Issued under the authority of the Endangered Species Act, these regulations would establish a separate section 7 consultation process for EPA, relative to pesticides actions under the Federal Insecticides, Fungicide and Rodenticide Act (FIFRA) that may affect endangered and threatened species.

Abstract: With this action, NMFS publishes the annual List of Fisheries (LOF), as required by section 118 of the Marine Mammal Protection Act (MMPA). The LOF for 2004 reflects new information on interactions between commercial fisheries and marine mammals. NMFS must categorize each commercial fishery on the LOF into one of three categories under the MMPA based upon the levels of mortality and serious injury of marine mammals that occurs within each fishery. The categorization of a fishery in the LOF determines whether participants in that fishery are subject to certain provisions of the MMPA, such as registration, observer coverage, and take reduction plan requirements.

RIN: 0648-AS04**499. • PROCEDURES FOR LIMITING CAPACITY OF THE TUNA PURSE SEINE FLEET IN THE EASTERN TROPICAL PACIFIC OCEAN (ETP); UPDATES TO THE TUNA TRACKING AND VERIFICATION PROGRAM****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1315; 16 USC 951**CFR Citation:** 50 CFR 216; 50 CFR 300**Legal Deadline:** None

Abstract: Pursuant to resolutions adopted by the Inter-American Tropical Tuna Commission and Parties to the Agreement on the International Dolphin Conservation Program, the National Marine Fisheries Service (NMFS) is promulgating regulations to conserve tunas in the Eastern Tropical Pacific Ocean (ETP). Specifically, these regulations would: (1) establish a register of U.S. vessels with a history of fishing in the ETP prior to June 28, 2002, and require that only vessels on that list would be authorized to use purse seines for fishing for tuna in the ETP; (2) limit the aggregate capacity of U.S. purse seine vessels that may fish full time for tuna in the ETP to 8,969 metric tons carrying capacity per year; (3) revise the requirements for maintaining and submitting tuna tracking and verification records; (4) ensure that owners of U.S. vessels on the register pay annual assessments, and (5) prohibit interference with enforcement and inspection activities,

submission of false information, and other activities that would undermine the effectiveness of the Marine Mammal Protection Act, International Dolphin Conservation Program Act, and Dolphin Protection Consumer Information Act. This rule is intended to contribute to the long-term conservation of tuna stocks at levels that support healthy fisheries.

Mandate to certify hydrographic products that satisfy the standards promulgated by the Administrator no later than 2 years after the date of enactment of the Hydrographic Services Improvement Act Amendments of 2002.**Abstract:** The National Oceanic and Atmospheric Administration (NOAA) amends its regulations to add certification requirements with standards for applicants who want to distribute NOAA Electronic Navigational Charts (NOAA ENC)s as official data. NOAA intends to offer two types of certification. The first type, "Certified NOAA ENC Distributor," is for NOAA ENC)s downloading, exact copying, and redistribution of those copies of NOAA ENC)s data. The second type, "Certified NOAA ENC Value Added Distributor," permits reformatting official NOAA ENC)s into a System Electronic Navigational Chart (SENC) using type-approved software, and

distribution of that SENC. Both types of certification result in products that meet Federal chart carriage regulations. Both types of certification permit, but do not require, compression, encryption, and packaging with other data. NOAA intends by this action to assure that quality official NOAA ENC data is offered to the public in support of safe navigation on U.S. waters.

519. FISHERY MANAGEMENT PLAN (FMP) FOR SARGASSUM HABITAT OF THE SOUTH ATLANTIC**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622**Legal Deadline:** Final, Statutory, Final regulations to be published within 30 days of end of NPRM comment period.

Abstract: The regulatory action implementing measures in the FMP would: (1) establish a total prohibition of all harvest and possession of Sargassum from the South Atlantic exclusive economic zone (EEZ) south of 34 degrees N latitude; (2) allow a limited annual harvest of 5,000 pound landed wet weight of Sargassum from the South Atlantic EEZ 100 miles seaward of the shore between 34

degrees N latitude and the latitude line representing the North Carolina/Virginia border during the months of November through June; (3) require an official observer to be present on each Sargassum harvesting trip; and (4) require that nets used to harvest Sargassum be constructed of four-inch stretch mesh or larger fitted to a frame no larger than 4 feet by 6 feet. Restricting the harvest of Sargassum may result in the one small business entity ceasing business operations. The firm qualifies as a small business entity because its gross revenues do not exceed \$3.0 million annually. The value of the 1997 harvest (the last documented year in which harvest occurred) was estimated to be \$36,000. The average annual value of the harvest from 1976 to 1997 was estimated to be \$61,000. Additionally, there is no indication that harvest has occurred since 1997. Therefore, the SAFMC concluded that the indirect benefits of increased productivity of marine life and non-consumptive, non-use social benefits that would result from reduced harvest levels would greatly outweigh the direct impacts to the one intermittently operating business.

RIN: 0648-AP03**523. FISHING CAPACITY REDUCTION PROGRAM FOR THE CRAB SPECIES COVERED BY THE FISHERY MANAGEMENT PLAN FOR THE BERING SEA/ALEUTIAN ISLANDS KING AND TANNER CRABS****Priority:** Economically Significant. Major under 5 USC 801.**Legal Authority:** 16 USC 1861a; 46 USC 1279f; PL 106-554**CFR Citation:** 50 CFR 600**Legal Deadline:** Final, Statutory, May 1, 2001.

Other, Statutory, December 31, 2001, Complete Fishing Capacity Reduction Program.

Abstract: This action establishes a fishing capacity reduction program in the fishery for the crab species covered by the Fishery Management Plan for the Bering Sea/Aleutian Islands King and Tanner Crabs. The crab reduction program makes payments for revoking crab licenses in, and withdrawing fishing vessels from, the crab fishery. Reducing the number of crab licenses and vessels in the crab fishery increases post-reduction harvesting productivity, helps conserve and manage the crab resources, and fosters the potential for rationalizing crab fishery harvesting effort. The regulations add a new section 600.1018 to the fishing capacity reduction framework regulations contained in subpart L to 50 CFR part 600.**Timetable:**

RIN: 0648-AP25**524. IMPLEMENTATION OF FISHERY MANAGEMENT PLAN FOR HIGHLY MIGRATORY SPECIES FISHERIES OFF THE WEST COAST****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 660**Legal Deadline:** None

Abstract: This action would implement the Fishery Management Plan (FMP) for Highly Migratory Species Fisheries off the West Coast. The FMP is currently under development by the Pacific Fishery Management Council (Council) under the terms of the Magnuson-Stevens Act and other applicable law. The FMP will both establish a process for implementing regulations as deemed necessary in the future and provide a basis for initial regulation of selected fishery sectors (e.g., drift gillnet and longline) to ensure conservation of the fish stocks involved and protection of species of special concern such as sea turtles and seabirds. The FMP will include substantial environmental and economic analyses consistent with the requirements of the National Environmental Policy Act, the Regulatory Flexibility Act, and Executive Order 12296 and other laws and orders. Steps for reviewing and implementing approved elements of the FMP are set forth in the Magnuson-Stevens Act and include provisions for publication of proposed and final rules within certain time periods.

530. IMPLEMENTATION OF U.S. – CANADA ALBACORE TREATY

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: 50 CFR 300

Legal Deadline: None

Abstract: NMFS proposes regulations necessary to implement the 1981 Treaty Between the Government of the United States of America and the Government of Canada on Pacific Coast Albacore Tuna Vessels and Port Privileges (Treaty) as authorized by recently passed legislation. This rule would establish vessel marking, record keeping, and reporting requirements for U.S. albacore tuna fishing vessel operators and vessel marking and reporting requirements for Canadian albacore tuna fishing vessel operators fishing under the Treaty. The intended effect of this rule is to allow the United States to carry out its obligations under the Treaty by allowing fishing by both U.S. and Canadian vessels as provided for in the Treaty.

RIN: 0648-AQ48**534. PACIFIC COAST GROUND FISH FISHERY; PACIFIC COAST GROUND FISH VESSEL MONITORING SYSTEM****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 660

Legal Deadline: NPRM, Statutory, Final rule must be published within 30 days of NPRM comment period end.

Abstract: This regulation would require vessels participating in the Pacific Coast groundfish fishery off the coasts of WA, OR, and CA to carry and use vessel monitoring systems (VMS) transmitters. This action is necessary to enhance monitoring of compliance with large-scale depth-based closures that are proposed to be used to prohibit most fishing activities across much of the continental shelf. In addition, this action is intended to further the conservation goals and objectives of the Pacific Coast Groundfish FMP by allowing fishing to continue in areas and with gear that can harvest healthy stocks with little incidental catch of overfished and low abundance species. This action will also require certain vessels legally fishing within the otherwise closed area to notify NMFS when they will be fishing in the closed areas.

Legal Deadline: NPRM, Judicial, July 27, 2003, Court Order requires the continuation of measures implemented in the August 1, 2002, interim rule until the implementation of Amendment 13 to the Northeast Multispecies Fishery Management Plan.

Abstract: The action would continue management measures currently in place, which are intended to reduce overfishing on species managed under the Northeast Multispecies Fishery Management Plan (FMP) while the New England Fishery Management Council completes development of Amendment 13 to the FMP. In addition, a days-at-sea leasing program is established to allow leasing of DAS by limited access permit holders in order to increase flexibility in the fishery and enable some participants to remain economically viable.

536. CHANGES TO ELIGIBILITY CRITERIA FOR BERING SEA AND ALEUTIAN ISLANDS CRAB LICENSE LIMITATION PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This rulemaking will amend eligibility criteria for Bering Sea and Aleutian Islands (BSAI) crab species licenses issued under the License Limitation Program which are necessary to participate in the BSAI crab fisheries. This action is necessary to allow participation in the BSAI crab fisheries in a manner intended by the North Pacific Fishery Management Council. The intended effect of this action is to prevent unnecessary restriction on the participation of vessels in the BSAI crab fisheries.

542. "OTHER SPECIES" CDQ RESERVE MANAGEMENT

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This regulatory amendment would revise how NMFS manages the "other species" CDQ reserve. Although 7.5 percent of the "other species" would still be allocated to the "other

species" CDQ reserve, the reserve would not be allocated to individual CDQ groups. "Other species" CDQ would initially be closed to directed fishing, and CDQ fishery participants would be subject to maximum retainable amount standards in relation to their "other species" CDQ catch. Once the aggregate "other species" CDQ catch reaches the annual 7.5 percent CDQ reserve amount, "other species" CDQ would be placed on prohibited species catch status. Further restrictions would not occur unless the harvest of "other species" by both CDQ and non-CDQ fisheries approached the overfishing level of this species complex.

543. EASTERN PACIFIC TUNA CONTROLS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 955 to 961; 16 USC 971 et seq

CFR Citation: 50 CFR 300

Legal Deadline: None

Abstract: This rule will implement tuna fishery conservation and management measures recommended by the Inter-American Tropical Tuna Commission (IATTC) and approved by the Department of State for 2003. Historically, the IATTC takes action in June each year and the member nations (including the United States) implement the actions as soon as practicable thereafter. Among the actions anticipated is a quota for yellowfin tuna or a similar conservation measure to limit effort (e.g., a seasonal

closure) and prevent overfishing of the yellowfin stock in the eastern Pacific.

544. ATLANTIC HIGHLY MIGRATORY SPECIES (HMS); ATLANTIC SHARK MANAGEMENT MEASURES

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 635

Legal Deadline: None

Abstract: This rule would implement management measures to amend some of the shark regulations currently issued under the Fishery Management Plan for Atlantic tunas, swordfish, and sharks. Management measures that could change include commercial fishing quotas, recreational retention limits, minimum sizes, prohibited species, and the process for issuing permits for highly migratory species caught for display purposes. These changes would affect fishermen fishing for highly migratory species in the Atlantic, Gulf of Mexico, and Caribbean Sea.

545. ANNOUNCEMENT OF THE OPTIMUM YIELD AND HARVEST LIMIT FOR PACIFIC MACKEREL

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: Final, Statutory, July 2003.

The Coastal Pelagics Fisheries regulations require that the annual specifications for Pacific mackerel will be published in the FR before July 1, the start of the fishing season.

Abstract: This rule announces the annual harvest guidelines for Pacific mackerel in the exclusive economic zone off the Pacific coast. The CPS FMP and its implementing regulations require NMFS to establish an annual harvest guideline for Pacific mackerel based on a formula in the FMP. This harvest guideline has been calculated according to the regulations implementing the Coastal Pelagic Species Fishery Management Plan (FMP) and establishes allowable harvest levels for Pacific mackerel off the Pacific coast.

547. PORT CODES INTEGRATION IN TABLE 14

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: Table 14 to 50 CFR part 679 presents codes for ports of landing in Alaska, Washington, Oregon, California, and the western coast of Canada. Two codes are given for most ports. A three-

digit numerical code is used in the NMFS Alaska Region Individual Fishing Quota Program when reporting landings of Pacific halibut and sablefish. A three-digit alphabetic code is used when reporting groundfish landings on State of Alaska, Department of Fish and Game fish tickets and in the NMFS Alaska Region Shoreside Processor Electronic Logbook Report. This regulatory amendment will revise table 14 numerical port codes to remove ports that have not been reported on a frequent basis and to combine certain geographically close ports under one code.

548. REGULATORY AMENDMENT TO CHANGE REPORTING AREAS 620 AND 630

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: The Alitak/Deadman Bay of Kodiak Island is one body of water basically enclosed by Kodiak Island but divided superficially into two reporting areas (areas 620 and 630) by 154 degrees W. longitude. This division of the bay into two separate reporting areas is impractical for quota management and enforcement purposes. Specifically, the mouth of the bay is totally contained in reporting area 620. Other sections of the bay are in area 630 that would logically be included in area 620. This action corrects this error by revising the descriptions of reporting areas 620 and 630 in figure 3 to part 679 to include

DOC—NOAA

Completed Actions

all of the Alitak/Deadman Bay of Kodiak Island into area 620.

549. WEAKFISH: INCREASE IN INCIDENTAL CATCH PER AMENDMENT 4

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 5101 et seq

CFR Citation: 50 CFR 697

Legal Deadline: None

Abstract: The National Marine Fisheries Service (NMFS) amends its regulations to modify management restrictions in the Federal weakfish fishery in a manner consistent with the recommendations made by the Atlantic States Marine Fisheries Commission in Amendment 4 of the Commission's Interstate Fisheries Management Plan for the species. In short, the Federal regulatory change would increase the permitted non-directed incidental catch of the species from 150 pounds to 300 pounds per day or trip. Analysis of the best available data suggests that the proposed increase would not alter current fishing practices or effort, or increase the number of weakfish caught — the 150 pound increase simply converts 150 pounds of weakfish, which would be caught and discarded at sea dead regardless, into 150 pounds of weakfish caught and landed. Accordingly, no significant impact is found and the environmental analysis that would support such a finding is set forth herein

550. ATLANTIC HIGHLY MIGRATORY SPECIES (HMS); BLUEFIN TUNA SEASON AND SIZE LIMIT ADJUSTMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq; 16 USC 971

CFR Citation: 50 CFR 635

Legal Deadline: None

Abstract: NMFS amends its regulations to change to start and end dates and size tolerances for certain commercial fishery sectors. Quota and fishing effort for these fisheries will remain within the bounds of previously established management programs. A recommendation from the International Commission for the Conservation of Atlantic Tunas providing additional quota for incidental longline BFT catches in certain areas is clarified.

551. REGULATORY AMENDMENT TO CORRECT EFFECTIVE DATES FOR REGULATORY CHANGES IN 67 FR 79692 (DECEMBER 30, 2002)

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: The EFFECTIVE DATES section of the preamble of 67 FR 79692 (December 30, 2002) inadvertently was written in such a way that all the regulatory revisions expire on December 31, 2007. NMFS' intention was to have all of the regulatory revisions made as permanent changes except for section 679.50. Section 679.50 is to be effective through December 31, 2007. This proposed rule corrects the language of the EFFECTIVE DATES section of the preamble.

552. AMENDMENT 77 TO THE FMP FOR THE GROUND FISH FISHERY OF THE BERING SEA AND ALEUTIAN ISLANDS AREA

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This regulatory action would supersede Amendment 64, the

DOC—NOAA

Completed Actions

regulations for which are scheduled to expire on December 31, 2003. Amendment 77 continues to apportion the fixed gear allocation of total allowable catch (TAC) for Pacific cod in the Bering Sea among sectors of the fixed gear fleet (i.e., hook-and-line catcher vessels, catcher processors, pot vessels, and catcher vessels under 60 feet in length). Amendment 77 would for the first time split the pot sector, allocating the TAC further between pot catcher vessels and pot catcher/processors. Its implementing regulations would also change the provisions for unused portions of BSAI Pacific cod TAC allocated to the jig gear sector, which would be reallocated to catcher vessels under 60 feet in length on a seasonal basis.

554. AMENDMENT 16-2 TO THE PACIFIC COAST GROUND FISH FISHERY MANAGEMENT PLAN

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: NPRM, Statutory, November 2003.
Final, Statutory, January 2004.

Abstract: Amendment 16-2 to the Pacific Coast Groundfish Fishery Management Plan (FMP) would implement overfished species rebuilding plans for canary rockfish, darkblotched rockfish, lingcod, and Pacific ocean perch through a fishery management plan amendment and federal regulations. Amendment 16-2 is intended to ensure that Pacific Coast groundfish overfished species rebuilding plans meet the requirements of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) in particular National Standard 1 on overfishing and section 304(e), which addresses rebuilding overfished fisheries. Amendment 16-2 is also intended to partially respond to a court order in Natural Resources Defense Council, Inc. et al., v. Donald Evans, Secretary of Commerce, et al., 168 F. Supp. 2d 1149 (N.D. Cal 2001) in which NMFS was ordered to implement Pacific Coast groundfish rebuilding plans as FMPs, FMP amendments, or regulations, per the Magnuson-Stevens Act. This action has been analyzed under the National Environmental Policy Act with an

Environmental Impact Statement. NMFS has been implementing rebuilding measures for these species for several years and the agency does not consider this action significant.

555. AMENDMENT 16-1 TO THE PACIFIC COAST GROUND FISH FISHERY MANAGEMENT PLAN

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: NPRM, Statutory, August 2003.
Final, Statutory, November 2003.

Abstract: Amendment 16-1 to the Pacific Coast Groundfish Fishery Management Plan (FMP) would set the process and standards by which the Pacific Fishery Management Council (Council) will specify rebuilding plans for groundfish stocks declared overfished by the Secretary of Commerce. Amendment 16-1 is intended to ensure that Pacific Coast groundfish overfished species rebuilding plans meet the requirements of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) in particular National Standard 1 on overfishing and section 304(e), which addresses rebuilding overfished fisheries. Amendment 16-1 is also intended to partially respond to a court order in Natural Resources Defense Council, Inc. et al., v. Donald Evans,

DOC—NOAA

Completed Actions

Secretary of Commerce, et al., 168 F. Supp. 2d 1149 (N.D. Cal 2001) in which NMFS was ordered to provide Pacific Coast groundfish rebuilding plans as FMPs, FMP amendments, or regulations, per the Magnuson-Stevens Act. Amendment 16-1 will be followed by Amendment 16-2, which will implement rebuilding plans for canary rockfish, darkblotched rockfish, lingcod, and Pacific ocean perch. This action has been analyzed under the National Environmental Policy Act with an Environmental Assessment. This action is primarily administrative in nature and NMFS does not consider the action significant.

556. CONSIDERATION OF A CONTROL DATE FOR BOTTOMFISHING VESSELS IN THE EEZ AROUND GUAM AND COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 660**Legal Deadline:** None

Abstract: On June 13, 2003, the Western Pacific Fishery Management Council (Council) adopted a "control date" of June 13, 2003, as a notice to persons contemplating entering the fisheries for bottomfish species in the U.S. exclusive economic zone around Guam and the neighboring Commonwealth of the Northern Mariana Islands. This action would not

impose any restrictions on the public, but is intended solely to notify persons interested in joining these fisheries after June 13 that they might be excluded if restrictions are adopted in the future under the Magnuson-Stevens Fishery Conservation and Management Act. Although the "control date" is a signal that the Council is likely to consider limiting entry to any or all of these bottomfish fisheries, neither the Council or NMFS have made any decision yet. They might decide to limit new entry to some or all of these fisheries or might decide to take no action at all.

557. EMERGENCY RULE TO CLOSE THE FEDERAL TILEFISH FISHERY

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 648**Legal Deadline:** None

Abstract: This action would close the directed tilefish fishery based on projections that the overall quota of 1.995 million pounds has been reached. A recent court decision in *Hadaja v. Evans* (May 15, 2003), set aside the regulations found at 50 CFR 648(a)(12) which contain the Federal permitting requirements for the tilefish fishery, including the qualification criteria for the limited access permit system. As a result, there is currently no Federal permit requirement for a vessel that wishes to target tilefish in Federal waters. In addition, the quota system established for the tilefish fishery is divided among three limited access permit categories, which can be closed once the quota for a particular permit

category is projected to be reached. Because there are technically no longer separate limited access permit categories as a result of the Court's decision, NMFS no longer has the authority to close the Federal tilefish fishery once the quota is projected to be reached since that authority was based on the limited access permit categories. As a result, NMFS is taking this emergency action under the authority of 16 USC 1824 section 305(c) to close the Federal tilefish fishery because the overall tilefish quota of 1.995 million pounds is projected to be reached prior to the end of the tilefish fishing year on October 31, 2003.

Each year, under the Magnuson-Stevens Fishery Conservation and Management Act, the Pacific Fishery Management Council makes recommendations to NMFS to set allowable harvest levels for Pacific Coast groundfish, and recommends management measures for commercial and recreational fisheries that are designed to achieve those harvest levels. Management measures must rebuild overfished species, which means that allowable harvest levels of healthy species will only be achieved where such harvest will not deter rebuilding of overfished and depleted stocks. Commercial management measures include landings limits, size limits, gear restrictions, and time/area closures. Recreational management measures include bag limits, size limits, gear restrictions, and time/area closures. NMFS is continuing the depth-based management program that

it introduced in 2003, which closes portions of the continental shelf to fishing for groundfish and to fishing for many non-groundfish species in fisheries in which groundfish are taken incidentally. These closures are intended to protect and rebuild overfished groundfish species.

568. • AMENDMENT 17 TO THE FISHERY MANAGEMENT PLAN FOR BERING SEA/ALEUTIAN ISLANDS KING AND TANNER CRABS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: None

Legal Deadline: None

Abstract: The Pribilof Islands blue king crab (*Paralithodes platypus*) stock was declared overfished according to the criteria in the BSAI King and Tanner Crab FMP on September 25, 2002. The recent stock assessment showed that the stock was below minimum stock size threshold (MSST) and there were no signs of recovery in the trawl survey data. Pursuant to MSA guidelines, once a stock has been declared overfished, a rebuilding plan must be developed within one year. Amendment 17 would implement a rebuilding plan for this stock in accordance with the Magnuson-Stevens Act.

569. • REINSTATEMENT OF THE VESSEL PERMIT REQUIREMENTS FOR THE TILEFISH FISHERY AS ESTABLISHED UNDER THE TILEFISH FISHERY MANAGEMENT PLAN

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 648

Legal Deadline: None

Abstract: This action would reinstate the vessel permit requirements contained in the Tilefish Fishery Management Plan (FMP) based on supplemental information provided by the Mid-Atlantic Fishery Management Council (Council) that supports the Council's preferred limited entry alternative in the FMP. The vessel permit requirements, which are specified under 50 CFR 648.4(a)(12), were set aside in a Federal Court Order (Court Order) in Hadaja v. Evans (May 15, 2003) on the grounds that the limited entry criteria established in the FMP were arbitrary and capricious

570. • RULE TO IMPLEMENT ELECTRONIC REPORTING REQUIREMENTS FOR SEAFOOD DEALERS IN THE NORTHEAST

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 648

Legal Deadline: None

Abstract: This rule would implement changes to the NE fisheries regulations, to require that all federally permitted seafood dealers in the NE region report

purchases of fish and shellfish from commercial fishing vessels by one of several electronic reporting mechanisms. This action would also change the regulations to require these seafood dealers to report electronically on a daily basis, to include a trip identifier for each transaction, and to include the disposition of all fish and shellfish purchased.

571. • ANNOUNCEMENT OF DEVELOPMENT OF AND ESTABLISHMENT OF CONTROL DATE FOR TRAWL INDIVIDUAL QUOTA PROGRAM IN THE PACIFIC COAST GROUND FISH LIMITED ENTRY TRAWL FISHERY

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: None

Abstract: The Pacific Fishery Management Council (Council) is considering implementation of a trawl individual quota (IQ) program for the Pacific Coast groundfish limited entry trawl fishery. At its November 2003, meeting, the Council voted to establish a control date of November 6, 2003 for the trawl IQ program, which may include individual fishing quotas (IFQs) and individual processor quotas (IPQs). The trawl IQ program, if adopted, will include IFQ but may or may not include IPQ. NMFS does not have the statutory authority to implement an IPQ program for shore-based processors. However, the Pacific Council plans to analyze an IPQ program in order to meet its National Environmental Policy

DOC—NOAA

Completed Actions

Act obligations. The control date for the trawl IQ program is intended to discourage increased fishing or processing effort based on economic speculation while the Pacific Council develops and considers a trawl IQ program. The control date will announce to the public that the Pacific Council may decide to not consider activities occurring after the control date toward determining a person's qualification for an initial allocation or toward determining the initial allocation of quota shares. This action will also announce to the public that the Pacific Council is considering future rulemaking to implement a trawl IQ program.

572. • CONSERVE SEA TURTLES IN THE WESTERN PACIFIC PELAGIC FISHERIES

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: Final, Judicial, April 2004.

Abstract: This final rule establishes a number of conservation and management measures for the fisheries managed under the FMP. This final rule is intended to achieve certain objectives of the FMP, including achieving optimum yield for FMP-managed species while avoiding the likelihood of jeopardizing the continued existence of any species listed as endangered or threatened under the Endangered Species Act. This final rule eliminates a seasonal closure for longline fishing in an area south of the Hawaiian Islands and

reopens the swordfish-directed component of the Hawaii-based longline fishery. In order to minimize adverse impacts on sea turtles, the swordfish component of the Hawaii-based longline fishery will be subject to restrictions on the types of hooks and bait that may be used, annual fleetwide limits on fishery interactions with leatherback and loggerhead sea turtles, an annual fleetwide limit on fishing effort, and other mitigation measures.

573. • TARGET TOTAL ALLOWABLE CATCH LEVELS (TACS), TRIP LIMITS AND DAYS-AT-SEA (DAS) ALLOCATIONS FOR THE MONKFISH FISHERY FOR THE 2004 FISHING YEAR

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 648

Legal Deadline: None

Abstract: This action would establish target monkfish TACs for the Northern and Southern Fishery Management Areas (NFMA and SFMA), and corresponding trip limits and DAS allocations for the SFMA. Framework Adjustment 2 to the Monkfish Fishery Management Plan, which became effective on May 1, 2003, established an annual target TAC setting method that is based upon the relationship between the 3-year running average of the National Marine Fisheries Service's fall trawl survey biomass index and established annual biomass index targets. According to this target TAC

setting method, annual target TACs are set based on the ratio of the observed biomass index to the annual index target applied to the monkfish landings for the previous fishing year. The target TACs for the 2004 fishing year, based upon this method, will be 16,968 mt for the NFMA, and 6,772 mt for the SFMA. Because there is no monkfish trip limit in the NFMA, no further action for this area is required. However, the trip limits and DAS allocations for vessels fishing in the SFMA will be adjusted in this action to achieve the target TAC for that management area.

574. • COMMERCIAL PENAID SHRIMP FISHERY OF THE SOUTH ATLANTIC; ESTABLISHMENT OF NEW CONTROL DATE

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: None

Abstract: In 2000, the South Atlantic Fishery Management Council (SAFMC) established a control date for the penaeid shrimp fishery in the exclusive economic zone of the South Atlantic region (South Atlantic EEZ). This action would establish a new control date effective December 10, 2003. The SAFMC anticipates that future action may be necessary to control effort and the number of participants engaged in the commercial penaeid shrimp fishery of the South Atlantic EEZ. Consideration of a control date does not commit the SAFMC or NMFS to any

DOC—NOAA

Completed Actions

particular management regime for entry into the commercial penaeid shrimp fishery. Fishermen are not guaranteed future participation in a fishery regardless of their entry date or intensity of participation in the fishery before or after the control date under consideration. The SAFMC subsequently may choose a different control date or they may choose a management regime that does not make use of a control date. The SAFMC also may choose to take no further action to control entry or access to the fisheries, in which case the control date may be rescinded.

Abstract: The action would establish interim management measures for the 2004 fishing year for Atlantic sea scallops, to begin on March 1, 2004. In the absence of this action, DAS allocations would fall well below the level that would achieve fishing mortality goals of the scallop fishery management plan and may be too low to sustain vessel operation for many scallop vessel owners. In addition, measures in the emergency action would control harvest of a portion of the scallop resource in the Mid-Atlantic in order to preserve the benefits of similar fishery controls included in

Amendment 10 to the scallop FMP. Although Amendment 10 is currently under Agency review, it projects that controls in the area are necessary for an additional 2 years.

Abstract: NMFS announces that for fishing year 2005 the Mid-Atlantic Fishery Management Council may set aside up to 3 percent of the total allowable landings in certain mid-Atlantic fisheries to be used for research endeavors under a research set-aside program. The Research Set-Aside program provides a mechanism to fund research and compensate vessel owners through the sale of fish harvested under the research quota. Vessels participating in an approved research project may be authorized by the Northeast Regional Administrator, NMFS, to harvest and to land species in excess of any imposed trip limit or during fishery closures. Lands from such trips would be sold to generate funds that would help defray the costs associated with research projects. No Federal funds would be provided for research under this notification. NMFS is soliciting proposals for research activities concerning the summer flounder, scup, black sea bass, Loligo squid, Illex squid, Atlantic mackerel, butterfish, bluefish, and tilefish fisheries.

578. LISTING ENDANGERED AND THREATENED WILDLIFE AND DESIGNATING CRITICAL HABITAT; 12-MONTH FINDING**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1361 et seq**CFR Citation:** 50 CFR 223**Legal Deadline:** None

Abstract: The National Marine Fisheries Service (NMFS) and the Fish and Wildlife Service (FWS) (the Services), announce the 90-day finding for a petition to reclassify the Northern and Florida Panhandle nesting subpopulations of the loggerhead (*Caretta caretta*) sea turtle from threatened to endangered and designate critical habitat under the Endangered Species Act (ESA). The Services find that the petition to reclassify presents substantial scientific information indicating that the petitioned action may be warranted. The Services find that the petition to designate critical habitat did not provide substantial scientific information to warrant further review. The Services will conduct a status review of the loggerhead turtle to determine whether the petitioned action is warranted. To ensure a comprehensive review, the Services are soliciting information and comments pertaining to this species from any interested party.

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1531 et seq; 16 USC 742a et seq; 31 USC 9701

CFR Citation: 50 CFR 223

Legal Deadline: None

Abstract: This regulatory action involves prohibiting the use of all pound net leaders in the Virginia waters of the mainstem Chesapeake Bay south of 37 19.0 and west of 76 13.0, and all waters south of 37 13.0 to the COLREGS line at the mouth of the Chesapeake Bay, and portions of the James and York Rivers downstream of the first bridge in each tributary. Additionally, the rule includes a restriction of all leaders with stretched mesh greater than or equal to 8 inches

and leaders with stringers in the Virginia waters of the Chesapeake Bay outside the aforementioned closed area, extending to the Maryland-Virginia State line and the Rappahannock River downstream of the first bridge. These measures would be in effect from May 6 to July 15 each year. The purpose of this action is to help protect threatened and endangered sea turtles.

584. • TAKING OF MARINE MAMMALS INCIDENTAL TO SPACE VEHICLE AND TEST FLIGHT ACTIVITIES

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 137(a)(5)(A)

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: The National Marine Fisheries Service has received an application from the U.S. Air Force, 30th Space Wing, for regulations under section 101(a)(5)(A) of the MMPA to take non-endangered seals and sea lions incidental to rocket and missiles launches from Vandenberg Air Force Base and in waters off southern California. The U.S. Air Force will launch up to 30 rockets and missiles from Vandenberg Air Force Base each year over the 5-year authorization period.

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1531 et seq; 16 USC 742a et seq; 31 USC 9701

CFR Citation: 50 CFR 223

Legal Deadline: None

Abstract: NMFS is amending the turtle excluder device (TED) regulations that require most shrimp trawlers to use TEDs in the southeastern Atlantic and the Gulf of Mexico, to reduce the

DOC—NOAA

Completed Actions

incidental capture of endangered and threatened sea turtles during shrimp trawling. Specifically, NMFS proposes to allow the use of a double cover flap TED with a modified flap design. This modification would allow the use of a flap that can be between 6 inches (15 cm) but no more than 24 inches (61 cm) past the posterior edge of the TED frame. This modification has been tested and is capable of releasing large loggerhead and green turtles as well as leatherback turtles. The purpose of this

rule is to allow shrimp fishermen an additional option for complying with the TED regulations that also protects large sea turtles from mortality related to shrimp trawling.

590. CHANGES TO SUPPORT IMPLEMENTATION OF THE UNITED STATES PATENT AND TRADEMARK OFFICE 21ST CENTURY STRATEGIC PLAN

Priority: Substantive, Nonsignificant**Legal Authority:** 35 USC 2(b)(2)**CFR Citation:** 37 CFR 1**Legal Deadline:** None

Abstract: The United States Patent and Trademark Office (Office) has established a 21st Century Strategic Plan to transform the Office into a quality-focused, highly productive, responsive organization supporting a market-driven intellectual property system. The Office revised the rules of practice to support the implementation of the 21st Century Strategic Plan, which involves improving the patent application and examination process by promoting quality enhancement, reducing patent pendency, and using information technology to simplify the patent application process. The more notable changes being proposed in this notice involve permitting typewritten signatures on documents submitted by facsimile, streamlining the requirements for incorporation by reference of priority applications, and clarifying the qualifications for claiming small entity status for purposes of paying reduced patent fees. These changes to the patent application and examination process are necessary for the Office to be able to process the long-term trend of increasing number

of applications within a reasonable time frame.

Abstract: The 21st Century Department of Justice Appropriations Authorization Act contains a title relating to intellectual property. The patent-related provisions in the intellectual property title of the 21st Century Department of Justice Appropriations Authorization Act include provisions permitting a third party requester in an inter partes reexamination proceeding to appeal a final decision by the Board of Patent Appeals and Interferences to the U.S. Court of Appeals for the Federal Circuit, and to participate in the patent owner's appeal of a final decision by the Board of Patent Appeals and Interferences to the U.S. Court of Appeals for the Federal Circuit. Also included are technical amendments to statutory provisions directed to inter partes reexamination, eighteen-month publication of patent applications and provisional rights, and issuance of patents. The United States Patent and Trademark Office (Office) is in this action changing the rules of practice to implement the patent-related provisions of the 21st Century Department of Justice Appropriations Authorization Act, and other miscellaneous changes related to appeals in reexamination proceedings.

Priority: Substantive, Nonsignificant

Legal Authority: 35 USC 2(b)(2); 35 USC 376; ...

CFR Citation: 37 CFR 1

Legal Deadline: None

Abstract: The United States Patent and Trademark Office (Office) adjusts the international search and international preliminary examination fees for international applications filed under the Patent Cooperation Treaty (PCT). The Office is planning to outsource the international search under PCT chapter I for international applications. The Office adjusts the international search and international preliminary examination fees to more closely reflect the estimated cost of obtaining a PCT chapter I search and conducting the international preliminary examination under the new process. The Office is also implementing miscellaneous changes to the rules of practice in patent cases that relate to the United States Patent and Trademark Fee Modernization Act of 2003.

Priority: Substantive, Nonsignificant

Legal Authority: 15 USC 1123; 35 USC 2(b)(2); ...

CFR Citation: 37 CFR 1; 37 CFR 3; ...

Legal Deadline: None

Abstract: The United States Patent and Trademark Office (Office) is revising the rules of practice to allow for more efficient processing of powers of attorney and assignment documents within the Office. For example, the Office will require applicants to use the Office's Customer Number practice if more than ten registered patent practitioners are to be made of record. In addition, the Office is eliminating some mail stops (i.e., CPA, Provisional Patent Application) that were found not to be useful in routing correspondence within the Office, and creating a new mail stop (Licensing and Review) to assist the Office in the proper routing of national security classified and secrecy order papers. Finally, because the Office is discontinuing the current Office practice of returning patent and trademark assignment documents submitted by mail for recording in the assignment database, only copies of assignment documents may be submitted for recording in the Office's Assignment records.

601. • REVISION OF PATENT TERM EXTENSION AND PATENT TERM ADJUSTMENT PROVISIONS RELATED TO DECISIONS BY THE BOARD OF PATENT APPEALS AND INTERFERENCES**Priority:** Substantive, Nonsignificant**Legal Authority:** 35 USC 2(b)(2); 35 USC 154**CFR Citation:** 37 CFR 1**Legal Deadline:** None

Abstract: The patent term extension provisions of the Uruguay Round Agreements Act (URAA) and the patent term adjustment provisions of the American Inventors Protection Act of 1999 (AIPA) each provide for the possibility of patent term extension or adjustment if the issuance of the patent was delayed due to review by the

Board of Patent Appeals and Interferences (BPAI) or by a Federal court and the patent was issued pursuant to or under a decision in the review reversing an adverse determination of patentability. The United States Patent and Trademark Office (Office) is revising the rules of practice in patent cases to indicate that under certain circumstances a remand by the Board of Patent Appeals and Interferences shall be considered a decision in the review reversing of an adverse determination of patentability for purposes of patent term extension or patent term adjustment.
