Spring 2005 Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Commerce.

ACTION: Semiannual regulatory agenda.

SUMMARY: In compliance with Executive Order 12866 entitled “Regulatory Planning and Review” and the Regulatory Flexibility Act, as amended, the Department of Commerce (Department), in the spring and fall of each year, publishes in the **Federal Register** an agenda of regulations under development or review over the next 12 months. Rulemaking actions are grouped according to prerulemaking, proposed rules, final rules, long-term actions, and rulemaking actions completed since the fall 2004 agenda. The purpose of the agenda is to provide information to the public on regulations currently under review, being proposed, or issued by the Department. The agenda is intended to facilitate comments and views by interested members of the public.

The Department’s spring 2005 regulatory agenda includes regulatory activities that are expected to be conducted during the period April 1, 2005, through March 31, 2006.

FOR FURTHER INFORMATION CONTACT:

Specific: For additional information about specific regulatory actions listed in the agenda, contact the individual identified as the contact person.

General: Comments or inquiries of a general nature about the agenda should be directed to Daniel Cohen, Chief Counsel for Regulation, Office of the Assistant General Counsel for Legislation and Regulation, U.S. Department of Commerce, Washington, D.C. 20230; telephone: 202-482-3151.

SUPPLEMENTARY INFORMATION: Executive Order 12866 requires agencies to publish an agenda of those regulations that are under consideration pursuant to this order. By memorandum of February 4, 2005, the Office of Management and Budget issued guidelines and procedures for the preparation and publication of the Spring 2005 Unified Agenda of Federal Regulatory and Deregulatory Actions. The Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, requires agencies to publish, in the spring and fall of each year, a regulatory flexibility agenda which contains a brief description of the subject area of any rule which is likely to have a significant economic impact on a substantial number of small entities. The agenda also identifies those entries that have been selected for periodic review under section 610 of the Regulatory Flexibility Act.

Within the Department, the Office of the Secretary and various operating units may issue regulations. Operating units, such as the National Oceanic and Atmospheric Administration (NOAA), the Bureau of Industry and Security, and the Patent and Trademark Office issue the greatest share of the Department’s regulations.

A large number of regulatory actions reported in the agenda deal with fishery management programs of NOAA’s National Marine Fisheries Service (NMFS). To avoid repetition of programs and definitions, as well as to provide some understanding of the

technical and institutional elements of the NMFS programs, a section on “Explanation of Information Contained in NMFS Regulatory Entries” is provided below.

Explanation of Information Contained in NMFS Regulatory Entries

The Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*) (Act) governs the management of fisheries within the Exclusive Economic Zone (EEZ). The EEZ refers to those waters from the outer edge of the State boundaries, generally 3 nautical miles, to a distance of 200 nautical miles. Fishery Management Plans (FMPs) are to be prepared for fisheries, which require conservation and management measures. Regulations implementing these FMPs regulate domestic fishing and foreign fishing where permitted. Foreign fishing can be conducted in a fishery in which there is no FMP only if a preliminary fishery management plan has been issued to govern that foreign fishing. Under the Act, eight Regional Fishery Management Councils (Councils) prepare FMPs or amendments to FMPs for fisheries within their respective areas. In the development of such plans or amendments and their implementing regulations, the Councils are required by law to conduct public hearings on the draft plans and to consider the use of alternative means of regulating.

The Council process for developing FMPs and amendments makes it difficult for NMFS to determine the significance and timing of some regulatory actions under consideration by the Councils at the time the semiannual regulatory agenda is published.

The Department’s spring 2005 regulatory agenda follows.

Jane T. Dana,
Acting General Counsel.

Office of the Secretary—Completed Actions

Sequence Number	Title	Regulation Identifier Number
294	Civil Monetary Penalties; Adjustment for Inflation	0690-AA34

DOC

Bureau of Economic Analysis—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
295	Change in Reporting Requirements for BE-577, Direct Transactions of U.S. Reporter With Foreign Affiliate	0691-AA57
296	Change in Reporting Requirements for BE-11, Annual Survey of U.S. Direct Investment Abroad	0691-AA58
297	International Services Surveys: Cancellation of Five Annual Surveys	0691-AA59

Bureau of Economic Analysis—Completed Actions

Sequence Number	Title	Regulation Identifier Number
298	BE-80, Benchmark Survey of Financial Services Transactions Between U.S. Financial Services Providers and Un-affiliated Foreign Persons	0691-AA51
299	Benchmark Survey of U.S. Direct Investment Abroad—2004	0691-AA52

Bureau of the Census—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
300	Cutoff Dates for Recognition of Boundary Changes for Census 2000 and for the Intercensal Period	0607-AA35
301	Mandatory Automated Export System (AES) Filing for Export Shipments Requiring Shipper's Export Declaration Information	0607-AA38
302	Requirement for Reporting the Kimberley Process Certificate Number for Exports (Reexports) of Rough Diamonds	0607-AA44

Bureau of the Census—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
303	Establishment of the 2010 Census Redistricting Program	0607-AA42

Economic Development Administration—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
304	Economic Development Administration Regulations	0610-AA63

General Administration—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
305	Federal Policy for the Protection of Human Subjects, Technical Amendments	0605-AA17

International Trade Administration—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
306	Procedures for Conducting Five-Year (Sunset) Reviews of Antidumping and Countervailing Duty Orders	0625-AA51
307	Steel Import Monitoring and Analysis System	0625-AA64

DOC

International Trade Administration—Final Rule Stage (Continued)

Sequence Number	Title	Regulation Identifier Number
308	Imports of Certain Worsted Wool Fabric: Implementation of Tariff Rate Quota Established Under Title V of the Trade and Development Act of 2000	0625-AA67

International Trade Administration—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
309	Import of Certain Worsted Wool Fabric: Implementation of Tariff Rate Quota Established Under Title V of the Trade and Development Act of 2000	0625-AA58
310	Commercial Availability of Fabric and Yarn	0625-AA59
311	Proposed Amendment to Regulation Concerning Certification of Factual Information to Import Administration During Antidumping and Countervailing Duty Proceedings	0625-AA66

Bureau of Industry and Security—Prerule Stage

Sequence Number	Title	Regulation Identifier Number
312	Export Administration Regulations: Clarifications to Deemed Export and Reexport Policy	0694-AD29

Bureau of Industry and Security—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
313	Short Supply Controls: Crude Oil Exports	0694-AC25
314	Additional Protocol Regulations	0694-AD26
315	Removal of License Exception GBS Eligibility for Certain Microwave Monolithic Integrated Circuit (MMIC) Power Amplifiers	0694-AD36

Bureau of Industry and Security—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
316	Chemical Weapons Convention Regulations	0694-AB06
317	De Minimis Expansion of Eligibility: U.S.-Origin Software Incorporated Into Foreign-Made Commodities	0694-AC17
318	License Exception AVS: Cuba, Libya, and Serbia	0694-AC33
319	Clarifications to Part 753: Special Comprehensive License Requirements	0694-AC34
320	Removal of Licensing Exemption for Exports and Reexports of Missile Technology-Controlled Items Destined to Canada	0694-AC48
321	Export and Reexport Controls on Iraq	0694-AC84
322	Knowledge Definition, Safe Harbor, Red Flags	0694-AC94
323	Adding Systems, Including Cameras, Incorporating Non-Space Qualified Non-Linear (2-Dimensional), Infrared Focal Plane Arrays Based on Silicon (Including Silicon-Germanium) Microbolometer Materials	0694-AD06
324	Clarification of "Space-Qualified" Parts, Components, and Technology Subject to the Export Administration Regulations	0694-AD07
325	Revision of Export and Reexport Restrictions on Libya	0694-AD14
326	Amendments to the Export Administration Regulations (EAR) Implementing the "Catch-All" Provisions in the Australia Group (AG) "Guidelines for Transfers of Sensitive Chemical or Biological Items"	0694-AD15
327	Cuba: Revisions of Personal Baggage Rules, Statement of Licensing Policy, and Modification of License Application Requirements	0694-AD23
328	Licensing Policy for Entities Sanctioned Under Specified Statutes; License Requirement for Certain Sanctioned Entities; and Imposition of License Requirement for Tula Instrument Design Bureau	0694-AD24

DOC

Bureau of Industry and Security—Final Rule Stage (Continued)

Sequence Number	Title	Regulation Identifier Number
329	License Exception GOV Exports and Reexports for Official IAEA International Inspection and Verification Use in Accordance With the U.S.-IAEA Safeguards Agreement, as Amended by the Additional Protocol	0694-AD27
330	Exports of Nuclear-Grade Graphite: Change in Licensing Jurisdiction	0694-AD28
331	Revisions and Clarifications to the Export Administration Regulations	0694-AD30
332	Clarification on License Exception Restrictions as Relating to Exports and Reexports of Crime Control and Detection Instrument Equipment, and Related Technology and Software	0694-AD33
333	Removal of Certain Night Vision Devices From Eligibility for License Exception APR for Reexports To, From, and Among Country Group A:1	0694-AD34
334	Expansion of the Country Scope of the License Requirements That Apply to Chemical/Biological (CB) Equipment and Related Technology; Amendments to CB-Related End-User/End-Use and U.S. Person Controls	0694-AD37
335	Removal of Advisory Notes	0694-AD39
336	Editorial Corrections to Part 730 of the Export Administration Regulations	0694-AD40
337	December 2004 Wassenaar Arrangement Plenary Agreement Implementation: Categories 1, 2, 3, 4, 5 Part I (Telecommunications), 6, 7, 8, and 9 of the Commerce Control List; Wassenaar Reporting Requirement	0694-AD41
338	Entity List—India: Reduction in Scope of Items That Require a License for End-Users Subject to International Atomic Energy Agency (IAEA) Safeguards	0694-AD44
339	Technical Corrections to the Export Administration Regulations	0694-AD46
340	Revisions and Clarification of License Exception Availability for Certain Crime Control Items and Removal of License Requirements on Other Crime Control Items	0694-AD47
341	Revision of Telephone Numbers, Addresses, and Nomenclature Change and Removal of Redundant Reporting Requirement	0694-AD48
342	Revisions to the Import Certificate Requirements in the Export Administration Regulations	0694-AD50

Bureau of Industry and Security—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
343	Export Administration Regulations: Support Documentation	0694-AC04
344	Exports and Reexports to Sudan	0694-AC05
345	Expansion of License Exception GOV; Exports and Reexports to International Organizations	0694-AC15
346	Mandatory Electronic Filing of License Applications, Classification Requests, and License Exceptions Notifications via BIS's Simplified Network Application Process (SNAP)	0694-AC20
347	Revision to the Export Administration Regulations: Replacement Licenses	0694-AC23
348	Chemical Weapons Convention: Revisions to the Export Administration Regulations	0694-AC35
349	Implementation of General Order No. 3 and Deletion of General Order No. 1	0694-AC47
350	License Exception APR for Reexports To, From, and Among Countries in Country Group A:1	0694-AC69
351	Revisions to License Exception TSR: Expansion to Scope of Eligible Countries	0694-AC71
352	Revisions of Aircraft Export Licensing Jurisdiction Based on Review of the United States Munitions List	0694-AC74
353	Imposition of Foreign Policy Controls on Surreptitious Communications Intercepting Devices	0694-AC82
354	Export Administration Regulations: Removal of Country Groups	0694-AD09
355	Implementation of the Wassenaar Arrangement Statement of Understanding on the Control of Non-Listed Dual-Use Items	0694-AD10
356	Export Administration Regulations: Establish Special Intra-Company License (SIL)	0694-AD22
357	Restrictions on Exports and Reexports to China (and Transfers Within China) of Certain Items Intended for Military End-Uses	0694-AD49

Bureau of Industry and Security—Completed Actions

Sequence Number	Title	Regulation Identifier Number
358	Revisions to the Export Administrative Regulations: Removal of the List of Missile Projects From Certain Country Groups and Revisions to Missile Controls	0694-AC46
359	License Application Denial Policy, "Red Flag" Indicators of Possible Inappropriate End-Use, End-User, or Destination	0694-AC68

DOC

Bureau of Industry and Security—Completed Actions (Continued)

Sequence Number	Title	Regulation Identifier Number
360	Revisions to the Export Administration Regulations: Missile Technology Production Equipment and Facilities Controlled Under ECCNs 9B115 and 9B116	0694-AC93
361	Termination of Certain Emergencies With Respect to Yugoslavia and Related Removal of Restrictions on Transactions With Persons Identified by the Bracketed Initials (FRYM) Under the Export Admin. Regs.	0694-AC98
362	Expansion of Availability of License Exception CIV for Certain Deemed Exports of Microprocessor Technology; and Establishment of "Foreign National Review" Support Statement for Deemed Exports	0694-AD04
363	Revision of Licensees' Responsibility To Communicate License Conditions	0694-AD05
364	Revisions and Clarifications to the Export Administration Regulations	0694-AD08
365	Revisions to Export Administration Regulations as a Result of Membership Expansion of North Atlantic Treaty Organization (NATO)	0694-AD11
366	Entity List: Removal of Four Russian Entities	0694-AD12
367	India: Removal of Indian Entity and Revision in License Review Policy for Certain Indian Entities and a Clarification	0694-AD13
368	Revision of Export Control Classification Number (ECCN) 2B351 To Conform With the Australia Group (AG) "Control List of Dual-Use Chemical Manufacturing Facilities and Equipment and Related Technology"	0694-AD16
369	Expansion of Computer Technology and Software Eligible for Export or Reexport Under License Exception CTP; and Establishment of "Foreign National Review" Procedure Under License Exception CTP	0694-AD18
370	Encryption Export and Reexport Controls Revisions	0694-AD19
371	Implementation of the Understandings Reached at the June 2004 Australia Group (AG) Plenary Meeting; Clarifications to the Scope of ECCNs 1A004, 1A995, and 2B351	0694-AD25
372	Nomenclature Change: References to Another Agency	0694-AD31
373	Technical Corrections to the Export Administration Regulations	0694-AD32
374	Defense Priorities and Allocations System: Electronic Transmission of Reasons for Rejecting Rated Orders	0694-AD35
375	Revision of License Exception TMP for Activities by Organizations Working To Relieve Human Suffering in Sudan	0694-AD38
376	Revisions to the Export Administration Regulations Based on the 2004 Missile Technology Control Regime Plenary Agreements; Additions to the Entity List; Revisions to the Missile Catch-All Controls	0694-AD42
377	Denied Persons and Specially Designated Nationals	0694-AD43

National Oceanic and Atmospheric Administration—Proposed Rule Stage (Continued)

Sequence Number	Title	Regulation Identifier Number
386	Regulatory Amendment To Implement Permit Stacking in the Limited-Entry Fixed-Gear Sablefish Fishery in 2005 and Beyond	0648-AP38
387	Comprehensive Amendment Addressing Sustainable Fisheries Act Requirements Regarding Overfishing, Bycatch, Fishing Communities and Provisions for Fishery Management Plans for the Caribbean	0648-AP51
388	Atlantic Mackerel, Squid, and Butterfish Fisheries; Amendment 9	0648-AP60
389	Implementation of the Regulatory Changes Resulting From the Amendments and Extension of the South Pacific Tuna Act	0648-AP61
390	Amendment 71A to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area	0648-AP67
391	Regulatory Amendment To Adjust Permit Renewal Requirements and Transferability Restrictions in NWHI's Hoomalu Zone and Mau Limited Access Programs	0648-AQ20
392	Fisheries of the United States; National Standard 1	0648-AQ63
393	Amendment 1 to the Atlantic Herring Fishery Management Plan	0648-AQ87
394	Turtle Mitigation for Non-Hawaii-Based Pelagic Longline and Non-Longline Vessels	0648-AQ91
395	Amendment 62 to the Fishery Management Plan for the Groundfish Fishery of the Gulf of Alaska and Amendment 62 to the FMP for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area	0648-AR06
396	Regulatory Rulemaking To Revise Accounting for Externally Tagged Halibut	0648-AR09
397	Catcher Vessel Electronic Report	0648-AR30
398	Atlantic Striped Bass Fisheries in the EEZ; Modification of Federal Regulations	0648-AR33
399	Amendment 13B to the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region	0648-AR38
400	Atlantic Highly Migratory Species; Amendments to the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks and the Fishery Management Plan for Atlantic Billfish	0648-AR60
401	Full Retention and Monitoring Program in the Shorebased Pacific Whiting Fishery	0648-AR63
402	Amendment 8 to the Fishery Management Plan for the Bottomfish Fisheries of the Western Pacific Region	0648-AR65
403	Regulatory Amendment to Add and Revise Certain Species Codes in 50 CFR 679	0648-AR67
404	Amendment 72 to the Fishery Management Plan for the Groundfish of the Gulf of Alaska	0648-AR72
405	Revisions To Revise the Definitions of Exempted Fishing and Scientific Research	0648-AR78
406	Gear Identification Markings on Buoys	0648-AR90
407	Fish and Seafood Promotion Act	0648-AS09
408	Community Development Quota Regulatory Amendment to Modify Several Fishery Management Elements of the CDQ Program	0648-AS13
409	Amendment 13 to Fishery Management Plan for the Shrimp Fishery of the Gulf of Mexico, U.S. Waters	0648-AS15
410	Amendment 6 to the Fishery Management Plan for the Shrimp Fishery of the South Atlantic Region	0648-AS16
411	Amendment 14 to the Summer Flounder, Scup, and Black Sea Bass Fishery	0648-AS22
412	Amendment 1 to the Fishery Management Plan for the Tilefish Fishery	0648-AS25
413	Regulatory Amendment To Establish Measures Authorizing the Optional Use of Electronic Logbook Forms in the Western Pacific Fisheries	0648-AS29
414	Measures To Reduce Interactions With Seabirds in the Hawaii-Based Longline Fishery	0648-AS30
415	Amendment 6 to the Fishery Management Plan for the Precious Corals Fisheries of the Western Pacific Region ...	0648-AS31
416	Framework 1 to the Red Crab Fishery Management Plan	0648-AS35
417	Fee System for Repayment of the Loan to Harvesters of Pacific Groundfish Fishery and California, Washington, and Oregon Fisheries for Dungeness Crab and Pink Shrimp	0648-AS38
418	Fee System for Repayment of the Loan to Harvesters of Bering Sea/Aleutian Islands King and Tanner Crabs	0648-AS46
419	Atlantic Highly Migratory Species (HMS); Reducing Sea Turtle Takes	0648-AS49
420	Announcement of the Optimum Yield and Harvest Limit for Pacific Mackerel	0648-AS59
421	Establish Management Measures for the Commonwealth of the Northern Mariana Islands Bottomfish Fishery Under the Western Pacific Bottomfish and Seamount Groundfish FMP	0648-AS63
422	Revise Precious Coral Measures To Increase the Protection of Black Coral Resources in Hawaii	0648-AS64
423	Generic Amendment to Provide for Regulations of Offshore Aquaculture of Selected Fish	0648-AS65
424	Generic Amendment for Addressing Essential Fish Habitat Requirements, Habitat Areas of Particular Concern, and Gear Restrictions for All Fishery Management Plans of the Gulf of Mexico	0648-AS66
425	Amendment 25 to the Reef Fish Fishery Management Plan for the Reef Fish Resources in the Gulf of Mexico	0648-AS68
426	Amendment 24 to the Reef Fish Fishery Management Plan for the Reef Fish Resources in the Gulf of Mexico	0648-AS69
427	Amendment 17 to the Fishery Management Plan for Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic	0648-AS70
428	Establish Management Measures for the Western Pacific Squid Fishery	0648-AS71
429	Amendment to Regulations Implementing the Antarctic Marine Living Resources Convention Act of 1984	0648-AS75
430	Individual Fishing Quota Program; Restructure Date-Specific Quota Share Regulations	0648-AS77
431	Correct and Clarify Amendment 13 to the Northeast Multispecies Fishery Management Plan	0648-AS80

294. • CIVIL MONETARY PENALTIES; ADJUSTMENT FOR INFLATION

Priority: Substantive, Nonsignificant

Legal Authority: PL 101-410; PL 104-134

CFR Citation: 15 CFR 6

Legal Deadline: None

Abstract: This final rule is being issued to adjust each civil monetary penalty provided by law within the jurisdiction of the Department of Commerce (the Department). The Federal Civil Penalties Inflation Adjustment Act of 1990, as amended by the Debt

Collection Improvement Act of 1996, required the head of each agency to adjust its civil monetary penalties (CMP) for inflation no later than October 23, 1996, and requires them to make adjustments at least once every four years thereafter. These inflation adjustments will apply only to violations that occur after the effective date of this rule.

297. • INTERNATIONAL SERVICES SURVEYS: CANCELLATION OF FIVE ANNUAL SURVEYS

Priority: Substantive, Nonsignificant
Legal Authority: 22 USC 3101 to 3108
CFR Citation: 15 CFR 801.9
Legal Deadline: None

Abstract: This action amends 15 CFR part 801 by revising section 801.9(b) to remove the reporting requirements for five annual surveys that collect data covering international trade in services. These surveys have been replaced by quarterly surveys that collect essentially the same information.

Legal Authority: 19 USC 1671 et seq; 19 USC 1673 et seq; 19 USC 1303

CFR Citation: 19 CFR 351

Legal Deadline: None

Abstract: On May 19, 1997 (62 FR 27296), the Department of Commerce (the Department) published final rules on, inter alia, procedures for conducting antidumping and countervailing duty proceedings to conform the Department's existing regulations to the Uruguay Round Agreements Act (URAA). Although these regulations contain provisions on the conduct of sunset reviews, the Department is planning to amend the regulations to provide more guidance on the procedures for conducting sunset reviews. Specifically, the Department proposes to amend the procedural regulations for participation in, and conduct of, sunset reviews to add two definitions to provide shorthand expressions for 120-day and 240-day sunset reviews; provide deadlines for certain submissions; clarify the information to be provided by parties participating in a sunset review; clarify when the Department will conduct a 120-day or a 240-day sunset review; and provide time limits for actions to be taken by the Department.

Priority: Substantive, Nonsignificant

Legal Authority: PL 108-429

CFR Citation: 15 CFR 335; 15 CFR 340

Legal Deadline: None

Abstract: The Department of Commerce amends its regulation to implement the amendment to the Trade Act included in the Miscellaneous Trade Act of 2004 (Public Law 108-429). Principally, this rule amends the regulations to specify which HTS categories may be allocated as TRQs and to eliminate Commerce's authority to modify these quotas.

Abstract: The Bureau of Industry and Security (BIS) is reviewing the recommendations contained in the U.S. Department of Commerce Office of Inspector General Report entitled "Deemed Export Controls May Not Stop

the Transfer of Sensitive Technology to Foreign Nationals in the U.S." (Final Inspection Report No. IPE-16176-March 2004). Certain of these recommendations would require regulatory changes that would affect existing requirements and policies for deemed export licenses. BIS is seeking comments on how these revisions would affect industry, the academic community, and U.S. Government agencies involved in research.

Legal Deadline: None

Abstract: Following ratification by the United States of the Protocol Additional to the Agreement Between the United States of America and the International Atomic Energy Agency for the Application of Safeguards in the United States of America (AP or Protocol), the Bureau of Industry and Security (BIS) proposes to establish the Additional Protocol Regulations (APR) to implement the provisions of the Protocol affecting U.S. industry and other U.S. persons.

In the aftermath of the 1991 Persian Gulf War, international inspectors determined that Iraq had been engaged in a clandestine nuclear weapons development program at locations not directly subject to International Atomic Energy Agency (IAEA) safeguards. The international community determined

DOC—BIS

Proposed Rule Stage

that the safeguards system needed to be strengthened and negotiated a model Additional Protocol to amend existing bilateral safeguards agreements. The model Additional Protocol requires enhanced information collection and access to provide IAEA inspectors with greater ability to detect clandestine nuclear activities in non-nuclear weapons states (NNWS), and covers almost all of a state's nuclear fuel cycle. The United States, as a nuclear weapons state (NWS) party to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), is not obligated to accept IAEA safeguards on its nuclear activities. However, the United States voluntarily signed the U.S. Additional Protocol on June 12, 1998. In this U.S. Additional Protocol, the United States accepts all of the measures of the Model Protocol, except where their application would result in access by the IAEA to activities with direct national security significance to the United States or to locations or information associated with such activities. By submitting itself to the same safeguards on all of its civil nuclear activities that NNWS are subject to (except those of national security significance), the United States intends to demonstrate that adherence to the model Additional Protocol does not place other countries at a commercial disadvantage.

Declarations submitted under the U.S. Additional Protocol would provide the IAEA with information about additional aspects of the U.S. nuclear fuel cycle, including mining and milling of nuclear materials, nuclear-related equipment manufacturing, nuclear-related imports and exports, research and development not involving nuclear material, and other nuclear material activities not currently subject to the U.S. Safeguards Agreement. There are no routine inspections under the U.S.

Additional Protocol, but IAEA inspectors may be provided access (referred to as "complementary access") to the U.S. nuclear fuel cycle to assure the absence of undeclared nuclear material and activities or where there is a question or an inconsistency about the completeness or correctness of the U.S. declaration, which could relate to declared or undeclared industrial locations. Access to most industrial locations is predicated upon an IAEA request for clarification of a declaration. As with the U.S.-IAEA Safeguards Agreement, the IAEA would not be required to seek access to any U.S. locations. In carrying out the responsibilities delegated to it for implementation of the U.S. Additional Protocol, the Bureau of Industry and Security (BIS) will apply a philosophy of ensuring compliance while minimizing intrusion and the burden on commercial activities and emphasizing the protection of confidential business, national security, and other critical information to the maximum extent possible.

316. CHEMICAL WEAPONS CONVENTION REGULATIONS**Priority:** Other Significant

Legal Authority: 50 USC app 2401 et seq; 50 USC 1701 et seq; 22 USC 3201 et seq; 42 USC 2139a; EO 12002; EO 12058; EO 12214; EO 12938; EO 13026; EO 13222

CFR Citation: 15 CFR 710 et seq**Legal Deadline:** None

Abstract: The Chemical Weapons Convention Implementation Act of 1998 (the Act or CWCIA) (22 U.S.C. 6701 et seq.), enacted on October 21, 1998, authorizes the United States to require the U.S. chemical industry and other private entities to submit

declarations, notifications and other reports and also to provide access for on-site inspections conducted by inspectors sent by the Organization for the Prohibition of Chemical Weapons (OPCW). Executive Order (E.O.) 13128 delegates authority to the Department of Commerce to promulgate regulations, obtain and execute warrants, provide

DOC—BIS

Final Rule Stage

assistance to certain facilities, and carry out appropriate functions to implement the Chemical Weapons Convention (CWC), consistent with the Act. The Department of Commerce implements CWC import restrictions under the authority of the International Emergency Economic Powers Act, the National Emergencies Act, and E.O. 12938, as amended by E.O. 13128. The Departments of State and Commerce have implemented the CWC export restrictions under their respective export control authorities. E.O. 13128 designates the Department of State as the United States National Authority (USNA) for purposes of the CWC and the Act.

On December 30, 1999, the Bureau of Industry and Security (BIS), U.S. Department of Commerce, published an interim rule that established the Chemical Weapons Convention Regulations (CWCR) (15 CFR parts 710-722). The CWCR implemented the provisions of the CWC, affecting U.S. industry and U.S. persons, in accordance with the provisions of the Act. This rule updates the CWCR to include additional requirements identified as necessary for the implementation of certain CWC provisions and amends the CWCR to clarify other CWC requirements.

CFR Citation: 15 CFR 700 to 799

Legal Deadline: None

Abstract: The Bureau of Industry and Security administers the Special Comprehensive License (SCL) program to provide an effective export control mechanism for exporters who routinely ship to multiple end-users. This rule amends the SCL provisions of the Export Administration Regulations (EAR) to conform with changes in the SCL licensing process and to provide SCL applicants and consignees with additional guidance on how to fill out the forms required to submit a license application or to request changes in their SCLs. This rule also creates two new elements for SCL internal control programs. These new elements require the establishment of procedures for screening customers and items to ensure that SCL transactions conform with the antiboycott provisions of the EAR and with EAR provisions concerning entities involved in weapons of mass destruction activities.

326. AMENDMENTS TO THE EXPORT ADMINISTRATION REGULATIONS (EAR) IMPLEMENTING THE “CATCH-ALL” PROVISIONS IN THE AUSTRALIA GROUP (AG) “GUIDELINES FOR TRANSFERS OF SENSITIVE CHEMICAL OR BIOLOGICAL ITEMS”

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401; 50 USC 1701; 22 USC 3201; 42 USC 2139a ; PL 106-387; PL 107-56 ; EO 12058; EO 12851; EO 12938; EO 12947; EO 13026; EO 13099; EO 13222; EO 13224

CFR Citation: 15 CFR 744

Legal Deadline: None

Abstract: This rule amends the “end-user/end-use” controls in section 744.4(a) of the Export Administration Regulations (EAR) to conform with the country scope of the “catch-all” provisions in the Australia Group’s “Guidelines for Transfers of Sensitive Chemical or Biological Items.” Currently, section 744.4(a) of the EAR requires a license only to countries of concern for chemical and/or biological weapons reasons (i.e., Country Group D:3 in Supplement No. 1 to Part 740 of the EAR). This rule would amend section 744.4(a) of the EAR by expanding the number of countries subject to this EAR “end-user/end-use” license requirement to include all destinations, worldwide, including the countries identified in Country Group A:3 (i.e., the AG-participating countries).

DOC—BIS

Final Rule Stage

327. CUBA: REVISIONS OF PERSONAL BAGGAGE RULES, STATEMENT OF LICENSING POLICY, AND MODIFICATION OF LICENSE APPLICATION REQUIREMENTS**Priority:** Other Significant**Legal Authority:** 50 USC app. 2401 et seq; 50 USC 1701 et seq; PL 106–387; EO 13026; EO 13222**CFR Citation:** 15 CFR 740; 15 CFR 746; 15 CFR 748**Legal Deadline:** None

Abstract: This rule revises the policy implemented in a rule that BIS published on June 22, 2004 (RIN 0694-AD17, 69 FR 34565). That rule, inter alia, placed a limit of 44 pounds on the amount of baggage that most travelers to Cuba are allowed to take under License Exception BAG. This rule clarifies that restriction by exempting wearing apparel and articles of personal adornment worn by the traveler while traveling to Cuba, personal safety and medical commodities for use by the traveler including wheelchairs, walkers, portable medical devices, child safety seats, and strollers from the 44 pound weight limit. This rule also states BIS licensing policy regarding aircraft and vessels on temporary sojourn to Cuba and imposes new information requirements for license applications for certain aircraft and vessels on temporary sojourn to Cuba.

LICENSING POLICY FOR ENTITIES SANCTIONED UNDER SPECIFIED STATUTES; LICENSE REQUIREMENT FOR CERTAIN SANCTIONED ENTITIES; AND IMPOSITION OF LICENSE REQUIREMENT FOR TULA INSTRUMENT DESIGN BUREAU****Priority:** Substantive, Nonsignificant**Legal Authority:** 50 USC app. 2401 et seq; 50 USC 1701 et seq; 22 USC 3201 et seq; 42 USC 2139a; PL 106–387 sec 901 to 911; PL 107–56 sec 221; EO 12058; EO 12851; EO 12938; EO 12947; EO 13026; EO 13099; EO 13222; EO 13224**CFR Citation:** 15 CFR 744**Legal Deadline:** None

Abstract: Several statutes authorize or require the United States Government to impose export sanctions on entities if such entities have engaged in activities that contribute to the proliferation of weapons of mass destruction or are otherwise contrary to the foreign policy interests of the United States. This rule sets forth BIS's licensing policy for entities subject to sanctions imposed by the State Department under the Iran-Iraq Arms Nonproliferation Act of 1992 (Pub. L. 102-484), the Iran Nonproliferation Act of 2000 (Pub. L. 107-178) and section 11B(b)(1) of the Export Administration Act of 1979. This rule also sets forth a new license requirement for certain entities sanctioned by the State Department, and imposes a license requirement for a specific entity, Tula Instrument Design Bureau of Russia, pursuant to the new license requirement.

RIN: 0694–AD24**329. LICENSE EXCEPTION GOV EXPORTS AND REEXPORTS FOR OFFICIAL IAEA INTERNATIONAL INSPECTION AND VERIFICATION USE IN ACCORDANCE WITH THE U.S.-IAEA SAFEGUARDS AGREEMENT, AS AMENDED BY THE ADDITIONAL PROTOCOL****Priority:** Substantive, Nonsignificant**Legal Authority:** 50 USC 2401; 50 USC 1701; EO 13026; EO 13222; PL 106–387; ...**CFR Citation:** 15 CFR 740**Legal Deadline:** None

Abstract: This rule amends the License Exception GOV provisions in the Export Administration Regulations (EAR) to authorize exports and reexports of certain items for official International Atomic Energy Agency (IAEA) inspection and verification use in accordance with the terms of the Agreement Between the United States of America and the International Atomic Energy Agency for the Application of Safeguards in the United States, and Protocol Thereto (U.S.-IAEA Safeguards Agreement), as amended by the U.S.-IAEA Additional Protocol (Additional Protocol). These new License Exception GOV provisions authorize exports and reexports of a broader range of items than those currently eligible under the IAEA-Euratom provisions of License Exception GOV, because exports and reexports under these new License Exception GOV provisions are authorized only in connection with official international inspection and verification activities by the IAEA under the terms of the U.S.-IAEA Safeguards Agreement, as amended by the Additional Protocol.

333. REMOVAL OF CERTAIN NIGHT VISION DEVICES FROM ELIGIBILITY FOR LICENSE EXCEPTION APR FOR REEXPORTS TO, FROM, AND AMONG COUNTRY GROUP A:1

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401 et seq; 50 USC 1701 et seq; PL 106-387; EO 13026; EO 13222

CFR Citation: 15 CFR 740

Legal Deadline: None

Abstract: Paragraphs (a) and (b) of License Exception APR allow reexports of certain commodities to, from, and among destinations in Country Group A:1 (Supp. No. 1 to part 740 of the EAR) even in some situations in which no license exception would be eligible for similar exports from the United States to the same destination. Some commodities are excluded from the provisions of paragraphs (a) and (b) of License Exception APR. This rule adds some night vision related equipment to those exclusions. BIS is taking this action because of the importance of night vision equipment in military operations and its potential use by terrorists.

334. • EXPANSION OF THE COUNTRY SCOPE OF THE LICENSE REQUIREMENTS THAT APPLY TO CHEMICAL/BIOLOGICAL (CB) EQUIPMENT AND RELATED TECHNOLOGY; AMENDMENTS TO CB-RELATED END-USER/END-USE AND U.S. PERSON CONTROLS

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; 18 USC 2510; 22 USC 3201; 42 USC 2139a; PL 107-56; PL 108-11; EO 12058; EO 12851; EO 12938; EO 13026; EO 13222

CFR Citation: 15 CFR 742; 15 CFR 744; 15 CFR 774

Legal Deadline: None

Abstract: This rule increases the country scope of chemical/biological (CB) controls on those Commerce Control List (CCL) entries that control chemical/biological equipment and related technology included on the Australia Group (AG) "Control List of Dual-Use Chemical Manufacturing Facilities and Equipment and Related Technology." Specifically, this rule expands the country scope of the CB license requirements for these CCL entries from certain countries of concern for chemical/biological weapons reasons to all destinations, worldwide, except for those countries that participate in the Australia Group (AG). The changes made by this rule are intended to make the EAR license requirements that apply to AG-listed chemical/biological equipment and related technology conform with the AG "Guidelines for Transfers of Sensitive Chemical or Biological Items." This rule also expands the CB-related end-user/end-use controls in Section 744.4 of the EAR to include in-country transfers, as well as exports and reexports. In addition, this rule expands the country scope of the CB-related U.S. person restrictions in Section 744.6 of the EAR from countries of concern for CB weapons reasons (i.e., Country Group D:3) to any country or destination, worldwide.

335. • REMOVAL OF ADVISORY NOTES

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; 18 USC 2510; 22 USC 3201; PL 106-387; PL 107-56; EO 12058; EO 12851; EO 12938; EO 13222

CFR Citation: 15 CFR 742; 15 CFR 748; 15 CFR 774

Legal Deadline: None

Abstract: This rule amends the Export Administration Regulations (EAR) by removing all references to "Advisory Notes" from the provisions of the EAR. In addition, this rule amends Export Control Classification Number (ECCN) 2B018 on the Commerce Control List (CCL) by removing the Advisory Note from this ECCN and making conforming changes to the License Exception GBS and License Exception CIV paragraphs in this ECCN. Advisory Notes were included in the CCL to indicate favorable licensing treatment for strategic items included on the control lists of the Coordinating Committee for Multilateral Export Controls (COCOM), a multilateral export control organization that existed during the Cold War era. Strategic items included on the control lists of the COCOM successor regime, the Wassenaar Arrangement (WA), do not have Advisory Notes. Therefore, the Bureau of Industry and Security (BIS) amends the EAR to remove the only remaining Advisory Note and all references to Advisory Notes, wherever located.

DOC—BIS

Final Rule Stage

Abstract: The Bureau of Industry and Security (BIS) maintains the Commerce Control List (CCL), which identifies items subject to Department of Commerce export controls. This final rule revises certain entries controlled for national security reasons in Categories 1, 2, 3, 4, 5 part I (telecommunications), 6, 7, 8, and 9 to conform with changes in the List of Dual-Use Goods and Technologies maintained and agreed to by governments participating in the Wassenaar Arrangement on Export Controls for Conventional Arms and Dual-Use Goods and Technologies (Wassenaar Arrangement). The Wassenaar Arrangement focuses on implementation of effective export controls on strategic items with the objective of improving regional and international security and stability.

The purpose of this final rule is to make the necessary changes to the Commerce Control List, definitions of terms used in the EAR, and Wassenaar reporting requirements to implement Wassenaar List revisions that were agreed upon in the December 2004 meeting. In addition, this rule adds Slovenia to the list of Wassenaar member countries in the EAR.

CFR Citation: 15 CFR 744

Legal Deadline: None

Abstract: On January 12, 2004, President George W. Bush announced the Next Steps in Strategic Partnership (NSSP) with India. The proposed cooperation outlined in the NSSP will progress through a series of reciprocal steps that build on each other, including steps related to enhancing cooperation in peaceful uses of space technology and steps to create the appropriate environment for successful high technology commerce. This rule implements a revision the United States has agreed to take under the NSSP by reducing the scope of the items that exporters are informed require a license for facilities subject to International Atomic Energy Agency safeguards (Rajasthan 1 & 2 and Tarapur 1 & 2).

340. ● REVISIONS AND CLARIFICATION OF LICENSE EXCEPTION AVAILABILITY FOR CERTAIN CRIME CONTROL ITEMS AND REMOVAL OF LICENSE REQUIREMENTS ON OTHER CRIME CONTROL ITEMS

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app. 2401 et seq.; 50 USC 1701 et seq.; 18 USC 2510 et seq.; 22 USC 3201 et seq.; 42 USC 2139a; PL 106-387; PL 107-56; PL 108-11; EO 12058; EO 12851; EO 12938; EO 13026; EO 13222

CFR Citation: 15 CFR 740; 15 CFR 742; 15 CFR 774

Legal Deadline: None

Abstract: This rule expands and clarifies the availability of License Exceptions for items listed on the Commerce Control List (CCL) for Crime Control reasons. It also removes some such items from the CCL altogether by removing four Export Control Classification Numbers (ECCN) from that list. BIS is making these changes because it has concluded that the License Exception exclusions that this rule removes and the license requirements that were imposed pursuant to the ECCNs that this rule removes from the CCL are not necessary for the continued support of U.S. foreign policy to promote human rights throughout the world. Such support is the basis for crime control export license requirements as stated in §742.7 of the EAR. This rule also reiterates and emphasizes BIS policy of treating specially designed implements

DOC—BIS

Final Rule Stage

of torture and similar items differently than crime control items that have legitimate law enforcement uses by creating a separate paragraph in §740.2 excluding the former from all license exceptions. Finally this rule makes technical corrections in several ECCNs

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; EO 13026; EO 13222; ...

CFR Citation: 15 CFR 748

Legal Deadline: None

Abstract: The Bureau of Industry and Security is removing the requirement to

obtain an Import Certificate in support of an export or reexport licence when the ultimate consignee or purchaser is a foreign government or agency of India, Bulgaria, Czech Republic, Hungary, Poland, Romania, and Slovakia. This requirement is being removed for India, because of its highly effective export control program. The requirement is being removed for the other countries, because of their membership to the North Atlantic Treaty Organization (NATO) and their commitment to export control, as is reflected by their membership to multiple export control regimes, such as the Wassenaar Arrangement, the Australia Group, the Missile Technology Control Regime, and Nuclear Suppliers Group.

358. REVISIONS TO THE EXPORT ADMINISTRATIVE REGULATIONS: REMOVAL OF THE LIST OF MISSILE PROJECTS FROM CERTAIN COUNTRY GROUPS AND REVISIONS TO MISSILE CONTROLS

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401 et seq; 50 USC 1701 et seq; 22 USC 3201 et seq; 42 USC 2139a; EO 12002; EO 12058; EO 12214; EO 12938; EO 13026; EO 13222; ...

CFR Citation: 15 CFR 740

Legal Deadline: None

Abstract: This rule amends the Export Administration Regulations (EAR) by revising the footnote to Country Group D, which includes missile projects of concern. This rule updates the list of missile projects by adding missile projects and revising others by expanding the scope to missile project series. This rule increases the amount of applications for license submitted to the Bureau of Industry and Security, while curtailing the availability of goods and technology that could contribute to missile proliferation.

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401; 50 USC 1701; EO 13026; EO 13222; 22 USC 3201; 42 USC 2139a; EO 12058; EO 12851; EO 12938; EO 12947; EO 13026; EO 13099; EO 13222; EO 13224

CFR Citation: 15 CFR 732; 15 CFR 744.11

Legal Deadline: None

Abstract: This rule makes explicit BIS's policy of denying export license applications when a sanction imposed on a party pursuant to a statute requires such denial. Such sanctions are imposed for activities contrary to United States foreign policy interests or that contribute to the proliferation of weapons of mass destruction. This rule also makes the imposition of such sanctions or publication of a party's name on the BIS "Unverified List" a "red flag" triggering a need for heightened scrutiny when dealing with such parties in transactions that are subject to the Export Administration Regulations.

360. REVISIONS TO THE EXPORT ADMINISTRATION REGULATIONS: MISSILE TECHNOLOGY PRODUCTION EQUIPMENT AND FACILITIES CONTROLLED UNDER ECCNS 9B115 AND 9B116

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; EO 13222

CFR Citation: 15 CFR 774

Legal Deadline: None

Abstract: This rule amends the Commerce Control List (CCL) (Supplement No. 1 to part 774 of the EAR) to clarify and correct the scope of controls for production equipment and facilities for MT items in ECCNs 9B115 and 9B116. Specifically, because the MTCR Annex does not list production equipment for space launch vehicles or sounding rockets, this rule revises 9B115 to remove production equipment described in ECCN 9A004, the ECCN describing MT controls on space launch vehicles, and ECCN 9A104, the ECCN describing MT controls on sounding rockets. The MTCR Annex does list production facilities for space launch vehicles; however, because 9A004 includes "spacecraft" that are not controlled for MT reasons, the scope of control for production facilities described by ECCN 9B116 is too broad. Therefore, this rule amends ECCN 9B116 to specify that only production facilities for space launch vehicles described in ECCN 9A004 are subject to MT control.

In addition, the headings of ECCNs 9B115 and 9B116 are revised to include production equipment and production facilities, respectively, for components, systems and structures for launch vehicles, launch vehicle propulsion systems or "spacecraft" described in ECCN 9A010.

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app. 2401 et seq; 50 USC 1701 et seq; 22 USC 3201 et seq; 42 USC 2139a; PL 106-387; PL 107-56; EO 12058; EO 12851; EO 12938; EO 12947; EO 13026; EO 13099; EO 13222; EO 13224

CFR Citation: 15 CFR 744

Legal Deadline: None

Abstract: The President issued Executive Order 13304, effective on May 29, 2003, that, among other actions, terminated certain emergencies with respect to Yugoslavia that were declared in 1992 and 1998. Executive Order 13304's termination of the 1998 emergency removed most controls on certain persons identified by the bracketed initials [FRYM] on the list of Specially Designated Nationals and Blocked Persons maintained by the Department of the Treasury in 31 CFR chapter V. In this rule, the Bureau of Industry and Security removes from its regulations the restrictions on exports and reexports to persons identified by the bracketed initials [FRYM] on the list of Specially Designated Nationals and Blocked Persons.

362. EXPANSION OF AVAILABILITY OF LICENSE EXCEPTION CIV FOR CERTAIN DEEMED EXPORTS OF MICROPROCESSOR TECHNOLOGY; AND ESTABLISHMENT OF “FOREIGN NATIONAL REVIEW” SUPPORT STATEMENT FOR DEEMED EXPORTS

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; 10 USC 7420; 18 USC 2510; ...

CFR Citation: 15 CFR 740; 15 CFR 748; 15 CFR 774

Legal Deadline: None

Abstract: The Bureau of Industry and Security (BIS) is expanding the availability of License Exception CIV for certain deemed exports of microprocessor technology on the Commerce Control List (CCL) of the Export Administration Regulations (EAR) under Export Classification Control Numbers (ECCN) 3E001 and 3E002. These ECCNs control technology that can be used for the development and production of microprocessors. The proposed rule published on October 24, 2003, included the export and reexport of general purpose microprocessor technology under License Exception CIV. Eligibility for License Exception CIV in the final rule is limited to deemed exports for certain microprocessor technology. BIS has determined that further liberalization of controls on exports of microprocessor technology must await agreement in the Wassenaar Arrangement. This rule also establishes a new “Foreign National Review” (FNR) Support Statement requirement for deemed exports of technology in the EAR, incorporating guidance that has been posted on BIS’s Web site.

367. INDIA: REMOVAL OF INDIAN ENTITY AND REVISION IN LICENSE REVIEW POLICY FOR CERTAIN INDIAN ENTITIES AND A CLARIFICATION

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401 et seq; 50 USC 1701 et seq; 18 USC 2510

et seq; 22 USC 3201 et seq; 42 USC 2139a; PL 106-387; PL 107-56; EO 12058; EO 12851; EO 12938; EO 13026; EO 13222

CFR Citation: 15 CFR 744

Legal Deadline: None

Abstract: This rule removes the Indian Space Research Organization (ISRO) Headquarters in Bangalore from the Department of Commerce Entity List contained in Supplement No. 4 to Part 744 of the Export Administration Regulations (EAR). It removes the license requirement for the seven (7) ISRO subsidiaries listed on the Entity List for all items subject to the Export Administration Regulations (EAR) having a classification of EAR99 or a classification where the third through fifth digits of the Export Commodity Classification Number (ECCN) are "999", e.g., XX999. It establishes a presumption of approval for all items not controlled for nuclear proliferation reasons going to the "balance of plant" portion of Indian nuclear facilities subject to International Atomic Energy Agency safeguards (Rajasthan 1 & 2 and Tarapur 1 & 2). "Balance of plant" refers to the part of a nuclear power plant used for power generation (e.g., turbines, controllers, or power distribution) to distinguish it from the nuclear reactor.

368. REVISION OF EXPORT CONTROL CLASSIFICATION NUMBER (ECCN) 2B351 TO CONFORM WITH THE AUSTRALIA GROUP (AG) "CONTROL LIST OF DUAL-USE CHEMICAL MANUFACTURING FACILITIES AND EQUIPMENT AND RELATED TECHNOLOGY"

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401 et seq; 50 USC 1701 et seq; 10 USC 7420; 10 USC 7430(e); 18 USC 2510 et seq; 22 USC 287c; 22 USC 3201 et seq; 22 USC 6004; 30 USC 185(s) and 185(u); 42 USC 2139a; 42 USC 6212; 43 USC 1354; 46 USC app 466c; 50 USC app 5; PL 106-387; PL 107-56; EO 13026; EO 13222

CFR Citation: 15 CFR 774

Legal Deadline: None

Abstract: This rule revises Export Control Classification Number (ECCN) 2B351 on the Commerce Control List (CCL) (Supplement No. 1 to part 774 of the EAR) to conform with the Australia Group (AG) "Control List of Dual-Use Chemical Manufacturing Facilities and Equipment and Related Technology." Specifically, this rule amends ECCN 2B351 by removing a technical note that contained an overly broad description of the types of toxic gas monitoring systems and detectors subject to chemical/biological (CB) controls under the EAR. The technical note covered a number of toxic gas monitoring systems and detectors not included on the AG control list.

369. EXPANSION OF COMPUTER TECHNOLOGY AND SOFTWARE ELIGIBLE FOR EXPORT OR REEXPORT UNDER LICENSE EXCEPTION CTP; AND ESTABLISHMENT OF "FOREIGN NATIONAL REVIEW" PROCEDURE UNDER LICENSE EXCEPTION CTP

Priority: Substantive, Nonsignificant

Legal Authority: 10 USC 7420; 18 USC 2510; 22 USC 3201; 30 USC 185; ...

CFR Citation: 15 CFR 740; 15 CFR 748; 15 CFR 774

Legal Deadline: None

Abstract: This rule expands the availability of license exceptions for exports and reexports of computer technology and software under the Export Administration Regulations (EAR), as set forth in a proposed rule published on October 24, 2003. In addition, this rule clarifies certain provisions of License Exception CTP.

This rule also establishes a new "Foreign National Review (FNR)" procedure for deemed exports of technology or source code software under License Exception CTP.

370. ENCRYPTION EXPORT AND REEXPORT CONTROLS REVISIONS

Priority: Other Significant

Legal Authority: 50 USC app 2401 et seq; 50 USC 1701 et seq; 22 USC 3201 et seq; 42 USC 2139a; PL 106-387; PL

107-56; EO 12058; EO 12851; EO 12938; EO 12947; EO 13026; EO 13099; EO 13222; EO 13224

CFR Citation: 15 CFR 734; 15 CFR 740; 15 CFR 742; 15 CFR 744; 15 CFR 772

Legal Deadline: None

Abstract: This action removes the requirements for a separate case-by-case, U.S. Government review of some encryption items to determine whether foreign-made items incorporating them are eligible for de minimis treatment. Foreign-made items incorporating those encryption items will now be treated like other U.S. origin items in determining de minimis eligibility. This rule reduces the notification requirements for exports and reexports of certain "publicly available" items that have been posted to the Internet by removing the requirement to notify the U.S. Government of updates or modifications if the Internet location has not changed. This rule simplifies License Exception ENC review requirements for exports and reexports of eligible encryption items, by implementing a 30-day limit on most encryption reviews and by clarifying the criteria by which licensing requirements to certain "government end-users" is determined. In connection with this new 30-day limit, this rule authorizes BIS to require additional technical information about a reviewed item after the review is completed and, if the information is not furnished, to suspend or revoke authorization to use License Exception ENC with respect to the item for which the information is sought. This rule also expands the list of countries to which certain encryption items may be sent immediately after notification to the U.S. Government. The list now covers all current members of the European Union. This rule updates and clarifies several encryption review requirements by revising License Exception ENC, Supplement No. 3 to part 740 and the definition of the term "hold without action" in the Export Administration Regulations. This rule also makes some technical changes.

371. IMPLEMENTATION OF THE UNDERSTANDINGS REACHED AT THE JUNE 2004 AUSTRALIA GROUP (AG) PLENARY MEETING; CLARIFICATIONS TO THE SCOPE OF ECCNS 1A004, 1A995, AND 2B351

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401; 50 USC 1701; 10 USC 7420; 10 USC 7430(e); 18 USC 2510; 22 USC 287(c); 22 USC 3201; PL 106-387; PL 107-56; EO 12058; EO 12851; EO 12938; EO 13026; EO 13222; ...

CFR Citation: 15 CFR 738; 15 CFR 740; 15 CFR 742; 15 CFR 745; 15 CFR 774

Legal Deadline: None

Abstract: The Bureau of Industry and Security (BIS) is amending the Export Administration Regulations (EAR) to: implement the understandings reached at the June 2004 plenary meeting of the Australia Group (AG) and through a subsequent AG intersessional decision; clarify the scope of controls on chemical detection equipment in ECCNs 1A004, 1A995, and 2B351; restore the text of license requirements notes inadvertently omitted from three ECCNs in a previously published rule; and update the list in the EAR that identifies countries that are States Parties to the Chemical Weapons Convention (CWC).

Specifically, this rule implements the understandings reached at the June 2004 plenary meeting by adding three bacteria and two viruses to the list of AG-controlled plant pathogens described on the Commerce Control List (CCL) (Supplement No. 1 to part 774 of the EAR). This rule also revises the AG-related licensing policies in the EAR, consistent with changes in the AG "Guidelines for Transfers of Sensitive Chemical or Biological Items," by adding a new licensing factor to the list of factors that BIS will consider when determining what action should be taken on license applications to export or reexport AG-listed items on the CCL. In addition, this rule removes

DOC—BIS

Completed Actions

the chemical/biological (CB) licensing requirement for certain medical products that contain conotoxins. This rule revises Supplement No. 1 to part 740 (Country Groups) by adding to Country Group A:3 (Australia Group) the names of five countries that recently became AG members and by removing Bulgaria from Country Group D:3 (countries of concern for chemical/biological reasons) the latter change was inadvertently omitted from an AG plenary rule that BIS published on May 31, 2002. Supplement No. 1 to part 738 (Commerce Country Chart) is amended by removing the licensing requirements for the five new AG member countries, under CB Column 2, in conformance with the licensing policy that applies to AG participating countries. This rule amends the EAR to implement an AG intersessional decision, which was adopted after the June 2004 AG plenary meeting, by adding nine precursor chemicals to the list of AG-controlled precursor chemicals described in ECCN 1C350 on the CCL.

In addition, this rule amends ECCNs 1A004 and 2B351 to eliminate an apparent overlap between the controls of these two ECCNs as they apply to certain chemical detection equipment therefor specially designed or modified to identify or detect chemical warfare agents, but not specially designed for military use.

This rule also amends three CCL entries, which control certain precursor chemicals and/or mixtures and test kits containing such chemicals, to restore the text of the license requirements notes that were inadvertently omitted from these ECCNs in a rule that BIS published on July 30, 2004.

Finally, this rule revises Supplement No. 2 to part 745 of the EAR (titled "States Parties to the Convention on the Prohibition of the Development, Production, Stockpiling, and Use of Chemical Weapons and on Their Destruction") by adding the names of seven countries that recently became States Parties to the CWC.

Legal Deadline: None

Abstract: This rule makes technical corrections and procedural changes to the Export Administration Regulations. Specifically, it: Updates the description of BIS's general plan of organization in section 730.4; revises and shortens the description of the scope of the Commerce Country Chart in section 738.3(a); clarifies availability of License Exception TMP for exhibition and demonstration in Country Group D:1; clarifies availability of License Exception TMP for reexports of kits of replacement parts to Country Group D:1; adds the Under Secretary for Industry and Security as an official who may determine whether information subject to section 12(c) of the Export Administration Act may be released to the public to conform to actual agency practice; removes a superfluous statement about responsibility to classify items from section 748.3(a); revises the description of emergency processing of license applications to conform to current agency practice; corrects a citation to the recordkeeping requirements pertaining to certificates or other documents obtained in connection with exports subject to the Inter-American Firearms Convention; redesignates two paragraphs in section 748.11 to conform to the standard Code of Federal Regulations structure; sets the value of aircraft and vessels on temporary sojourn to \$0 for license application purposes to prevent confusing statistical values of items licensed for export to embargoed destinations; revises the titles of the head and deputy head of BIS in part 756 (Appeals) to conform to the currently applicable Departmental Organizational Orders; corrects a citation error in the prohibition against concealment or misrepresentation of facts and adds another citation to clearly distinguish the export control documents from the boycott report documents that are subject to section 764.2(g); revises the titles of the head of BIS in part 766 (Administrative Enforcement Proceedings) to conform to

DOC—BIS

Completed Actions

the currently applicable Departmental Organizational Orders; revises the definition of the term “controlled country” to make clear that they are countries subject to national security export controls, to add two previously omitted countries, and to reflect the shift of North Korea from Country Group E:2 to D:1; removes a reference to a no longer existent technical note and corrects the name of another document referenced in ECCN 1C018; and revises the ECCN 3A001 License Exceptions paragraph to exclude certain commodities controlled for missile technology reasons consistent with section 740.2(a)(5).

376. • REVISIONS TO THE EXPORT ADMINISTRATION REGULATIONS BASED ON THE 2004 MISSILE TECHNOLOGY CONTROL REGIME PLENARY AGREEMENTS; ADDITIONS TO THE ENTITY LIST; REVISIONS TO THE MISSILE CATCH-ALL CONTROLS

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; 22 USC 3201; EO 12851; ...

CFR Citation: 15 CFR 740; 15 CFR 744; 15 CFR 772; 15 CFR 774

Legal Deadline: None

Abstract: The Bureau of Industry and Security (BIS) is amending the Export Administration Regulations (EAR), including various entries on the Commerce Control List (CCL), to reflect changes to the Missile Technology Control Regime (MTCR) Annex that were agreed to by MTCR member countries at the October 2004 Plenary in Seoul, South Korea. In addition to these changes, the EAR provide that the Bureau of Industry and Security (BIS) may inform exporters, individually or through amendment to the EAR, that a license is required for exports or reexports to certain entities. The EAR contain a list of such entities called the Entity List. This rule adds to the Entity List four entities located in Syria. Lastly, this rule revises the missile catch-all controls for Restrictions on Certain Rocket Systems, by clarifying that the general prohibition includes a license requirement for items that will be used, anywhere in the world except by governmental programs for nuclear weapons delivery of NPT Nuclear Weapons States that are also members of NATO, in the design, development, production or use of rocket systems or unmanned air vehicles, regardless of range capabilities, for the delivery of chemical, biological, or nuclear weapons.

377. • DENIED PERSONS AND SPECIALLY DESIGNATED NATIONALS

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; EO 13026; EO 13222; EO 12938; EO 13020

CFR Citation: 15 CFR 732; 15 CFR 736; 15 CFR 758; 15 CFR 764; 15 CFR 766; 15 CFR 772

Legal Deadline: None

Abstract: This final rule removes all references in the Export Administration

Regulations (EAR) to the supplement containing the list of persons denied export privileges (i.e., the “Denied Persons List” or DPL), because no such supplement exists in the Code of Federal Regulations, Title 15 Part 764. The DPL is described, but not published, in the Code of Federal Regulations. This change is also being made because the Bureau of Industry and Security (BIS) is discontinuing its practice of including unofficial versions of both the DPL and the “Specially Designated Nationals and Blocked Persons” (SDN) List in the unofficial loose-leaf edition of the EAR that is available by subscription from the U.S. Government Printing Office (GPO). Revisions to the DPL and SDN List are issued frequently enough as to make the quarterly, hard-copy versions of the lists inaccurate. The removal of these lists from the loose-leaf edition of the

EAR will eliminate the possibility that any violations of the EAR would occur due to reliance upon outdated information contained in these lists.

385. REVISION OF AMERICAN LOBSTER REGULATIONS FOR THE EEZ

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 5101 et seq

CFR Citation: 50 CFR 697

Legal Deadline: None

Abstract: In accordance with the Atlantic Coastal Fisheries Cooperative Management Act (Act), 16 USC et seq., NMFS announces that it is considering, and seeking public comment on, revisions to Federal American lobster regulations for the Exclusive Economic Zone in response to recommendations from the Atlantic States Marine Fisheries Commission to NMFS in Addenda II and III to Amendment 3 to the Interstate Fishery Management Plan for American Lobster (ISFMP). This action would develop regulations relative to Addendum III to the ISFMP, and combine those with Addendum II (ANPRM and NOI published May and September of 2001, respectively) into a single environmental impact statement. Addendum II management measures would include minimum gauge size increases in five of the seven Lobster Conservation Management Areas (LCMA), lobster trap gear

modifications, a 4-year lobster trap reduction schedule for LCMA 3, and a logbook requirement for LCMA 3 lobster vessels. Addendum III would further modify Addendum II's gauge increase schedule and include new management measures for the majority of the LCMAs.

386. REGULATORY AMENDMENT TO IMPLEMENT PERMIT STACKING IN THE LIMITED-ENTRY FIXED-GEAR SABLEFISH FISHERY IN 2005 AND BEYOND

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: NPRM, Statutory, Final rule must be published 30 days after end of comment period on the proposed rule.

Abstract: This regulatory amendment would implement the following Amendment 14 provisions: permit owners will be required to provide detailed ownership information to ensure that no person has ownership interest in or holds more than three permits; current permit owners who were not permit owners before November 1, 2000, will be required to be on board the vessel fishing against the sablefish cumulative limits

DOC—NOAA

Proposed Rule Stage

associated with that vessel's permit(s); vessels landing sablefish against their primary season limits will be required to contact enforcement officials before making sablefish landings; vessel owners wishing to freeze sablefish at sea will be required to provide proof of a history of freezing sablefish at sea in the years 1998, 1999, or 2000.

387. COMPREHENSIVE AMENDMENT ADDRESSING SUSTAINABLE FISHERIES ACT REQUIREMENTS REGARDING OVERFISHING, BYCATCH, FISHING COMMUNITIES AND PROVISIONS FOR FISHERY MANAGEMENT PLANS FOR THE CARIBBEAN

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622

Legal Deadline: Final, Statutory, November 2005, Final regulations to be published within 30 days of end of NPRM comment period.

Abstract: NMFS amends its regulations to implement the Comprehensive Amendment Addressing the Sustainable Fisheries Act provisions of the Magnuson-Stevens Fishery Conservation and Management Act (MSFCMA) in the fishery management plans (FMPs) of the U.S. Caribbean. Specifically, the amendment includes actions to define fishery management units and sub-units; specifies biological reference points and stock status determination criteria; regulates fishing mortality; rebuilds overfished fisheries; conserves and protects yellowfin

grouper; and achieves the MSFCMA bycatch mandates. Also incorporated into this FMP amendment are alternatives to describe and identify essential fish habitat (EFH), and alternatives to address adverse effects of fishing on EFH. The intended effect of this action is to ensure the stewardship of living marine resources for the benefit of the Nation.

389. IMPLEMENTATION OF THE REGULATORY CHANGES RESULTING FROM THE AMENDMENTS AND EXTENSION OF THE SOUTH PACIFIC TUNA ACT

Priority: Substantive, Nonsignificant**Legal Authority:** Not Yet Determined**CFR Citation:** 50 CFR 300**Legal Deadline:** None

Abstract: This rulemaking would implement the regulatory changes resulting from the recently renegotiated Treaty on Fisheries between the Governments of Certain Pacific Island States and the Government of the United States of America, as authorized under the South Pacific Tuna Act. These changes include the implementation of an electronic vessel monitoring system for U.S. purse seine vessels licensed to fish within the Treaty Area. The location information will be provided to the Forum Fisheries Agency, located in Honiara, Solomon Islands, as well as NOAA Fisheries. This rule would eliminate the prohibition of duly authorized U.S. longline vessels from fishing in the high seas areas within the Treaty Area. Additionally, it will impose minor modifications in the various reporting requirements, as well as modify the areas of fishing allowed in the exclusive economic zones of the Solomon Islands and Papua New Guinea.

390. AMENDMENT 71A TO THE FISHERY MANAGEMENT PLAN FOR THE GROUND FISH FISHERY OF THE BERING SEA AND ALEUTIAN ISLANDS AREA

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This action will revise regulations governing the process under which a portion of the Bering Sea and Aleutian Islands quotas for groundfish, prohibited species, crab, and halibut are allocated to groups representing Western Alaska communities eligible for the Community Development Quota (CDQ) Program. The action also will revise administrative regulations for the economic development aspects of the CDQ Program. It will also allow the CDQ groups to invest in non-fisheries projects.

397. CATCHER VESSEL ELECTRONIC REPORT

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 679**Legal Deadline:** None

Abstract: NMFS revises its regulations to allow the operator of a catcher vessel

the option of using an NMFS-approved electronic version of the logbook in place of the paper logbook. Currently, paper daily fishing logbooks are required from catcher vessels greater than 60 feet in length overall. Requirements for completion and submittal of the logbooks exist in the regulations at 50 CFR part 679. Recent advances in technology have allowed catcher vessels to use an electronic version of the logbook to record the required information. The current regulations would be changed to reflect the different options available to catcher vessels when submitting data. The use of the electronic logbooks would not be required by NMFS at this time.

398. ATLANTIC STRIPED BASS FISHERIES IN THE EEZ; MODIFICATION OF FEDERAL REGULATIONS

Priority: Other Significant**Legal Authority:** 16 USC 1851**CFR Citation:** 50 CFR 697**Legal Deadline:** None

Abstract: NMFS announces that it is considering, and seeking public comment on, revisions to Federal Atlantic striped bass regulations for the U.S. Exclusive Economic Zone (EEZ) in response to recommendations from the Atlantic States Marine Fisheries Commission (Commission) to the Secretary of Commerce (Secretary). The Commission recommended that the Secretary remove the moratorium on the harvest of Atlantic striped bass in the EEZ after a 13-year closure; implement a 28-inch minimum size

DOC—NOAA

Proposed Rule Stage

limit for the recreational and commercial Atlantic striped bass fisheries in the EEZ; and allow states the ability to adopt more restrictive rules for fishermen and vessels licensed in their jurisdiction. NMFS is soliciting comments with this notice regarding possible management measures and issues that NMFS should consider relative to these recommendations.

399. AMENDMENT 13B TO THE FISHERY MANAGEMENT PLAN FOR THE SNAPPER-GROUPER FISHERY OF THE SOUTH ATLANTIC REGION

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622**Legal Deadline:** None

Abstract: Amendment 13B will: (1) Redefine, as needed, the snapper-grouper fishery management unit (FMU) and FMU sub-units; (2) define biomass-based estimates of biological reference points and status determination criteria for all stocks/complexes that comprise the FMU; (3) establish rebuilding schedules based on biomass-based estimates of status determination criteria for all overfished stocks/complexes in the FMU; (4) establish control rules and implement management measures, as

needed, to end overfishing and rebuild overfished stocks; (5) review the implementation of the Logbook/Atlantic Coastal Cooperative Statistics Program bycatch reporting program in the context of its consistency with the MSFCMA requirement to establish a standardized bycatch reporting methodology; (6) assess the practicability of additional bycatch reduction measures; and (7) assess the practicability of changes to the renewal period on commercial snapper-grouper permits.

400. ATLANTIC HIGHLY MIGRATORY SPECIES; AMENDMENTS TO THE FISHERY MANAGEMENT PLAN FOR ATLANTIC TUNAS, SWORDFISH, AND SHARKS AND THE FISHERY MANAGEMENT PLAN FOR ATLANTIC BILLFISH

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 971 et seq; 16 USC 1801 et seq**CFR Citation:** 50 CFR 635**Legal Deadline:** None

Abstract: This rule will address numerous issues for the Atlantic tunas, swordfish, shark, and billfish fisheries. These issues include reviewing data for updates as part of a five-year review of essential fish habitat; considering workshops to reduce bycatch and bycatch mortality, increase regulatory compliance, and increase communication with fishermen; reviewing current time/area closures and the need for modifications;

preventing overfishing of finetooth sharks and albacore tuna; adjusting bluefin tuna effort controls and quota allocations to improve management; considering changes to the fishing year definition and currently authorized gear types; and strengthening measures to reduce billfish mortality across all highly migratory species fisheries. This rule will also consider combining the two fishery management plans into one document.

This action would affect fishermen fishing for highly migratory species in the Atlantic Ocean, including the Gulf of Mexico and Caribbean Sea. Many of the actions in this rule will simplify or improve the management of the fisheries to help fishermen understand the regulations and the management process. Other actions in this rule could change quota allocations, but would not likely change overall quotas. Additionally, while the actions may establish new requirements, such as workshops, or modify existing requirements, such as the time/area closures, the actions are not expected to reduce the number of people fishing for highly migratory species. Some actions, for example, modifications to time/area closures, could have negative or positive economic impacts, depending on the extent of the changes needed.

401. FULL RETENTION AND MONITORING PROGRAM IN THE SHOREBASED PACIFIC WHITING FISHERY**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 660**Legal Deadline:** None

Abstract: The Pacific Fishery Management Council (Pacific Council) at their October 21 to 25, 1996, meeting in San Francisco, California addressed the treatment and disposition of salmon in the groundfish trawl fisheries, specifically the shore-based whiting fishery. At that meeting, the Pacific Council discussed the retention of salmon in the shore-based whiting fishery and took action to maintain a viable shore-based whiting fishery by using exempted fishing permits (EFPs). These EFPs allowed the shore-based whiting fleet to temporarily deliver unsorted catch to processing plants and provided for the monitoring of incidentally taken salmon until a permanent monitoring program could be implemented. In keeping with the Pacific Council's recommendation, NMFS is proceeding with implementing a monitoring program for the shore-based whiting fishery. This action will aid in the sustainable management of Pacific Coast salmon and groundfish fisheries while providing an important economic opportunity to those associated with the harvest, processing, and selling of whiting taken by the shore-based whiting fleet. The need for implementing a permanent monitoring program in the shore-based Pacific whiting fishery is to provide for a full retention fishery by enabling the shore-based whiting fleet, comprised exclusively of catcher vessels, to deliver unsorted catch to processing plants. This practice is necessary to ensure that whiting landings are of market quality, while abiding by Federal groundfish regulations and those implementing the Pacific Coast salmon and groundfish fishery management plans (FMPs).

Abstract: This regulatory amendment would add or revise species codes to an existing collection. These changes are done in coordination with Alaska Department of Fish and Game. The species codes currently in use are presented in table 2 to part 679. Code 112, Pacific hake, would be added because fishermen in the EEZ off the coast of Alaska are now catching more of this fish species and need a way to document the weight. Code 702, Big Skate, would be added because State of Alaska and NMFS management need to identify the catch of this species specifically rather than in the miscellaneous code 700, General Skates. Code 932, Opilio Tanner Crab, would be renamed as Snow Tanner Crab because this revised name is more common among the fishing industry. These changes in the species codes are not controversial and are expected to be supported by all interested entities.

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This rule would revise requirements for markings on buoys as described at 679.24(a) by removing the requirement to mark the vessel's name on all hook and line, longline pot, and pot and line marker buoys carried on board or used by any vessel regulated by 50 CFR part 679. The buoys could then be marked with either the vessel's Federal fisheries permit number or the vessel's ADF&G vessel registration number.

407. FISH AND SEAFOOD PROMOTION ACT

Priority: Other Significant

Legal Authority: 16 USC 4001 to 4017

CFR Citation: 50 CFR 270

Legal Deadline: None

Abstract: In 1989, NOAA issued a final rule implementing the Fish and Seafood Promotion Act of 1986 (Act), as it pertains to seafood marketing councils for one or more species of fish or fish products. The rule was stricken from the Code of Federal Regulations as part of a Presidential regulatory

reform effort along with a large number of other rules and regulations unused or little used. In light of evidence that seafood marketing councils may be a valuable tool in the near future NOAA now plans to reissue this rule which governs the establishment and operations of such councils. This rule is intended to implement the Act.

408. COMMUNITY DEVELOPMENT QUOTA REGULATORY AMENDMENT TO MODIFY SEVERAL FISHERY MANAGEMENT ELEMENTS OF THE CDQ PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This regulatory amendment would modify several fishery management elements of the CDQ Program, including: how to address which annual CDQ reserves should be allocated among CDQ groups; relaxing strict quota accountability standards; and determining a means to accommodate changes made in the annual specifications process to preexisting CDQ percentage allocations.

409. AMENDMENT 13 TO FISHERY MANAGEMENT PLAN FOR THE SHRIMP FISHERY OF THE GULF OF MEXICO, U.S. WATERS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: None

Abstract: The Gulf of Mexico Fishery Management Council is developing Amendment 13 to establish a permitting system for the royal red shrimp fishery that is complementary to the existing permit system for the penaeid shrimp fishery. In accordance with requirements of the Magnuson-Stevens Fishery Conservation and Management Act, the Amendment also will establish or revise stock status thresholds and targets including MSY, OY, as well as the "overfished" and "overfishing" definitions for the shrimp species in the management unit, and a bycatch reporting methodology.

Priority: Other Significant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: None

Abstract: The South Atlantic Fishery Management Council is developing Amendment 6 to refine and revise the management strategy for the various shrimp stocks. A permitting and reporting system will be established for the shrimp fishery of the South Atlantic exclusive economic zone. In accordance with the Magnuson-Stevens Fishery Conservation and Management Act, the amendment will revise or establish stock status thresholds and targets including MSY, OY, as well as the "overfished" and "overfishing" definitions for the shrimp species in the management unit. Additional actions will address bycatch reduction in the fisheries, as well as establish bycatch reporting requirements.

419. ATLANTIC HIGHLY MIGRATORY SPECIES (HMS); REDUCING SEA TURTLE TAKES
Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 971; 16 USC 1801 et seq**CFR Citation:** 50 CFR 635**Legal Deadline:** None

Abstract: This action would amend the regulations governing the Atlantic pelagic longline fishery based upon a June 1, 2004, Biological Opinion regarding Atlantic sea turtles. This amendment could include framework mechanisms that would allow the Agency to take action, such as partial or rolling closures or gear or effort restrictions, if the number of sea turtle interactions or mortalities exceed anticipated levels during a certain period of time. This action would not change established quotas for target species and is not expected to change overall effort in the fishery.

420. ANNOUNCEMENT OF THE OPTIMUM YIELD AND HARVEST LIMIT FOR PACIFIC MACKEREL
Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 660**Legal Deadline:** NPRM, Statutory, July 1, 2005.

Abstract: NMFS announces the annual harvest guideline for Pacific mackerel in the exclusive economic zone off the Pacific coast. The Coastal Pelagic Species Fishery Management Plan (FMP) and its implementing regulations require NMFS to set an annual harvest guideline for Pacific mackerel based on a formula in the FMP. The intended effect of this action is to establish allowable harvest levels for Pacific mackerel off the Pacific coast and to

minimize the impact on other coastal pelagic fisheries.

432. • HALIBUT AND SABLEFISH IFQ PROGRAM AMENDMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq; 16 USC 773 et seq

CFR Citation: 50 CFR 300; 50 CFR 679

Legal Deadline: None

Abstract: The proposed action would amend regulations for the Halibut and Sablefish IFQ Program by: (1) Instituting an emergency medical transfer program; (2) tightening criteria for the use of hired masters; (3) adding vessel clearance requirements to the sablefish fisheries in the Bering Sea and Aleutian Islands; (4) changing product recovery rates for sablefish; (5) adjusting the halibut QS block program; and (6) amending vessel classification QS use allowances.

433. • FMP FOR THE SCALLOP FISHERY OFF ALASKA AMENDMENT 10

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 773; 16 USC 1801; 16 USC 3631

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This rulemaking would modify the gear endorsements under the a license limitation program (scallop LLP) for the scallop fishery. The LLP limits access to the commercial scallop fisheries in the exclusive economic zone (EEZ) off Alaska. This rulemaking would change the 6-foot dredge restriction endorsement in the scallop LLP to two 10-foot dredge (or two dredges with a

combined width of 20 ft) restriction endorsement. This change would allow two LLP holders with the current endorsement to fish in federal waters outside Cook Inlet with a maximum of two ten-foot dredges.

434. • FISHERIES OFF WEST COAST STATES AND IN THE WESTERN PACIFIC; WEST COAST SALMON FISHERIES; AMENDMENT 14; ESSENTIAL FISH HABITAT (EFH) DESCRIPTIONS FOR PACIFIC SALMON

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: None

Abstract: This action would implement Amendment 14 to the Pacific Salmon Fishery Management Plan (Salmon FMP) to identify and describe Essential Fish Habitat (EFH) for Pacific salmon. The intent of this rule is to codify the EFH identifications and descriptions for freshwater and marine habitats of Pacific salmon managed under the Salmon FMP, including Chinook, Coho, and Pink salmon in Washington, Oregon, and California. In addition, the intent of this rule is to comply with the October 1, 2003, court order of the U.S. District Court for the District of Idaho, and to promote the conservation and enhancement of Pacific salmon EFH.

Abstract: This action would allow holders of Area 4C halibut Individual Fishing Quota (IFQ) and Community Development Quota (CDQ) to harvest such halibut IFQ/CDQ in Area 4D. Currently, halibut IFQ and CDQ allocated in a particular area may only be harvested in that same area, in accordance with biomass-based quotas, except that halibut CDQ (only) allocated in Area 4D may be harvested in Area 4E. This action would also allow additional fishing opportunities to attain the assigned Area 4C IFQ and CDQ quotas for two Pribilof Island communities (St. Paul and St. George) in Area 4C, which are managed by two CDQ groups.

Major status under 5 USC 801 is undetermined.**Legal Authority:** 16 USC 1801 et seq; 16 USC 3631; 16 USC 773-773k**CFR Citation:** 50 CFR 679**Legal Deadline:** None

Abstract: The rule implementing Amendment 79 to the Bering Sea and Aleutian Islands Groundfish FMP would establish a groundfish retention standard (GRS) for non-AFA catcher/processors that are 125 ft or greater in length overall (LOA). This rule would establish a year-round GRS of 75 percent in 2006 (that is, vessels would be required to retain at least 75 percent of their groundfish catch in the initial year of the program); 80 percent in 2007; and 85 percent in 2008. This action is intended to further minimize discards in the BSAI.

Abstract: This rulemaking would identify essential fish habitat (EFH) and habitat areas of particular concern (HAPC) in Alaska waters and implement management measures for the conservation of these areas. Portions of EFH have been established as management areas, HAPC, and zones where fishing activities would be restricted. Vessels fishing in the Aleutian Islands subarea would also be required to carry vessel monitoring systems. The implementation of these regulations is necessary to comply with a national court settlement regarding EFH.

Abstract: Framework Adjustment 17 would revise a provision included in the Atlantic Sea Scallop Fishery Management Plan that allows vessels to terminate special access area trips early for unforeseen events. The revised provision eliminates an automatic charge and associated reduction in possession limit by allowing vessels to resume trips into the special access areas without loss of allowed scallop possession limit. Framework Adjustment 17 would also require that all vessels issued open access, General Category scallop permits that intend to land more than 40 pounds of scallops be equipped with electronic vessel monitoring systems to allow fishing activity to be monitored and tracked for enforcement and fishery evaluation purposes. General Category scallop vessels operating vessel monitoring systems would be allowed to turn off the vessel monitoring systems if the vessel does not have any scallops on board and while the vessel is secured to a fixed dock or mooring

Abstract: On July 15, 2004, Secretarial Amendment 1 to the Reef Fish Fishery Management Plan was implemented and established a red grouper rebuilding plan made retroactive to 2003. The purpose of this regulatory amendment is to evaluate total allowable catch (TAC) increases for the 2006-2008 period in accordance with the projected red grouper rebuilding trajectories. In 2004, the commercial grouper fishery experienced quota closures for the first time. NMFS, in working with industry and the Gulf of Mexico Fishery Management Council, established trip limits through an emergency rule in March 2005 to postpone the quota closure. Thus, the regulatory amendment additionally evaluates grouper trip limit alternatives to postpone quota closures during the fishing season as seen in 2004. This amendment would make the trip limits permanent. Finally, the regulatory amendment evaluates the effect of unexpectedly high recreational landings in 2004 and will develop measures to constrain the recreational harvest to levels consistent with the rebuilding plan.

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 951 to 961 and 971 et seq

CFR Citation: 50 CFR 300

Legal Deadline: Final, Statutory, July 1, 2005, agreement under IATTC.

Abstract: NMFS announces the 2005 conservation and management measures for international tuna fisheries in the eastern tropical Pacific Ocean. These are a six-week closure of purse seine fisheries and a closure of any national longline fishery which reaches a catch level for bigeye tuna equal to the catch made by that fleet in 2001. The intended effect of the rule is to establish prohibition of U.S. vessels purse seine fishing for tuna in the IATTC Convention Area for the November 20 to December 31 period and to announce that the U.S. longline fishery in the Convention Area will be closed if the catch in 2005 reaches the catch level of 2001. This will conform to the IATTC recommendation that was approved by the Department of State.

456. TAKING AND IMPORTING MARINE MAMMALS: TAKING MARINE MAMMALS INCIDENTAL TO CONDUCTING OIL AND GAS EXPLORATION ACTIVITIES IN THE GULF OF MEXICO

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1371(a)(5)(A)

CFR Citation: 50 CFR 216.101 to 216.108

Legal Deadline: None

Abstract: The National Marine Fisheries Service has received an application from the U.S. Minerals Management Service for regulations under section 101(a)(5)(A) of the Marine Mammal Protection Act (MMPA) to authorize the taking of marine mammals incidental to conducting oil and gas exploration activities by U.S. citizens in the Gulf of Mexico. Without this authorization, the taking of marine mammals is prohibited by the MMPA. In order to authorize the taking and issue authorizations, NMFS must, through regulations, determine that the proposed activity will have no more than a negligible impact on the affected species and stocks of marine mammals.

458. RIGHT WHALE SHIP STRIKE REDUCTION

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1361

CFR Citation: 50 CFR 224

Legal Deadline: None

Abstract: These regulations are to implement a strategy to reduce the known mortalities to North Atlantic right whales as a result of collisions with vessels, which account for more confirmed right whale deaths than any other human-related activity. The strategy addresses the lack of recovery of the endangered North Atlantic right whale by reducing the likelihood and threat of ship strike mortalities to the species. NMFS has developed a framework of proposed, new operational measures for the shipping industry as an element of this strategy, including consideration of routing and speed restrictions. These operational measures would be limited to areas and times when North Atlantic right whales and ships overlap to reduce the likelihood of ship strikes to the extent practicable.

459. ● SEA TURTLE REQUIREMENTS FOR COMMERCIAL SCALLOP FISHING

Priority: Other Significant

Legal Authority: 16 USC 1531 to 1543; 16 USC 1361

CFR Citation: 50 CFR 223

Legal Deadline: None

Abstract: NMFS is preparing a rule to require sea turtle conservation measures for all scallop vessels fishing in the mid-Atlantic from May 1 through November 30 each year. Implemented under the Endangered Species Act, the purpose of this rulemaking is to minimize the take of sea turtles in scallop gear. This rule would require all scallop vessels, regardless of size or permit category, to modify their dredge(s) when fishing south of 41° 9.0' N. latitude, from the shoreline to the Exclusive Economic Zone. All dredges used for fishing must be modified with evenly spaced "tickler" chains and "vertical" (up-and-down) chains with the configuration dependent on the size of the dredge frame width.

460. ● TAKING MARINE MAMMALS INCIDENTAL TO OPERATION OF OFFSHORE OIL PRODUCTION FACILITIES IN BEAUFORT SEA

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1371 et seq

CFR Citation: 50 CFR 200 to 210

Legal Deadline: None

Abstract: NOAA Fisheries is amending its regulations governing the taking of marine mammals incidental to operations at the Northstar oil production facility in the U.S. Beaufort Sea off Alaska. These revised regulations authorize the incidental, but not intentional, taking of small numbers of six species of marine mammals in the event that such taking occurred during the operation of the Northstar facility. Takings are limited to harassment and no injury or mortality of marine mammals is anticipated. Potential effects on native subsistence could result also from direct actions of oil development upon the biological resources or from associated changes in human behavior. As a result, in compliance with regulations, mitigation measures have been implemented that mitigates impacts on subsistence uses of marine resources.

DOC—NOAA

Proposed Rule Stage

461. • PROPOSED THREATENED STATUS FOR SOUTHERN DISTINCT POPULATION SEGMENT OF NORTH AMERICAN GREEN STURGEON

Priority: Substantive, Nonsignificant
Legal Authority: 16 USC 1531 to 1543; 16 USC 1361 et seq
CFR Citation: 50 CFR 223
Legal Deadline: NPRM, Judicial, April 1, 2005, District Court remanded “not warranted” determination to NMFS. Due to a court remand of our “not warranted” determination.
Abstract: This is a rule to list the Southern Distinct Population Segment (DPS) of green sturgeon as threatened under the Endangered Species Act. We conclude that the Southern DPS is not endangered because of actions being taken that provide some possible benefits to the DPS. However, the

Southern DPS is threatened based on: (1) The reduction of potential spawning habitat; (2) the threats to the single remaining spawning population remaining severe and unlikely to be sufficiently alleviated by conservation measures currently in place; and (3) the downward trend of sturgeon salvage estimates from State (1968-2003) and Federal (1980-2003) facilities. The Northern DPS is neither endangered nor threatened, but remaining uncertainties have led us to retain the DPS on the “species of concern” list. Section 4(d) provides that the Secretary shall issue such regulations as he deems necessary and advisable to provide for the conservation of threatened species. We intend to publish a regulation under section 4(d) for the conservation of the Southern DPS of green sturgeon. We also may designate critical habitat, as long as we

find that it is both prudent and determinable.

467. • LICENSING OF PRIVATE LAND REMOTE-SENSING SPACE SYSTEMS

Priority: Other Significant

Legal Authority: 15 USC 5621

CFR Citation: 15 CFR 960

Legal Deadline: None

Abstract: The National Oceanic and Atmospheric Administration (NOAA) amends its regulations governing the licensing of private Earth remote sensing space systems under title II of the Land Remote Sensing Policy Act of 1992 (the Act). The amendments update the regulations to reflect: (1) The new U.S. policy on commercial remote sensing issued in April 2003, (2) experience gained since August 2000 with respect to the licensing of commercial remote sensing space systems, and (3) improvements that take into account public comments received on the regulations. This rule will allow NOAA to more effectively license Earth remote sensing space systems and help to ensure their

compliance with the requirements of the Act.

AMENDMENT 23 TO THE REEF FISH FISHERY MANAGEMENT PLAN TO SET VERMILION SNAPPER SUSTAINABLE FISHERIES ACT TARGETS AND THRESHOLDS AND TO ESTABLISH A PLAN TO END OVERFISHING AND REBUILD THE STOCK****Priority:** Other Significant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622**Legal Deadline:** None**Abstract:** In October 2003, the National Marine Fisheries Service (NMFS) issued a determination that the Gulf of Mexico vermilion snapper stock is overfished. The stock had been previously determined to be undergoing overfishing in November 1999. These determinations were based on vermilion snapper stock assessments conducted in 1999 and 2001. Once a stock has been determined to be overfished, the Magnuson-Stevens Act requires the Gulf of Mexico Fishery Management Council within one year to submit a plan to NMFS to end overfishing and rebuild the stock to a level capable of sustaining maximum sustainable yield on a continuing basis. This rebuilding plan contains alternatives that would rebuild the stock in less than 10 years. Measures to reduce commercial and recreational fishing mortality so that the stock can rebuild include vermilion snapper size limits, bag limits, trip limits, quotas, and closed seasons. In addition, alternatives for establishing vermilion snapper biological reference points and status determination criteria are included in the plan.**Timetable:**

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: 16 USC 1801

CFR Citation: 50 CFR 679; 50 CFR 680

Legal Deadline: Other, Statutory, January 1, 2005, Secretary approval of statutorily mandated FMP Amendment.

Abstract: This action would rationalize the Bering Sea and Aleutian Islands crab fisheries in the United States Exclusive Economic Zone off Alaska by amending the Fishery Management Plan for Bering Sea and Aleutian Islands King and Tanner Crabs. The goal of rationalization is to end the race for fish and solve the problems of overcapacity while providing for a balanced distribution of benefits and improving fisheries management and resource conservation.

482. AMENDMENT NUMBER 15 TO THE FISHERY MANAGEMENT PLAN FOR THE COASTAL MIGRATORY PELAGIC RESOURCES OF THE GULF OF MEXICO AND SOUTH ATLANTIC REGION

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622**Legal Deadline:** None

Abstract: Amendment 15 provides alternatives to address the current commercial king mackerel permit moratorium that will be expiring on October 15, 2005. Alternatives include possible extensions of the moratorium for a finite period of time or to establish a limited access license for an indefinite period of time. Amendment 15 also provides alternatives to potentially change the fishing year for Atlantic migratory group king and Spanish mackerel from an April 1 through March 31 period to a March 1 through February 28/29 period or a January 1 through December 31 period.

486. LIST OF FISHERIES FOR 2005

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1361 et seq

CFR Citation: 50 CFR 229

Legal Deadline: None

Abstract: With this action, NMFS publishes the annual List of Fisheries (LOF), as required by section 118 of the Marine Mammal Protection Act (MMPA). The proposed LOF for 2005 reflects new information on interactions between commercial fisheries and marine mammals. NMFS must categorize each commercial fishery on the LOF into one of three categories under the MMPA based upon the levels of mortality and serious injury of marine mammals that occurs within each fishery. The categorization of a fishery in the LOF determines whether participants in that fishery are subject to certain provisions of the MMPA, such as registration, observer coverage, and take reduction plan requirements.

488. ● CORRECTION TO FINAL RULE FOR HIGHLY MIGRATORY SPECIES FISHERY MANAGEMENT PLAN

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: None

Abstract: NMFS publishes a correction to the final rule published in the Federal Register on April 7, 2004 (69 FR 18444) to implement the Fishery Management Plan for U.S. West Coast Fisheries for Highly Migratory Species (FMP). The final rule should have contained the language defining a loggerhead conservation area in which drift gillnet fishing would be prohibited during a declared El Nino year, as published in the Federal Register on December 16, 2003 (68 FR 69962). The intended effect of this action is to ensure that loggerhead sea turtles will receive the necessary protection from excessive takes in El Nino years.

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 971 et seq; 16 USC 1801 et seq

CFR Citation: 50 CFR 635

Legal Deadline: None

Abstract: This action would implement specifications for the Atlantic bluefin tuna (BFT) fishery to set BFT quotas and General category effort controls for the 2005 fishing year. The purpose of this action is to implement the U.S. annual BFT quota as recommended by the International Commission for the Conservation of Atlantic Tunas and allocate that quota among the domestic fishing categories. Effort controls for the General category would allocate monthly quotas and set certain restricted fishing days.

Abstract: Pursuant to Part I of the Federal Power Act (Act), 16 U.S.C. 791a et seq., the Department of Commerce (Department), acting through the National Marine Fisheries Service (NMFS), provides input to the Federal Energy Regulatory Commission (Commission) on a number of issues related to licensing non-federal hydroelectric generating facilities. Among others, NMFS' authorities include the authority to prescribe fishways pursuant to section 18 of the Act, 16 U.S.C. 811. Pursuant to its section 18 authority, NMFS reviews applications for hydropower licenses before the Commission, and after consultation with license applicants, prescribes new or modified fishways where such facilities are warranted based on studies and other information in the administrative record of the licensing proceeding. This action codifies the existing MCRP, providing for public review of NMFS' mandatory section 18 fishway prescriptions, and an opportunity to modify prescriptions if warranted based on public review, prior to their being included in a final license order.

496. TAKING MARINE MAMMALS INCIDENTAL TO ROCKET LAUNCHES FROM THE KODIAK LAUNCH COMPLEX, KODIAK ISLAND, ALASKA

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1361 et seq

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: NMFS has received a request from the Alaska Aerospace Development Corporation (AADC) for a Letter of Authorization (LOA) to take small numbers of marine mammals incidental to rocket launches from the Kodiak Launch Complex (KLC), Kodiak Island, Alaska. As a result of that

request, NMFS is proposing regulations that would authorize the incidental taking of a small number of marine mammals. In order to issue such regulations, NMFS must determine that these takings will have a negligible impact on the affected species and stocks of marine mammals and will not have an unmitigable adverse impact on the availability of marine mammal species or stocks for subsistence uses.

Final, Statutory, January 2004.

There is a deadline under the MMPA, but noting that we cannot meet this deadline because of requirements related to compliance with other laws, such as NEPA and the Regulatory Flexibility Act.

Abstract: This action would implement management measures to (1) reduce the incidental mortality and serious injury (bycatch) of the western North Atlantic coastal bottlenose dolphin stock (dolphins) (*Tursiops truncatus*) in the mid-Atlantic coastal gillnet fishery and eight other coastal fisheries operating within the dolphin's distributional range; and (2) amend current, seasonal restrictions on large mesh gillnet fisheries operating in the mid-Atlantic region to reduce the incidental take of sea turtles in North Carolina and

Virginia state waters. This action would use effort reduction measures, gear proximity rules, gear or gear deployment modifications, fishermen training, and outreach and education measures to reduce dolphin bycatch below the marine mammal stock's potential biological removal level (PBR); and time/area closures and size restrictions on large mesh fisheries to reduce incidental takes of endangered and threatened sea turtles as well as to reduce dolphin bycatch below the stock's PBR.

NMFS has requested an extension to the court-ordered deadline, but no decision has been made as of 4/23/2004.

Abstract: NMFS has completed status reviews for 26 West Coast salmon and O. mykiss (inclusive of anadromous steelhead and co-occurring resident rainbow trout) Evolutionarily Significant Units (ESUs) previously listed as threatened and endangered species under the ESA, as well as one

ESU that was designated as a candidate species. Following a September 2001 U.S. District Court ruling that rejected how NMFS treats hatchery populations in its listing determinations, the agency received several petitions seeking to delist, or to redefine and list several ESUs on the basis of the Court's ruling. In response to these petitions NMFS initiated status reviews for 16 ESUs, and elected to conduct status reviews for an additional 11 ESUs. Based on these reviews, NMFS is taking this action to list ESUs as endangered or threatened, and also to delist ESUs as necessary.

Abstract: NMFS is amending its regulations governing the taking of marine mammals incidental to operations of the U.S. Navy's SURTASS LFA sonar to implement provisions of the National Defense Authorization Act of 2004 (NDAA). The President signed into law the NDAA (P.L. 108-136) on November 24, 2003. Included in this law were amendments to the Marine Mammal Protection Act (MMPA) that apply where a "military readiness activity" is concerned. NMFS and the Navy have determined that the Navy's

DOC—NOAA

Final Rule Stage

SURTASS LFA sonar testing and training operations that are the subject of NMFS' July 16, 2002 (67 FR 46712) final rule constitute a military readiness activity because those activities constitute "training and operations of the Armed Forces that relate to combat" and constitute "adequate and realistic testing of military equipment, vehicles, weapons and sensors for proper operation and suitability for combat use."

Abstract: This rule would modify trade restriction measures pursuant to recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT) approved during the 2004 meeting. This rule would lift the trade restrictions on import of bigeye tuna from Cambodia; the ban on the import of bigeye tuna and bluefin tuna from Equatorial Guinea; and the trade restrictions on the import of bigeye tuna, bluefin tuna, and swordfish from Sierra Leone. This rule would also correct section reference conflicts between two rules that published in the Federal Register on November 17, 2004, and December 6, 2004.

506. CERTIFICATION REQUIREMENTS FOR NOAA ELECTRONIC NAVIGATIONAL CHART DISTRIBUTION

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 892(a) to 892(b); HSI A 2002, sec 303; HSI A 2002, sec 304

CFR Citation: 50 CFR 995

Legal Deadline: NPRM, Statutory, December 19, 2004, By not later than 2 years after the date of enactment of the HSI A Amendments of 2002. Mandate to certify hydrographic products that satisfy the standards promulgated by the Administrator no later than 2 years after the date of enactment of the Hydrographic Services Improvement Act Amendments of 2002.

Abstract: The National Oceanic and Atmospheric Administration (NOAA) amends its regulations to add certification requirements with standards for applicants who want to distribute NOAA Electronic Navigational Charts (NOAA ENC) as official data. NOAA intends to offer two types of certification. The first type, "Certified NOAA ENC Distributor," is for NOAA ENC downloading, exact copying, and redistribution of those copies of NOAA ENC data. The second type, "Certified NOAA ENC Value Added Distributor," permits reformatting official NOAA

ENCs into a System Electronic Navigational Chart (SENC) using type-approved software, and distribution of that SENC. Both types of certification result in products that meet Federal chart carriage regulations. Both types of certification permit, but do not require, compression, encryption, and packaging with other data. NOAA intends by this action to assure that quality official NOAA ENC data is offered to the public in support of safe navigation on U.S. waters.

511. • COMMERCIAL GROUPEY FISHERY OF THE GULF OF MEXICO; ESTABLISHMENT OF A CONTROL DATE

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: None

Abstract: In anticipation of future action to establish regulations limiting participation in the grouper fishery of the Gulf of Mexico, the Gulf of Mexico Fishery Management Council (Council) has voted to establish a control date of October 15, 2004, for the commercial grouper fishery. The establishment of a control date does not commit the Council or the National Marine Fisheries Service to any particular management regime. A control date may be used as part of the qualifying criteria for entry into the fishery. Fishermen, however, are not guaranteed future participation in the fishery regardless of their entry date or intensity of participation in the fishery before or after the control date under consideration. The Council may choose to use a different control date or they may choose a management regime that does not make use of such a date. The

Council may choose to give variably weighted consideration to fishermen active in the fishery before and after the control date. Other qualifying criteria, such as documentation of landings and sales, may be applied for entry. The Council also may choose to take no further action to control entry or access to the fishery, in which case the control date may be rescinded.

FULL RETENTION OF DEMERSAL SHELF ROCKFISH IN GULF OF ALASKA AREA 650****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 679**Legal Deadline:** None**Abstract:** This regulatory amendment requires full retention of demersal shelf rockfish (DSR) in the hook-and-line fisheries in the Gulf of Alaska, Regulatory Area 650. This rule would eliminate the maximum retainable bycatch limit for DSR, and require that all DSR caught by Federally permitted vessels using fixed gear in the Southeast Outside be retained, landed, weighted, and reported. When DSR is closed to directed fishing, fishermen would be allowed to retain the

proceeds from the sale of any DSR not in excess of 10 percent of the aggregate round weight equivalence of IFQ Pacific halibut and groundfish species that are landed during the same fishing trip, or 1 percent of sablefish landed. Any DSR landed in excess of these limits could be retained for any use except sale, barter, or trade. This could include personal consumption or donation to a nonprofit charitable organization.

Abstract: This rule would implement the trade restrictive measures recommended at the 2002 and 2003 meeting of the International Commission for the Conservation of Atlantic Tunas (ICCAT). The rule would lift the import prohibition on Atlantic bigeye tuna from Honduras, St. Vincent and the Grenadines, and Belize. Bigeye tuna imports from Sierra Leone, Bolivia, and Georgia would be banned. The import prohibitions on Atlantic bluefin tuna and Atlantic swordfish would be lifted from Honduras and Belize. Bluefin tuna and swordfish imports from Sierra Leone would be banned. The rule would also prohibit imports from vessels on the ICCAT negative list and would require prior notification from NMFS before a U.S. documented or registered vessel enters a chartering arrangement with another country.

531. CONSIDERATION OF REVISION TO ESSENTIAL FISH HABITAT (EFH) GUIDELINES (50 CFR PART 600)

Priority: Other Significant

Legal Authority: 16 USC 1855(b)(1)(A)

CFR Citation: 50 CFR 600

Legal Deadline: None

Abstract: NMFS is evaluating whether to revise the essential fish habitat (EFH) guidelines promulgated through regulation in a January 17, 2002, final rule. The evaluation and potential revisions will address the ongoing public interest in EFH management, and NMFS' prior commitment to evaluate the efficacy of the EFH guidelines through an appropriate public process. The intended effect of the action is to ensure the EFH guidelines effectively implement the EFH provisions of the Magnuson-Stevens Fishery Conservation and Management Act.

532. AMENDMENT 48 TO THE FISHERY MANAGEMENT PLAN FOR THE GROUND FISH FISHERY OF THE BERING SEA AND ALEUTIAN ISLANDS AND GULF OF ALASKA

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This action amends the process by which harvest specifications would be set in future years. It would update descriptions of the fisheries by removing references to foreign fishing, revise the description of the harvest specifications process to provide for 18 months specifications for most target species and biennial harvest specifications for certain Gulf of Alaska species, revise the name of the Bering Sea and Aleutian Islands FMP to be consistent with the more concise title of the Gulf of Alaska FMP, and update plan team responsibilities in the harvest specifications process. Objectives for the revised process include managing the Alaska groundfish fisheries based on the best available scientific information and providing meaningful opportunity for useful public comment.

533. ATLANTIC HIGHLY MIGRATORY SPECIES (HMS); 2004 BLUEFIN TUNA QUOTA SPECIFICATIONS AND GENERAL CATEGORY EFFORT CONTROLS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 971; 16 USC 1801 et seq

CFR Citation: 50 CFR 635

Legal Deadline: None

Abstract: This action will set Atlantic bluefin tuna (BFT) quotas and General category effort controls for the 2004 fishing year. This action will implement the U.S. annual BFT quota as recommended by the International Commission on Conservation of Atlantic Tunas and allocate that quota among the domestic fishing categories. Effort controls for the General category will allocate monthly quotas and set certain restricted fishing days.

534. HALIBUT SUBSISTENCE II

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq; 16 USC 773 et seq

CFR Citation: 50 CFR 300; 50 CFR 600; 50 CFR 679

Legal Deadline: None

Abstract: This rulemaking amends the rule authorizing subsistence fishery for

Pacific halibut in waters off Alaska. These regulations are necessary to address conservation concerns in densely populated areas. Existing subsistence halibut regulations fail to recognize distinctions between different geographic regions. Because of the variation between geographic regions, some of the regions require more narrowly tailored gear and harvest limitations. The purpose of this action is to amend the current regulations authorizing a subsistence fishery for halibut in Convention waters off Alaska. The main goal of this action is to adjust gear and harvest restrictions for Alaska residents who practice subsistence fishing for halibut specific to their respective region. An additional goal is to implement specific mitigation measures for tribes and rural communities in areas where gear and harvest limitations may action is considered non-controversial because it moderately amends an existing rule.

542. RESTRICTIONS FOR 2004 PURSE SEINE AND LONGLINE FISHERIES IN THE EASTERN TROPICAL PACIFIC OCEAN

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 951 to 961; 16 USC 971 et seq

CFR Citation: 50 CFR 300

Legal Deadline: Final, Statutory, July 1, 2004, Agreement under IATTC.

Abstract: NMFS announces the 2004 conservation and management measures for international tuna fisheries in the eastern tropical Pacific Ocean. These are a six-week closure of purse seine fisheries and a closure of any national longline fishery which reaches a catch level for bigeye tuna equal to the catch made by that fleet in 2001. The Tuna Conventions Act calls for the United States to take action to implement conservation and management measures for the U.S. fisheries that are affected. Thus, the intended effect of the rule is to establish prohibition of U.S. vessels purse seine fishing for tuna in the IATTC convention area for the November 20 - December 31 period and to announce that the U.S. longline fishery in the convention area will be closed if the catch in 2004 reaches the catch level of 2001. This will conform to the IATTC recommendation that was approved by the Department of State.

543. GULF OF ALASKA STELLER SEA LION PROTECTION MEASURES REVISIONS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This action will revise Steller sea lion protection measures for the pollock and Pacific cod fisheries in the Gulf of Alaska (GOA). The revisions adjust fishing closure areas near four Steller sea lion haulouts for pollock and Pacific cod fisheries and would modify the seasonal management of pollock harvest in the GOA. The intent of the revisions is to provide some economic relief to GOA communities while maintaining protection for Steller sea lions and their critical habitat.

544. REORGANIZE, BY REDESIGNATION, THE FISHING CAPACITY REDUCTION PROGRAM (FCRP) REGULATIONS AND FCRP FEE SYSTEM REGULATIONS

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: None

Legal Deadline: None

Abstract: This action will amend the regulations in order to reorganize, by redesignation, the fishing capacity reduction program (FCRP) regulations and FCRP fee system regulations. To accomplish this, it is also necessary to redesignate regulatory provisions implementing the Shark Finning Prohibition Act. The redesignation involves changing subparts, renumbering regulatory provisions, and revising regulatory references. The substantive provisions are not changed in any way; only the old Code of Federal Regulations unit numbers are redesignated with new CFR unit

DOC—NOAA

Completed Actions

numbers. Also, one subpart title and one section title are modified. Several sections are reserved to ensure a logical organization. The intent of this rule is to improve understanding and ease of use of FCRP regulations, and to make additional sequential section numbers available for future FCRP regulations.

546. REVISIONS TO THE PACIFIC HALIBUT CATCH SHARING PLAN FOR 2005 AND BEYOND

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 300

Legal Deadline: None

Abstract: Each year, the Pacific Fishery Management Council (Council) reviews its Pacific Halibut Catch Sharing Plan (Plan) with the public to determine whether revisions are needed to management objectives for any of the West Coast halibut fisheries. Off the coast of Washington, halibut treaty tribes hold a directed commercial fishery and a ceremonial and subsistence fishery for halibut. Non-treaty fishers operating off Washington, Oregon, and California participate in one of three separate commercial fisheries, and/or in one of seven separate recreational fisheries for halibut. For 2005, changes to the Plan may include: changing the opening date of the north Washington coast subarea; closing the south Washington coast subarea when a certain amount of quota is projected to remain and allowing the northern and southern nearshore areas to harvest the remaining quota; setting an annual bag limit off Washington of 5 halibut per person per calendar year; adding a weekly limit off Washington of two halibut per person per calendar week; changing the Oregon central coast all-depth fishery bag limit to two halibut per person; creating two "yelloweye" rockfish conservation areas off Oregon to reduce the take the overfished groundfish species in the halibut fishery; and allowing retention of halibut bycatch in the open access sablefish fishery.

548. CLARIFY THE DAYS-AT-SEA (DAS) BASELINE ALLOCATION PROCEDURE IMPLEMENTED IN AMENDMENT 13 TO THE NORTHEAST MULTISPECIES FISHERY MANAGEMENT PLAN

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 648

Legal Deadline: None

Abstract: This action proposes to clarify the baseline DAS allocation procedure established in the final rule implementing Amendment 13 to the Northeast Multispecies Fishery Management Plan. The proposed rule to implement Amendment 13 stated that a vessel's baseline DAS allocation would be determined by the highest number of reported DAS fished during a single qualifying fishing year, where the vessel landed at least 5,000 lb of regulated multispecies, during the 6-year period from May 1, 1996 through April 30, 2002. It was the intent of the Council to cap a vessel's DAS used at the vessel's annual allocation prior to August 1, 2002, and it was how the analysis was conducted in the EIS prepared for Amendment 13. However, this DAS cap was not stated in the proposed rule for Amendment 13, but included in the final rule. Because the public was not provided with the opportunity to comment on this cap in DAS usage in the proposed rule, NMFS is providing this opportunity by

DOC—NOAA

Completed Actions

clarifying the existing regulations through interim rulemaking, which will include publication of a proposed interim rule.

550. • EMERGENCY RULE TO IMPLEMENT A TRIP LIMIT FOR THE COMMERCIAL GROUPEY FISHERY IN THE GULF OF MEXICO FOR 2005

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: None

Abstract: At its November 7-12, 2004, meeting, the Council considered a request from the Southern Offshore Fishing Association (SOFA) and Gulf Fishermen's Association (GFA) for an interim or emergency rule to establish commercial trip limits for shallow-water and deep-water grouper. SOFA and GFA maintained that the closure of both the deep-water grouper and shallow-water grouper fisheries, combined with the damaging effects of four hurricanes, severely impacted the Florida economy, especially regions along the west coast and Panhandle. Trip limits were requested to potentially extend the 2005 fishing season and delay an end-of-year closure, thus reducing potential adverse economic consequences for all sectors of the commercial grouper fishery, including those fishing communities dependent upon it. After considerable discussion, the Council voted to have NOAA Fisheries develop an emergency rule establishing trip limits for the commercial grouper fishery in the Gulf of Mexico for the 2005 fishing year. The intended effect of this emergency rule is to moderate the rate of harvest of the available quotas and, thereby, reduce the adverse socioeconomic effects of derby fishing, enable more effective quota monitoring, and reduce the probability of overfishing.

551. • EMERGENCY RULE TO REOPEN APPLICATION PROCESS FOR CHARTER VESSEL AND HEADBOAT PERMIT MORATORIUM IN GULF OF MEXICO

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: None

Abstract: This action would reopen the application process for the charter vessel and headboat moratorium in the Gulf of Mexico. Qualifying persons, who were unable to previously obtain a moratorium permit, will have to provide documentation that they were economically harmed by the permit moratorium. The intent of the emergency rule is to minimize adverse socioeconomic effects on Gulf charter vessel and headboat operators, who meet the original moratorium permit eligibility requirements but were unable to previously obtain a moratorium permit.

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 773

CFR Citation: 50 CFR 300

Legal Deadline: None

Abstract: The AA for Fisheries, on behalf of the IPHC, publishes annual management measures governing the Pacific Halibut fishery which are approved by the Secretary of State. This action provides public notice of the effectiveness of these IPHC annual management measures and informs persons subject to them of their restrictions and requirements.

554. ATLANTIC LARGE WHALE 2002 SEASONAL AREA MANAGEMENT (SAM) PROGRAM

Priority: Other Significant

Legal Authority: 16 USC 1361 et seq

CFR Citation: 50 CFR 229

Legal Deadline: NPRM, Judicial, November 23, 2001, The Federal District Court for the District of Massachusetts order.
Final, Judicial, December 31, 2001, The Federal District Court for the District of Massachusetts order.

Abstract: NMFS is preparing regulations to implement a SAM program for the 2002 fishing year, which was identified as a measure under the RPA that resulted from the biological opinions prepared for the Northeast multispecies, monkfish, spiny dogfish, and American lobster fisheries. The 2002 SAM program is intended as an incremental step to provide endangered western North Atlantic right whales protection from entanglement with fishing gear used in those fisheries. NMFS is preparing an EIS for more comprehensive SAM regulations for 2003 and beyond, in accordance with the National Environmental Policy Act (NEPA), to analyze the impacts on the human environment of the management alternatives under consideration. The measures that have been identified for the 2002 SAM proposed rulemaking requires reduction, elimination, and/or modification of certain types of fixed gear (i.e., gillnets and lobster traps) in specific areas off the Atlantic coast of the United States during times of the year when right whales are known to be present in significant concentrations.

555. TAKING OF MARINE MAMMALS INCIDENTAL TO COMMERCIAL FISHING OPERATIONS; TUNA PURSE SEINE VESSELS IN THE EASTERN TROPICAL PACIFIC OCEAN (ETP)

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1315; 16 USC 951

CFR Citation: 50 CFR 216; 50 CFR 300

Legal Deadline: None

Abstract: Pursuant to resolutions adopted by the Inter-American Tropical Tuna Commission and Parties to the Agreement on the International Dolphin Conservation Program, the National Marine Fisheries Service (NMFS) is promulgating regulations to conserve tunas in the Eastern Tropical Pacific Ocean (ETP). Specifically, these regulations would: (1) Establish a register of U.S. vessels with a history of fishing in the ETP prior to June 28, 2002, and require that only vessels on that list would be authorized to use purse seines for fishing for tuna in the ETP; (2) limit the aggregate capacity of U.S. purse seine vessels that may fish full time for tuna in the ETP to 8,969 metric tons carrying capacity per year; (3) revise the requirements for maintaining and submitting tuna tracking and verification records; (4) ensure that owners of U.S. vessels on the register pay annual assessments; and (5) prohibit interference with enforcement and inspection activities, submission of false information, and other activities that would undermine the effectiveness of the Marine Mammal Protection Act, International Dolphin Conservation Program Act, and Dolphin Protection Consumer Information Act. This rule is intended to contribute to the long-term conservation of tuna stocks at levels that support healthy fisheries.

565. QUALITY ASSURANCE PROGRAM FOR HYDROGRAPHIC PRODUCTS**Priority:** Substantive, Nonsignificant**Legal Authority:** 33 USC 892(a); 33 USC 892(b); HSI 2002 sec 303; HSI 2002 sec 304**CFR Citation:** 15 CFR 996**Legal Deadline:** NPRM, Statutory, December 19, 2004.

The Administrator, by not later than 2 years after the date of enactment of the Hydrographic Services Improvement Act Amendment of 2002 [enacted Dec. 19, 2002], shall, subject to the availability of appropriations, develop and implement a quality assurance program that is equally available to all applicants, under which the Administrator may certify hydrographic

products that satisfy the standards promulgated by the Administrator.

Abstract: The National Oceanic and Atmospheric Administration (NOAA) has been mandated to develop and implement a quality assurance program that is equally available to all applicants, under which the Administrator may certify hydrographic products that satisfy the standards promulgated by the Administrator. "Hydrographic products" are any publicly or commercially available product produced by a non-Federal entity that includes or displays hydrographic data. The Administrator proposes to fulfill this mandate by establishing procedures by which hydrographic products are proposed for certification; by which standards and compliance tests are developed, adopted, and applied for those products; and by which certification may awarded or denied. These procedures would be the mandated

Quality Assurance Program, and the implementation of the program would be the execution of those procedures for specific hydrographic products.

Abstract: The National Telecommunications and Information Administration (NTIA) is repealing its regulations governing reimbursement to Federal entities by the private sector as a result of reallocation of frequency

spectrum. The agency is taking this action in accordance with Title II of Public Law 108-494, Commercial Spectrum Enhancement Act, which repealed the provisions in the NTIA Organization Act under which the agency promulgated the regulations. The Commercial Spectrum Enhancement Act established a fund within the Department of Treasury through which money will be provided to federal agencies for the costs incurred in relocating their radio communications systems.

RIN: 0651-AB76**579. • CHANGES TO THE PRACTICE FOR HANDLING PATENT APPLICATIONS FILED WITHOUT THE APPROPRIATE FEES****Priority:** Substantive, Nonsignificant**Legal Authority:** 35 USC 2(b)(2) and 41**CFR Citation:** 37 CFR 1**Legal Deadline:** None

Abstract: Among other changes to patent and trademark fees, the Consolidated Appropriations Act, 2005 (Consolidated Appropriations Act), splits the patent application filing fee into a separate filing fee, search fee and examination fee, and requires an additional fee (application size fee) for applications whose specification and drawings exceed 100 sheets of paper, during fiscal years 2005 and 2006. The United States Patent and Trademark Office is in this action changing the Office's practice for handling patent applications filed without the appropriate filing, search, and examination fees. The Office has implemented the changes to the patent

fees provided in the Consolidated Appropriations Act in a separate rulemaking.

582. CHANGES TO SUPPORT IMPLEMENTATION OF THE UNITED STATES PATENT AND TRADEMARK OFFICE 21ST CENTURY STRATEGIC PLAN

Priority: Substantive, Nonsignificant

Legal Authority: 35 USC 2(b)(2)

CFR Citation: 37 CFR 1

Legal Deadline: None

Abstract: The United States Patent and Trademark Office (Office) has established a 21st Century Strategic Plan to transform the Office into a quality-focused, highly productive, responsive organization supporting a market-driven intellectual property system. The Office revised the rules of practice to support the implementation of the 21st Century Strategic Plan, which involves improving the patent application and examination process by promoting quality enhancement, reducing patent pendency, and using information technology to simplify the patent application process. The more notable changes being made by this action involve permitting typewritten signatures on documents submitted by facsimile, streamlining the requirements for incorporation by reference of priority applications, and clarifying the qualifications for claiming small entity status for purposes of paying reduced patent fees. These changes to the patent application and examination process are necessary for the Office to be able to process the long-term trend of increasing number of applications within a reasonable time frame.

Priority: Substantive, Nonsignificant

Legal Authority: PL 108-447, secs 802 to 803

CFR Citation: 37 CFR 2

Legal Deadline: None

Abstract: This final rule adjusts the fees for filing applications for trademark registration to provide that the fee for an application filed on paper shall be \$375.00 per class of goods or services and that the fee for filing an application electronically through the Trademark Electronic Application System shall be \$325.00 per class of goods or services. The Office is amending certain rules in 37 CFR part 2 to set forth these new application filing fees in accordance with the fee provisions of the Trademark Act of 1946, as amended by the Consolidated Appropriations Act, 2005, (Pub. L. 108-447).
