Proposed Rule Stage

OFFICE OF ACQUISITION POLICY

3293. • GENERAL SERVICES ADMINISTRATION ACQUISITION REGULATION (GSAR) CASE 2005-G501; FEDERAL AGENCY RETAIL PHARMACY PROGRAM

Priority: Other Significant

Legal Authority: 40 USC 121(c)

CFR Citation: 48 CFR 538; 48 CFR 552

Legal Deadline: None

Abstract: The General Services Administration (GSA) is proposing to amend the General Services Acquisition Regulation (GSAR) to add a new subpart and clause required by the Department of Veterans Affairs (VA), consistent with congressional intent under section 603 of the Veterans Health Care Act of 1992 (VHCA), that certain Federal agencies (i.e., VA, Department of Defense (DoD), Public Health Service (including the Indian

Health Service), and the Coast Guard) have access to Federal pricing for pharmaceuticals purchased for their beneficiaries.

GSA is responsible for the schedules program and rules related to its operation. Under GSA's delegation of authority, the VA procures medical supplies under the VA Federal Supply Schedule program. VA and DoD seek this amendment. This new subpart adds a clause unique to the virtual depot system established by a Federal Agency Retail Pharmacy Program utilizing contracted retail pharmacies as part of a centralized pharmaceutical commodity management program. At this time, only DoD has a program in place, and the rule would facilitate DoD's access to Federal pricing offered on Federal Supply Schedule (FSS) pharmaceutical contracts for covered drugs purchased by DoD and dispensed to TRICARE beneficiaries through retail pharmacies in the TRICARE network.

OFFICE OF GOVERNMENTWIDE

REGULATION (FMR) AMENDMENT
2003-2; FMR CASE 2003-102-1; MAIL
MANAGEMENT****Priority:** Substantive, Nonsignificant**Legal Authority:** 44 USC 2904; 40 USC
121(c)**CFR Citation:** 41 CFR 102-192**Legal Deadline:** None

Abstract: The interim rule published in the Federal Register at 67 FR 38896, June 6, 2002, revised FPMR 101-9 and moved it into the Federal Management Regulation at 102-192. The new rule, rewritten in plain language, established four requirements at the agency level. Specifically, all agencies must (1) have written security plans at the agency and facility level; (2) ensure that mail costs are identified at the program level; (3) ensure that all payments to the United States Postal Service are made using commercial payment processes (i.e., not using the Postal Service's Official Mail Accounting System)—the effective date of this requirement will be October 1, 2003; and (4) have performance measures for mail operations. In addition, the new rule requires all agencies that spend over \$1 million per year on postage to send GSA an annual report that states the total amounts spent on postage, verifies that facility security plans have been reviewed at the agency level, identifies performance measures in use, and describes the agency's plans to improve the efficiency and effectiveness of their mail operations.

This second interim rule amended the Federal Management Regulation (FMR) to extend the deadline for agencies to convert to commercial payment to the United States Postal Service instead of the Official Mail Accounting System (OMAS). This rule amended the interim rule published in the Federal Register at 67 FR 38896, June 6, 2002, to reflect the extension of the deadline from October 1, 2003, to December 31, 2003.

The FMR and corresponding documents are available via the Internet at <http://www.gsa.gov>.

2. Motor vehicle identification requirements have been changed. All required identifiers are now to be included on the license plate: "For Official Use Only," "U.S. Government," and Federal agency or bureau identification. Previously, the identifiers were on decals that were placed on the vehicles. A waiver is currently allowing agencies to deviate from the decal requirement.
3. UNICOR is the mandatory supplier of official U.S. Government license plates. Lorton Prison in Virginia was the supplier for a number of years but has closed. The GSA Federal Vehicle Policy Division (MTV) initiated a Memorandum of Understanding (MOU) with UNICOR to provide license plates to all Federal agencies.
4. Agencies are identified by a letter code on the license plate. For example, the letter G designates GSA Fleet.
5. The exemption from displaying U.S. Government license plates and other motor vehicle identification currently did not allow agencies to request this on administrative vehicles that were not directly connected to investigative, law enforcement, or intelligence duties. Our office issued a waiver to this after the events of September 11, 2001, at the request of the agencies. This note has been removed to allow agencies to request an exemption on all their vehicles.
6. Addition of a clause that agencies are required to purchase EPA-designated content products such as re-refined engine oils, retread tires, and reclaimed engine coolant.
7. The Federal Motor Vehicle Fleet Report reporting is now accomplished through the Federal Automotive Statistical Tool (FAST). FAST is an Internet-based reporting system used by GSA and the Department of Energy to capture motor vehicle inventory, cost, fuel, and use data from all Federal agencies.
8. A new subpart has been added on Environmental Concerns, which addresses hazardous wastes, Clean Air Act Amendments of 1990, Energy Policy Act of 1992, Executive Order 13149, the Federal Fleet Program, EPA-

designated recycled content products, and the Federal Alternative Fuel Vehicle USER Program.

reviews and adjusts policies as a part of its ongoing mission to provide policy assistance to the Government agencies bound by the Federal Travel Regulation (FTR). As part of that ongoing mission, GSA created the Relocation Best Practices Committee (RBPC) to examine Government relocation policy. The RBPC consists of Government as well as private sector relocation experts. The RBPC researched and produced a complete package of relocation changes that included both statutory as well as regulatory elements. The proposed FTR changes are the result of RBPC recommendations, benchmarking against private industry, and GSA, representing Governmentwide policy needs. The proposed changes are intended to keep Government relocation practices in line with current relocation trends and allow for better management of the Government relocation programs including costs.
