Proposed Rule Stage

3076. ASTRONAUT HEALTH CARE PROVISION

Priority: Other Significant

Legal Authority: Not Yet Determined

CFR Citation: 14 CFR 1205

Legal Deadline: None

Abstract: The Astronaut Health Care for Life Provision initiative responds to a critical need identified by NASA, with concurrence by the Institute of Medicine, to create a comprehensive

health care system for astronauts and their families that enables the capture and study of all relevant data necessary to ameliorate the risks of space flight. The Astronaut Care Provision effort focuses on the best means to develop a responsible, complete, and comprehensive health insurance program for astronauts and their dependents. If successfully designed and implemented, such a program should enhance understanding of how

humans can travel safely and live longer in space and, as an additional benefit, how humans can live longer on earth. In order to provide this comprehensive health care for the dependents of active astronauts, retired astronauts, and their dependents, NASA needs the appropriate authority stipulated in legislation.
